## INJUNCTIONS AND CLAIMS BAR PANAMA

### Senator Mitchell of Oregon Calls Obstacles Insurmountable.

### ENDLESS LITIGATION SURE TO FOLLOW

### Thousands of Stockholders in Canal at Isthmus Would Demand Dividends.

### ROUTE IS NOT FEASIBLE

[SPECIAL TELEGRAM TO THE GAZETTE.]
(Copyright, 1902, by The New York Herald Co.)

WASHINGTON, D. C., Jan. 19.—Unshaken by the supplemental report of the Isthmian canal commission in favor of Panama, the supporters of the Nicaragua bill, both in the canal committee and in the senate, are continuing their campaign as if no new developments had occurred.

On those senators who, like Senator Morgan, from the first have stuck for the Nicaragua bill, the report submitted to the president Saturday appears to have but little effect. They hold that it throws no new light on the situation, inasmuch as the commission is only supporting itself. For in the original report they say there is no doubt but that the members of the commission would have favored Panama if the $40,000,000 offer had been made in time.

SENATOR MORGAN,
Of Alabama, Who Advocates the Nicaraguan Route.

Senator Mitchell Unaffected.

Senator Mitchell of Oregon, an important member of the senate canal committee, said tonight that, so far as he was concerned, the supplemental report of the commission would have no effect. Voicing the Nicaragua sentiment in the committee, he said:

"Assuming that the report is true that the canal commission in a supplemental report to the president has come out flatly in favor of the Panama route, I cannot tell what effect it will have on the senate committee on interoceanic canal. However, it does not seem to me to change the situation, and as for myself my views are not altered in any degree.

Endless Litigation Would Ensue.

"I have studied this canal question very thoroughly since the opening of congress and base my objections to accepting the offer of the Panama Canal Company first, on the endless litigation which it is likely to bring upon the United States, second, on a very serious question of legality involved in the sale of the property. Again, it has not been proved to the complete satisfaction of the committee that the Colombian government is ready to make all the concessions which the Panama people assume will be given. I have no doubt that the Colombian government would make these concessions in the end, but there is no complete assurance of it before the committee.

Thousands of Stockholders.

"The number of stockholders of the old Panama Company is variously estimated at from 200,000 to 500,000. Their certificates of stock call for a 5 per cent dividend upon the completion of the canal. Allowing that they have given full legal consent to the sale of the Panama franchise there is every reason to believe that if the United States proceeds to complete the canal and operate it these stockholders will have a moral if not a legal claim on this government. It seems to me that they will have an equity which must in some form be recognized by the United States, and remembering the spoliation claims, which are even yet running on, I can see only trouble ahead in our courts from the stockholders of the old company, and endless trouble at that.

Railroad in the Way.

"Another point of importance is this: The line of the Panama railroad for some miles runs along the route of the canal and would have to be torn up if that route were taken. It is possible for anyone of the individuals owning stock at any time to get out an injunction to prevent the tearing up of this railroad. Such action, of course, would not be possible against the government itself, but it certainly would be possible against individuals doing the work of the government.

"I stand for an interoceanic canal as soon as one can be built. I also stand for the most feasible route and believe firmly that all propositions should be given thorough consideration. Since the opening of congress I have carefully studied this question and it seems to me that the obstacles in the way of accepting the Panama offer are insurmountable."

## SUSPECT ARRESTED.

### Saloonkeeper Believed to Have Been One of the Kansas City Pool-room Robbers.

KANSAS CITY, Jan. 19.—William Rambo a saloonkeeper, arrested at Kansas City, Kas., today, is held on suspicion of being one of the two men who last Monday evening held up five men in a pool room on Delaware street, and got away with $1,500. Jimmy Driscoll, the baseball player, a clerk in the pool room, identified Rambo today as one of the two men. The police say they have other evidence to prove Rambo's connection with the affair.

A detective left tonight for Denver to bring back Al Green, under arrest in that city suspected of being one of the robbers. Green and Rambo are known to have been friends in this city.

Fire Caused $200,000 Damage.

FALL RIVER, MASS., Jan. 19.—Fire today in the Globe yarn mills of the New England Cotton Yarn Company damaged the plant to the extent of about $200,000.

PRINCE HENRY OF PRUSSIA,
Who Is About to Visit the United States.

## HENRY OF PRUSSIA TALKS OF VISIT TO AMBASSADOR WHITE

### He Recalls an Old Sailor's Friendship With Rear Admiral Robley D. Evans.

### TALL MEN IN HIS SUITE

(ASSOCIATED PRESS CABLE TO THE GAZETTE.)

BERLIN, Jan. 19.—Prince Henry of Prussia, in talking over his plans of travel with United States Ambassador White at the dinner given last night by Baron von Richthofen, the German minister of foreign affairs, to Prince and Princess Henry, the American ambassador, and Mrs. White, John B. Jackson, secretary of the embassy, and a number of other distinguished persons, said he was especially pleased with President Roosevelt's selection of Rear Admiral Robley D. Evans to receive him in the United States as there was an old sailor's friendship between them.

English was the only language employed at this dinner at which, beside the guests already mentioned, all the principal personages who will accompany Prince Henry to the United States were present. The prince told Mr. White that he would call upon him some afternoon this week, have a cup of tea and continue their talk about his trip to America.

Prince Henry, who is considerably taller than Emperor William, will be surrounded on his trip to the United States by very large and tall men. Admiral von Tirpitz, the German secretary of the navy, who will accompany the prince, gives the impression of being more than six feet tall, while General von Plessen, a member of the emperor's military household, is equally tall. Vice Admiral von Seckendorf, who will also of the party, is six feet two inches tall and very large of frame.

NEW YORK, Jan. 19.—A meeting of representatives of various German societies of New York and vicinity was held here today to take action concerning the coming to this country of Prince Henry of Prussia. An executive committee of 25 was appointed, but it was decided that it was too early to consider plans. Another meeting will be held next Sunday.

MILWAUKEE, WIS., Jan. 19.—Mayor David S. Rose tonight issued a proclamation for a mass meeting to be held next Thursday night, when a formal invitation will be prepared and extended to Prince Henry of Prussia to visit Milwaukee. Senators Quarles and Spooner and Postmaster General Payne have been asked to co-operate in the movement to include Milwaukee on the itinerary of the royal visitor.

## INSURGENTS DEFEAT STATE TROOPS IN BIG BATTLE

### Venezuelan Revolutionists Are Now Said to Be in Possession of Town of Barquisimeto.

[SPECIAL TELEGRAM TO THE GAZETTE.]
(Copyright, 1902, by New York Herald Co.)

WILLEMSTAD, CURACAO, Jan. 19.—It is reported that the Venezuelan government troops have been defeated in a big battle near Barquisimeto, and that that town is now probably in the possession of the insurgents. Insurgents on the east side of the Gulf of Maracaibo and in the vicinity of Uchiro have begun operations against the Venezuelan government. A report has reached here that there have been hostilities in Maracaibo between the rebels and Castro's soldiers.

PANAMA, COLOMBIA, Jan. 19.—The steamship Lautaro, whose seizure has called forth a protest from the Chilean government, was to have left port this morning with General Alban, governor of the department of Panama, on board. The vessel will probably leave tonight.

Guns from the Colombian warship General Pinzon have been placed on the Lautaro which will be used in the campaign against the insurgent war vessels. Captain Lace still remains on board the Lautaro, in accordance with cable instructions from the South American Steamship Company of Valparaiso, which refused to charter the vessel to the Colombian government so that it could be used as a gunboat.

A new ministry has been formed in Bogota. Senor Velez, governor of Magdalena, has become minister of state; Senor Fernandez, former director of police in Bogota, has succeeded Senor Concha as minister of war, and Senor Cordoba, formerly governor of Cauca, is minister of finance.

The Venezuelan revolution steamship Libertador, formerly the Ban Righ, which carried the Matos expedition to Venezuela, is still at Barranquilla. It is reported that she is having her engines cleaned, but the real object of her call at the Colombian port, or when she will leave it, has not been learned.

The Colombian warship General Pinzon is expected to return to Colon soon. The French line steamship St. Laurent has arrived at Colon. She reports that everything is quiet on the coast.

RIO JANEIRO, Jan. 19.—The Gazetta do Comercio declares that the revolution in Paraguay was instigated by Brazilians, especially by a company which owns plantations in Paraguay. It is said that the company attempted to suppress a revolution in the state of Matto Grosso and requested the aid of Paraguayans. President Aveca refused to give the aid and that fact produced ill-feeling.

## ACTIVE VOLCANO HELD RESPONSIBLE FOR EARTHQUAKES

### Governor of State of Guerrero Takes Charge of Ruined City of Chilpancingo.

### TOWN IS TO BE REBUILT

[BY ASSOCIATED PRESS TO THE GAZETTE.]

MEXICO CITY, Jan. 19.—A telegram to the government observatory announces that the volcano of Colima is again active, and scientific men connect this fact with the prevalence of seismic phenomena. Renewed earthquake shocks were reported from various parts of the country yesterday afternoon, and a slight tremble of the earth was felt here Saturday afternoon.

Governor Mora of Guerrero personally has taken charge of the ruined city of Chilpancingo. The populace is camping out, the camp being guarded by troops, and perfect order reigns. The city will have to be thoroughly rebuilt. More bodies continue to be found as the debris is searched.

## SMUGGLING CHINESE.

### Hiding Place Under a Sidewalk Found Near the Border.

FORT BENTON, MONT., Jan. 19.—By a discovery made here today, a systematic scheme of smuggling Chinese across the border into the United States has been unearthed.

Marshal Snest noticed smoke issuing from beneath the sidewalk of an old restaurant in Front street, and making an investigation, he found a fire burning in the cellar and a Chinaman in hiding. In the cellar were found quantities of all kinds of food, which the celestial had for his own use. He was placed in jail pending further investigation. He asserts he has papers, but was unable to produce them.

## HANNA OBSERVES THE DAY.

### Declines to Discuss Matters of Business on Sunday.

CLEVELAND, O., Jan. 19.—United States Senator Hanna came to Cleveland today. He declined to talk about congressional matters.

"Will the Little Consolidated Company absorb the Big Consolidated Company?" the Senator was asked.

"It's Sunday, and I can't talk business on Sunday," was the senator's reply.

Senator Hanna is in town to attend a meeting of the directors of the Little Consolidated Street Car Company tomorrow.

## WOMAN KILLED TWO MEMBERS OF ORCHESTRA

### They Refused to Play "Rag Time" and Were Shot to Death.

### FIRING OCCURRED IN A DANCE HALL

### A Third Person Was Fatally Wounded by a Stray Bullet.

### WILD PANIC FOLLOWED

[SPECIAL TELEGRAM TO THE GAZETTE.]

MONTGOMERY, W. VA., Jan. 19.—William Slaughter and Ralph Johnsons, colored musicians, were shot dead and Powell Calloway, white, probably mortally wounded on Morris creek, this county, last night. Lillian Williams did the shooting, firing four times. The scene of the tragedy was at a dance six miles south of here, in the heart of the mining regions. Yesterday was pay day at the mines and the usual monthly dance was given, colored people coming from miles around, and even many whites dropping in to witness the festivities.

The dance was on the first floor of a large hall and probably 150 people were inside when the shooting began. The hall had progressed peacefully until near midnight, when Lillian Williams, a resident of the community, entered.

Woman Was Intoxicated.

Her manner soon impressed all that she was intoxicated. Those having the dance in charge immediately notified her to leave. She refused for a time, but on being told that she would be forcibly ejected she departed.

Twenty minutes later she entered the dancing hall seemingly unnoticed. Proceeding to the center of the room she demanded of the orchestra, that it play some "rag time" and play it quick. The orchestra did not heed her demand and a minute later the firing of the revolver was heard. She had drawn the weapon from under her wrap and the shots rang out so quickly that it was difficult to count them.

Slaughter was shot in the mouth and Johnsons in the left breast. Slaughter, after being shot, climbed out of a window back of where he had been seated, but before friends could reach him he was dead.

A Spectator Shot.

One bullet from the woman's revolver penetrated the body of Powell Calloway, a well-known man and timekeeper for a coal company, who had been attracted to the place by the dancing while en route home. He has been unconscious ever since and physicians pronounce his injuries fatal.

The woman, while engaged in the shooting, was knocked down by a negro. It was thought immediately after the tragedy that the woman would be lynched, but officers soon took her to unknown quarters for the night. This morning she was lodged in jail at Montgomery and tomorrow she will be given a preliminary hearing.

The scene in the ball room during and immediately after the shooting was a lively one. Colored men and women ran screaming to every available place of exit and almost every window in the large room was broken out by excited individuals leaping through them. The Williams woman has engaged in shooting affrays prior to this. She was released from jail two weeks ago.

## DISCLOSURES PROMISED.

### Details of Alleged Goebel Murder Conspiracy to Be Told in Court.

FRANKFORT, KY., Jan. 19.—Attorneys for the defense in the Jim Howard murder case say tonight that they will tomorrow put on the witness stand reliable persons who will give all the details of the alleged Goebel murder conspiracy.

They say that this testimony will show that Howard had nothing to do with the crime.

### Philippine Soldier Reaches Home in Time to Compel Sweetheart to Change Bridegrooms.

### PISTOL DRAWN IN CHURCH

[SPECIAL TELEGRAM TO THE GAZETTE.]

ROCHESTER, N. Y., Jan. 19.—Less than three years ago Robert Mason, a well-to-do Woodhull farm lad, kissed his sweetheart good-bye and after exchanging promises to be true, left with his regiment for the Philippines. Mason, on account of his knowledge of woodcraft, was assigned to scouting duty and was in 32 engagements and skirmishes while under Lawton's command in the islands. Owing to the uncertainty of his location it was a difficult matter to keep up his correspondence with home, and during the last 18 months letters almost ceased. During all this time Mason never doubted his sweetheart's promises, and in every engagement carried her likeness over his heart.

Upon returning to Manila some months ago Mason received word from a companion who enlisted with him that caused him to apply for a discharge and hurry home as fast as steam could carry him. Arriving unannounced at Woodhull Saturday morning he heard for the first time that his sweetheart, who had promised to remain true to him always, was to wed another that night in the Methodist church at Almond, her home.

Ceremony Interrupted.

Procuring a horse, he set out for that place, and by hard riding through the snowdrifts managed to reach the church door just as the ceremony started. He waited until the bride and groom reached the altar, when, forcing his way through the loungers at the door, he stalked down the aisle, his erect figure, bronze face and worn, mud-bespattered uniform the center of all eyes.

Miss Shepard, the girl who had pledged herself to him before he retired for war, gave a startled cry and sank to the floor on her knees. His rival, who had made such successful love while Mason was facing the bolos and spears of the bushmen, started violently and had only partly recovered when Mason, pushing forward, whispered a few words in the ear of the trembling bride and ordered the would-be groom to leave the church. His refusal to do so caused Mason to draw his heavy army revolver from its holster, and deliberately cocking it he gave the groom two minutes by the clock in which to leave the building.

Change of Bridegrooms.

By this time the entire assembly was in an uproar, women weeping hysterically and men dropping down behind the benches to be out of range of stray shots. The groom, seeing the determined look upon the veteran's face, decided to take no chances, and muttering a few words hurriedly left the building, after which Mason's revolver went back into his pocket and order was again restored.

The minister was about to dismiss the assembly when, after whispering a few more words to the bride and receiving her nod of assent, Mason asked the minister to continue the ceremony. In another minute the words were said that made Mason and his old sweetheart man and wife, after which followed words of congratulation from the many old friends of the groom, who had not until that time recognized him.

## PRISONERS ESCAPE.

### Moriarity, the Noted Counterfeiter, Leads Dash for Liberty at McNeils Island Prison.

TACOMA, WASH., Jan. 19.—Eleven prisoners, headed by Moriarity, the counterfeiter, escaped from the federal prison at McNeils today by burrowing through a cement floor into the air pipes. A large posse is now in pursuit.

McNeils island is ten miles from Tacoma and there is no way of getting to it except by launch. United States Marshall Ide, with a large force of deputies, left here at 3 o'clock on receipt of notice of the escape, and it is possible he may not return tonight. A correspondent accompanied the party and will return tonight if there shall be any means of doing so.

## NEW FLYING MACHINE.

### Confident Inventors Will Test It First Over a Six-Mile Course.

PENNSVILLE, N. J., Jan. 19.—(Special.)—After several years of hard study Charles E. Atkinson and Newell Gibbons of this place have completed what they believe to be a perfect flying machine.

The first trip will be made to Salem, a distance of six miles, and the speed will be about 30 miles an hour. It is a sort of flying chariot run by electricity, and not in any way complicated. Mr. Atkinson is a blacksmith and Gibbons is his helper.

## VETERAN FROZEN TO DEATH.

### Body Not Discovered Until Several Days After He Died.

BATH, N. Y., Jan. 19.—The lifeless body of Dennis Donovan, an inmate of the Soldiers' home, was found today under an old storehouse a short distance from the Erie depot. He had apparently been dead for several days and the body was frozen stiff. He was 74 years old.

He went to Rochester January 8 for examination by the pension board and was probably returning to his home when he crawled under the shed ... frozen to death.

## FULL MILITARY HONORS GIVEN A DEAD SOLDIER

### Private Charles B. Burtt of the South Side, Who Died in Manila, Was Buried Yesterday.

### TOUCHING SERVICES HELD

To the sad strains of the bugles that "good night" the body of Private Charles B. Burtt of the Twelfth United States infantry, was laid to rest in the South Side cemetery yesterday afternoon. No colonel of regular troops could have had more honor paid him than this young soldier who left his home and friends in the springtime of his manhood to uphold the flag on our foreign possessions.

The body of Private Burtt arrived at his former home, 21 Industry street, on Wednesday, when arrangements were at once made for his funeral. The embalmers' art was perfect and the body was in excellent preservation when exposed to the gaze of the crowds yesterday. Industry street was crowded for almost its entire length with people, and a continual stream of them passed through the room where the body lay.

Services Were Simple.

A squad of police in charge of Capt. Charles K. Gallant handled the crowd so that all who wanted were able to view the corpse of the dead soldier.

The services at the house were very simple. The body, dressed in khaki uniform, rested in a handsome oak casket, which was draped with the American flag. At the foot of the casket was a handsome floral offering in the shape of a keystone, composed of roses, carnations, lilies and narcissus. At the head of the casket was a Maltese cross, violets and white carnations, a tribute from Company F, Fourteenth Pennsylvania volunteers, of which Private Burtt had been a member before he entered the regular army.

To the left of the casket was the corps badge of the One Hundred and Second Pennsylvania volunteers of which the father of the dead soldier had been a member during the civil war. A wreath of lilies and roses from the Philippine war veterans and many other floral tributes of esteem filled the room.

Crowds at the House.

Shortly after 2 o'clock the funeral services began. At this time it was almost impossible to reach the residence of the dead soldier, as the small street was a mass of moving people. A choir composed of Carolyn Ward Schoch, Mamie McCombes, Dr. E. M. Davis and Lewis Davies of the Bingham Street Methodist Episcopal church sang "Come, Ye Disconsolate," "The Vacant Chair" and "Abide with Me." As the close of the singing the Rev. Dr. C. M. Miller of the Bingham Street Methodist Episcopal church delivered the funeral address, which was eulogistic of the soldier.

The remains were borne from the house upon the shoulders of eight privates. All heads were uncovered and the firing squad presented arms as the casket appeared. Taps were sounded by the bugler. When the remains were placed in the hearse the firing squad took position to the rear and the band music played "Nearer, My God, to Thee."

The march to the South Side cemetery was taken up. Upon the arrival at the grave the choir sang "Christian, Good Night." A sharp word of command and the firing squad took position and fired three volleys. Taps, the soldier's farewell, was then sounded, and the sad, sweet tones of the bugles seemed to say:

The Last Farewell.

"Tired soldier from the wars,
Sleep through the night,
Sleep till the shadows war
Their endless flight.
Good night! Good night!"

The funeral escort was one of the largest ever given to a private soldier in this city. The escort of honor was Company F, Eighteenth Pennsylvania volunteer infantry, of which the dead soldier had been a member during the Spanish war. The company was commanded by Maj. S. W. Jeffries, inspector of the Second brigade, its former commander.

Company G of the same regiment, commanded by Capt. Albert Ober, followed, and the firing squad of 50 men were selected from this company. Beside these were were the Philippine war veterans, Friend W. Jenkins Camp No. 10, Spanish-American War Veterans, Lieut. E. P. Geary Post No. 230, Col. J. M. Patterson Post No. 193, Col. Lyale Post No. 128 of Allegheny, Col. Moody Post No. 135 of Mt. Washington and Garfield Post 215 of the West End.

## SUICIDE OF A PRIEST.

### He Was Suffering From Melancholia and Was Being Treated in a Hospital.

ST. LOUIS, Jan. 19.—(Special.)—The Rev. Father Frederick Krainhardt, 62 years old, for 30 years pastor of a German Catholic church at Josephville, Mo., was found dead in his room at the Alexian Brothers hospital this morning. He had hanged himself by means of a rope made up from his sheets which he had tied to the transom above the door.

He had been a patient at the hospital since April 7, 1900. He was suffering from melancholia.

Fire Destroys Hospital.

ST. PAUL, Jan. 19.—A special from White Earth, Indian agency, says: The agency hospital and nurses' quarters burned in connection with the government hospital mission, are in flames and buildings and contents will be a total loss. Fortunately there were no patients in the hospital.

## A UNIQUE WAY OF INTERRUPTING COUNT OF VOTES

### Water Dumped Down Chimney of South Side Polling Place.

### ROOM FILLED WITH CLOUD OF STEAM

### In Recount, Stuckenberg Says He Was Deprived of Many Votes.

### CONTEST IS INSTITUTED

The dumping of a half barrel of water down the chimney of the polling place at the fourth district of the Thirty-first ward may cost the machine two councilmen from that ward.

The citizens of the ward are indignant over the tactics pursued by the machine advocates in the primaries. Friends of August Stuckenberg, who ran for the nomination for select council, and Charles Thomas, who was after the common councilmanic nomination, are loud in their assertions that their candidates were counted out by the adherents of Louis J. Dyne, who beat Stuckenberg on the face of the returns.

CHARLES THOMAS,
Whose Friends Say He Was Counted Out.

Thomas and Stuckenberg will enter the machine the contestants from. Both Stuckenberg was defeated by only 21 votes on the face of the returns and Thomas by only 17 votes.

Peculiar Tactics.

The anti-ring people seem to have a good case against Dyne and his adherents, as the tactics pursued by the fourth district of the ward were, to say the least, open to very grave suspicion, and more in a mass of evidence that all of the primary irregularities which swung in favor of their position a strong one.

The fourth district is Stuckenberg's home, and was regarded as his stronghold. The rest of the ward gave a similar majority against him. The judge of elections in that district is a strong Dyne adherent. The returns from the district were held back until very late Saturday night and the count of the vote was interrupted by an official device, which, the Stuckenberg men claim, cost them a candidate many votes.

The election board was busily engaged in counting the vote at 9 o'clock. Judge Miller, the custodian of the ballots, was sitting within a few feet of the chairman and was keeping tally on the back of the ballots from the ballot box. At that time the vote stood 2 to 1 for Stuckenberg with 207 votes cast. This gave Stuckenberg about 137 votes and Dyne 67.

Was Ordered Out.

About this time somebody told Judge Miller that three men were in the room in the polling place to look out for the interests and to control the flow and walked to the table his watching. Judge Miller, there, took his hat and coat and he would stay there until the count was finished, as he considered the right to supervise the counting of the votes. Mr. Stuckenberg said that at least he was entitled to a seat at the polling place and that the election officers themselves had no right to order him out. The election officers threatened not to proceed with the vote unless he quitted the compartment, and Stuckenberg stuck to his rights until his watcher, Alexander Black, and the count of the vote was 195 to 67 in his favor, almost two to one. Then Stuckenberg thought he could safely leave.

Steam Caused Queer Change.

After Stuckenberg left Mr. Black says somebody dumped half a barrel of water down the chimney and instantly a cloud of steam filled the room. Judge Miller, who was sitting within a few feet of the chairman and keeping tally on the back of the ballots from the ballot box. At that time the vote stood 2 to 1 for Stuckenberg with 207 votes cast. This gave Stuckenberg about 137 votes and Dyne 67.

Was Ordered Out.

About this time somebody told Judge Miller that three men were in the room in the polling place to look out for the interests and to control the flow and walked to the table his watching. Judge Miller, there, took his hat and coat and he would stay there until the count was finished, as he considered the right to supervise the counting of the votes. Mr. Stuckenberg said that at least he was entitled to a seat at the polling place and that the election officers themselves had no right to order him out. The election officers threatened not to proceed with the vote unless he quitted the compartment, and Stuckenberg stuck to his rights until his watcher, Alexander Black, and the count of the vote was 195 to 67 in his favor, almost two to one. Then Stuckenberg thought he could safely leave.

Steam Caused Queer Change.

After Stuckenberg left Mr. Black says somebody dumped half a barrel of water down the chimney and instantly a cloud of steam filled the room. After Mr. Black said he had counted the votes were declared [illegible] again and despite Black's protest the tickets were again scrutinized and the result was declared [illegible] to be 137 to 67 in favor of Stuckenberg.

At Black said he had counted 195 votes for Stuckenberg before the steam was observed. Stuckenberg's friends say that during the disturbance somebody dumped the ballots in a manner so as to [illegible] the [illegible] taking out votes for Stuckenberg's.

Machine's Ripper Game.

A perusal of the rules of the Republican party committee shows that the returns must be made to the committee by 9 p. m. on the Monday following the primary election and that no returns after 9 p. m. by the chairman of the election committee, in this case Patrick Fitzgerald, must decide the contest between the two candidates. In this case Fitzgerald, after all the Stuckenberg supporters were said he held the decision, which is expected, of course, to be in favor of the machine candidate, Pyne.

If the decision is not to our favor, said Mr. Stuckenberg, we will take an appeal to the courts. I won the fight fairly, but was counted out in the interests of the tricks. Besides, there were irregularities in other districts.

If they cannot secure justice any other way they will probably demand an appeal to time will the Chairman party. Mayor Lang has already been named for select council, on the Citizens' ticket, and a committee of One from the Citizens' party, a Democrat and a Republican, will call upon the Democrats of the ward, requesting the holding of the ticket. The Stuckenberg faction will make an effort to have the party committee not indorse Thomas' name, but the [illegible] was [illegible] out, in favor of Thomas, and [illegible] put on the ticket. Thomas made a wonderful run, and in one of the wards [illegible] young man of the ward, [illegible] the nominated Republican, he was defeated by seven votes.

# RING MAKING A BITTER FIGHT AGAINST BOOTH

## Other Candidates Are Being Sacrificed in the Fourteenth Ward.

## BIGHAM'S DEFEAT IS FELT

**Leaves Only Two of Old Machine Whips, Max G. Leslie and John Upperman, and Both Are Likely to Be Whipped.**

The machine is so anxious to defeat James J. Booth for select councilman in the Fourteenth ward, by electing Ernest F. Rusch, that the balance of the councilmanic slate is to be sacrificed. Payroll men are making a special effort for Rusch.

Among those to be sacrificed are W. A. Magee, brother of C. L. Magee and chairman of the finance committee of councils. He knows that he is not getting fair treatment from the machine. In City hall last week Mr. Magee is reported as saying that Senator William Flinn had not only thrown him down, but was tramping upon him.

Senator Flinn does not want James J. Booth, his former business partner, but now his bitterest enemy, to secure a seat in councils. When Mr. Flinn wants to win a point the mere matter of friendships past or present are not allowed to stand in his way. Sentiment is not a part of his makeup.

### Citizens Have Advantage.

The Fourteenth ward has been Citizens party territory from the very start of this campaign, and if the elections were to be held today the machine would be routed. James J. Booth is the most popular man in the ward. He has lived there for years and for about a quarter of a century has been a school director. His name is a household word. Father, mother and children know him and he knows them. In this fight he is making a house to house canvass. Often the door is opened for him by a boy or girl who has listened to his kindly advice in the school room. He is welcomed to the home and when he leaves the voting members of the family have gladly pledged their votes.

### Excellent Organization.

Senator Flinn knows the popularity of his old partner. He realizes that if Mr. Booth is to be defeated every string that the machine can pull must be utilized against him. With Mr. Magee declaring that Flinn is giving him the worst of the deal and the old line Magee men reading knife Flinn, the managing director of the political syndicate in Sixth avenue realizes that his only hope of defeating Booth is in concentrating his forces on Rusch and allowing Controller Lewis, Magee and the other machine candidates for common council to sink or swim by themselves.

Members of the payroll in the Fourteenth ward are making a canvass with a proposition like this "Give us a vote for Ernest Rusch. If you do this we do not care who you support for controller and members of common council. We want to defeat Booth."

### Flinn Fears Result.

The Citizens' party has an excellent organization in the Fourteenth ward, and the Democrats are working with it. The combined forces have the fight won, and expect to experience no difficulty in holding their lines. The machine scheme, to work for Rusch exclusively, is not causing the fusionists any alarm. They are confident that Larkin and the whole Citizens' ticket will win. The machine has been working industriously among the Italians, and at present have most of them lined up. Rusch is a beer agent.

There are other wards in the city where the machine is willing to sacrifice Lewis to secure councilmen. Appeals like this have been made to the Citizens' party by machine candidates for councilmen:

### Do Not Care for Controller.

"If your party will not put a candidate against me I will agree that my friends will not oppose the candidacy of John H. Larkin for controller. If a full opposition ticket be put up we will have to make a fight all along the line. We are satisfied to let Larkin get in, as we believe that he cannot cause the machine any more trouble than did Controller H. L. Gourley."

The defeat of Kirk Q. Bigham is a great disappointment to Senator Flinn. He always found the common councilman willing to obey orders and eager to assist in whipping the weaker machine members into line. He has no one to take his place. The only available man is M. G. Leslie of the Seventeenth ward, and his chance of re-election is slight. Hugh Ferguson is making one of his old-fashioned campaigns, and the Leslies are scared.

### Upperman Is Frightened.

In the select branch, John Upperman of the Fifteenth ward, is the machine whip. Like Bigham he has been unfaltering in his obeyance of Flinn's orders, and could be depended upon to drive the other ring members in the direction dictated by the bosses. Upperman will have the fight of his life to secure a re-election. John E. Wainwright is the candidate of the Citizens' party, and has the indorsement of the Democrats. He is the strongest man in the ward, and is

AUGUST STUCKENBERG,
Who Contests the Result of the Thirty-First Ward Primaries.

at work night and day. The campaign is not a week old and the payroll is scared. Upperman has always been largely dependent upon the machine for his election.

### Clark Is Whipped.

Flinn is credited with being about ready to give up the fight in the Twenty-first. His man, James M. Clark, has not been able to cope with the Douglas forces. For the last week the select councilman has been kept busy hunting men to fill his ticket. All of the strong candidates withdrew and sought indorsements from the Citizens party. Even the machine men say that Clark cannot defeat R. H. Douglas.

The machine has been spending a great deal of money and working the payroll overtime in behalf of Clark. The bosses figure that it is a waste of energy and cash. As both are needed in other wards Clark will likely be left to shift for himself and the machine will be without representation from the Twenty-first ward.

### Have No Right to Vote.

Many of the employes of the street car trust are stationed in the Twenty-first ward. It is said that the Douglas men have discovered that about 300 conductors and motormen are on the registry list and have no legal right to be there. The books will be taken into the courts and efforts made to purge the list.

Friends of William McKelvey, who was Saturday defeated at the ring primaries in the Eighth ward for common councilman, say that he will come out as an independent candidate. It is claimed that he did not agree to abide by the result of the primaries.

During the week attention of the fusion forces will be devoted to seeing that the certificates of nomination and the nomination papers are filed. When this is out of the way the purging of registry lists will be taken up. At the same time the character of the election officers will be inquired into. Every possible avenue for crookedness will be guarded against. In every district the court will be asked to appoint overseers. These officials have much power and if energetic men are named they can do much toward preventing fraud.

## TWO VESSELS ASHORE.

**One May Get Off, but the Other Is Expected to Become a Total Wreck.**

PHILADELPHIA, PA., Jan. 19.—The British steamer Manchester Corporation, Capt. Heath, which cleared from here last Tuesday for Manchester, England, and which went aground in Delaware bay on Thursday, was floated at 4:30 o'clock this morning with the assistance of four tugs. Some of her miscellaneous cargo had to be lightered before she could be floated. After floating the big vessel was anchored in the channel near Joe Flegor shoal. It is not believed that the vessel is injured.

FUNCHAL, ISLAND OF MADEIRA, Jan. 19.—The British steamer Lagos, Capt. Hughes, from Liverpool, which went ashore at Las Desertas, southeast of here, and the crew and passengers of which were saved, has become a total wreck. The mails carried by the Lagos have been saved, but her cargo is lost.

## OCEAN CONNECTIONS.

**Santa Fe System Makes New Arrangements to Accommodate Traffic.**

SAN FRANCISCO, Jan. 19.—W. A. Bissell, assitant traffic manager of the Santa Fe, will leave for the east on Wednesday to confer with President Ripley and Vice President Morton concerning arrangements for the inauguration of the company's new steamship service between this port and the orient.

The Santa Fe's contract with the California & Oriental Steamship Company will expire within a few days, and with the abolition of this traffic arrangement the Santa Fe will have the Pacific Mail, the Occidental and Oriental and the Tokyo Kissen Kaisha for ocean connection. The new regime involves further arrangements, however, and they will be settled at the approaching conference in Chicago.

## UNCLE SAM AS AN EMPLOYER

**Labor Unions Cannot Enforce All Their Rules on Government Work.**

ST. LOUIS, Jan. 19.—The Labor Compendium, the official organ of the National Building Trades Council, in today's issue says:

"Union building tradesmen of St. Louis waived one point contended for by the resolutions adopted at the Milwaukee convention, the exclusive employment of union labor, for it is conceded that, since the city of St. Louis and the United States government are partners in the enterprise, any citizen of the United States could bring mandamus proceedings, if denied equal opportunity with others in bidding on labor or material contracts, which would greatly delay operations and prejudice the success of the exposition."

## ADMITTED THE THEFT.

**Stephen Resaulka Had Good Time With Money He Took.**

Stephen Resaulka was arrested early yesterday morning on the complaint of Stephen Suschello, by Officer S. D. Vincent and lodged in No. 5 police station as a suspicious person. Both are Poles. Suschello alleges that Resaulka stole $152 from him in Cleveland a short time ago. The police say Resaulka admitted he took $125 from Suschello, and he had a good time traveling in Buffalo and New York. He said if he was given his liberty he would go to work in Pittsburgh and pay Suschello back on the installment plan, but Suschello declined the proposal.

Superintendent of Detectives Philip Demmel had both men taken to Central station and locked up there. Resaulka will get a hearing in the morning.

# FOUR BUILDINGS COLLAPSE AND ARE CONSUMED

## Mysterious Accident at Detroit Which Involves a Loss of $200,000.

## THE DEBRIS CATCHES FIRE

**Stocks of Merchandise Belonging to Four Firms Will Be a Complete Loss—200 Persons Are Employed in the Buildings on Week Days.**

[BY ASSOCIATED PRESS TO THE GAZETTE.]

DETROIT, Jan. 19.—Four buildings, each four stories high, located in the heart of the wholesale district of this city, collapsed at 8:30 o'clock tonight without any apparent cause, and all that now remains is a smoldering heap of ruins.

The buildings were a part of the block bounded by Jefferson avenue and Shelby and Griswold streets, and were occupied by five concerns, and their stocks are a total loss, which is estimated at $152,000, exclusive of the loss on the buildings, which amounts to $50,500.

No one seemed to know what caused the collapse of the buildings. On Sunday night that district is practically deserted, and the few who were in the vicinity say that the buildings seemed to fall like a heap without apparent cause, making a noise like the rumbling of distant thunder. There are evidences of an explosion about the ruin, but no one heard a sound of such an explosion. The walls of the rear part of the Maddocks Glove Company's building are still standing to the height of two stories, but the rest of the building lies turned bottomside upward in the middle of Shelby street, and a large iron smokestack lies on the sidewalk on the opposite side of the street, mashed against the buildings there.

It was fortunate the wreck occurred on Sunday night. Had it happened during business hours the loss of life would have been appalling, as there were approximately 200 persons employed by the various firms.

### THE DEATH ROLL.

**Joseph Burke.**

NEW YORK, Jan. 19.—(Special.)—At the ripe old age of 87 years, there passed away, in the Park Avenue hotel today a man who, in his boyhood, was hailed as a musical prodigy, and who, half a century ago, was renowned as a violinist in this country and throughout Europe. Many of the older men may recall the once famous name of Joseph Burke. To the present generation it is not even a memory. He was born in Galway, Ireland, his father being a physician. He early manifested a love for the violin, and before he reached his teens had toured Europe as a child violinist, under the name of Master Burke. Before he reached his 40th year he had temporarily laid aside the violin to don the buskin, and the fame he won for both became as great as that of the boy musician had been. Burke became ill early Friday morning at the Park Avenue hotel from congestion of the lungs, and was attended by Dr. Moore, the hotel physician. The patient's nephew, Charles H. Burke, member of congress from South Dakota, reached this city from Washington early Saturday morning. The aged musician was never married. He leaves several nephews and two brothers, William Burke, of Washington, for many years an examiner in the patent office, and Walter Burke of Batavia. He was the oldest member of the Philharmonic society, and was in his younger days a member of the Union league club. The body will be taken to Batavia, N. Y., tomorrow morning.

**The Rev. Mathias F. Dethlefs.**

The Rev. Mathias F. Dethlefs, aged 87 years, died early yesterday morning at his home in Middle street, Sharpsburg. His death was the direct result of a stroke of paralysis, which he had on last Wednesday. Mr. Dethlefs was born at Holstein, Germany, on March 16, 1815. He was educated at Jena and Kiel for the ministry. Coming to America in 1846, settled first at Eden, Erie county, N. Y., and came to Allegheny in 1849. In 1849 he was married to Miss Mary Soehn, of Allegheny, who is 80 years old. He was pastor of the Voestly German Lutheran Church, Ohio street, Allegheny, between the years 1846 and 1856. He next went to the Gildon, O., German Lutheran church for two years, and moved to Sharpsburg in 1859. In 1861 Mr. Dethlefs organized the German Lutheran church in Sharpsburg, and was its pastor four years, and later was stationed at Tarentum, Freeport, Natrona and a number of other places. His last regular charge was the East Liverpool church, which he served for four years. He retired in 1882. Mr. Dethlefs is survived by his wife and four children, Miss Lizzie Dethlefs, Miss Emma Dethlefs, Charles and Martin Dethlefs, all of Sharpsburg. The funeral services will be held from his residence in Sharpsburg tomorrow at 2 o'clock.

**Mrs. Annie L. Chapman.**

Mrs. Annie Lippincott Chapman, wife of the Rev. Thomas H. Chapman, and daughter of the late James and Maria D. Lippincott, is dead at her home, No. 13 Brushton avenue. Mrs. Chapman belonged to a well-known family, the Lippincotts having been for many years prominent in the manufacturing and mercantile interests of Pittsburgh. She was always her husband's helper in his church work. She is survived by her husband, her son, James L., and her daughter, Janie Chapman.

**Miss Ella Cummings.**

Miss Ella T. Cummings, a woman widely known in Braddock and vicinity, died yesterday morning at the home of her sister, Mrs. Samuel Davidson, in North avenue, North Braddock. She was 56 years old, and was born in Riceville, Bradford county. She had been a lifelong member of the United Presbyterian church. She had made her home with her sister in Braddock for some years. She is survived by her sister and two brothers, Thomas C. Cummings and Winfield S. Cummings, both prominent men of Braddock.

**The Rev. Dr. H. K. Hines.**

PORTLAND, ORE., Jan. 19.—The Rev. Dr. H. K. Hines died early this morning. He was 74. Dr. Hines came to Oregon 50 years ago from Herkimer county, New York, and during that time he was connected with the affairs of the Methodist Episcopal church in the northwest. As presiding elder of Oregon, Washington and Idaho he became widely known throughout the northwest. Dr. Hines was president of the territorial council of Washington and a member of the legislature during the session of 1854-1886. He was a delegate to the Republican national convention in Cincinnati in 1876.

**John MacInnis.**

John MacInnis of Talbot avenue, Braddock, died yesterday at the Mercy hospital from pneumonia. He was a carpenter and had resided in Braddock for some time, coming there from Boston, Mass. He was a member of the Brotherhood of Carpenters and Joiners, Braddock lodge 178 of Braddock, and also of the Methodist Episcopal church. He was in his 30th year. The members of Braddock lodge, U. B. C. & J., will have charge of the funeral, services being held tomorrow afternoon. The body will be sent to Boston for burial.

**The Rev. Peter Cassidy.**

NEW YORK, Jan. 19.—The Rev. Peter Cassidy, S. J., died this evening of pneumonia while giving a mission at the church of St. Ignatius Loyola. He was born in Ireland, May 15, 1845. He taught at St. Francis Xavier's, St. Johns, Boston college, Georgetown university and was president of St. Peter's college, Jersey City, for three years. He spent the last four years of his life in missionary labors in Canada and this country.

**J. Walker Dewalt.**

J. Walker Dewalt, aged 39 years, superintendent of the George M. Hall Planing Mill Company of Homestead, died at his home in Third avenue, Homestead, yesterday morning. He was well known in social circles of the borough and was very popular. He is survived by a wife. The funeral services will be held at his home this evening at 7 o'clock, and the funeral from the home of his father, W. J. Dewalt of Monongahela City, tomorrow.

**William K. Alexander.**

BELLEFONTE, PA., Jan. 19.—William K. Alexander, well-known in this part of the state, died at his home in Millheim today from heart disease. He represented Center county in the legislature from 1876 to 1878. He was 55 years of age.

**Bernard Carroll.**

Bernard Carroll, an old resident of Wilmerding, died early yesterday morning from pneumonia. He was in his 68d year. He was a member of St. Aloysius Roman Catholic church of Wilmerding. He is survived by a son.

**Obituary Notes.**

Mrs. Emelia Barbara Neubert died yesterday morning at her home, No. 259 Hatfield street. She was the wife of F. W. Neubert and was 49 years old.

## MURDERED IN HIS OFFICE AT MIDDAY

**PROMINENT ROCHESTER JEWELER KILLED BY ROBBERS.**

**Criminals Evidently Tried to Make Victim Open Safe Containing Thousands of Dollars' Worth of Diamonds, Before Which His Body Was Found.**

[SPECIAL TELEGRAM TO THE GAZETTE.]

ROCHESTER, N. Y., Jan. 19.—Bela E. Brown, one of the most prominent business men of Rochester, was murdered this afternoon in his place of business, in the very heart of the city, scarcely a stone's throw from the Powers hotel, and close to the Four Corners, where flows all the traffic and city crowds. The shop where the body lay is on the second floor of No. 24 State street, where Mr. Brown carried on an extensive business in diamonds and jewelry. So far as known tonight nothing is missing from the valuable stock.

The body was discovered by the night watchman. The murdered man's legs were tied together and he was gagged with a long red neck scarf. At the back of the head was a hole extending into the brain and there were several gashes in the scalp, evidently made by a hammer which was found near the body smeared with blood and white hairs from the head of the victim.

### Struggle Was Evident.

The murdered man's head was covered with blood and a pool of it formed on top of a small chest of drawers over which the head lay. All about were evidences of a determined struggle, but a thorough search failed to discover any positive clue as to the identity of the murderer or murderers.

From the position of the body in front of a safe, the conclusion was reached by the police that the murderers had placed Mr. Brown before the safe, which was locked, and which contained thousands of dollars' worth of diamonds and jewelry, and tried to force him to work the combination for them. His right hand was covered with blood, indicating that he had raised it to his head when he was struck and tried to ward off the other blows which followed.

### Secured No Booty.

The murderers secured nothing of value except perhaps a diamond stud which Mr. Brown wore and which is missing.

Mr. Brown was married and his daughter is the wife of Arthur Billings of Niagara Falls, president of the Cliff Paper Company. He was 65 years of age, quiet in tastes and held a high rank in business and social circles. He was seen alive at 3 o'clock, when he left his home for a trip down town.

Fourteen months ago pretty Teresa Keating was murdered on a street within half a mile of Rochester's business center before 8 o'clock in the evening. Her murderer has never been found.

## PRIEST SUBDUES HUSBAND.

**Takes Forcible Measures to Prevent a Dying Woman's Last Moments Being Disturbed.**

ST. LOUIS, Jan. 19.—(Special.)—Because he got obstreperous at the bedside of his dying wife, while the Rev. Father Timothy Dempsey, pastor of St. Patrick's Catholic church, was administering extreme unction, John Cosgrove of No. 1422 North Sixth street was ejected from his home last night by the priest, an athletic young man six feet four inches tall, and weighing 250 pounds. Afterward, fearing that the man would return again and cause more trouble, Father Dempsey had the husband arrested.

He first ordered Cosgrove out of his home on Friday. Mrs. Cosgrove was on her death bed and the priest was with her. Cosgrove was neglectful, according to the priest, and when he created a disturbance in the room, Father Dempsey threatened to throw him over the bannister if he did not get out. Cosgrove did not wait for a second bidding that time, but on Saturday he returned a few hours after. Mrs. Cosgrove died and while Father Dempsey was administering extreme unction.

"I again ordered him to leave the room" said Father Dempsey, "and as he hesitated, I accompanied him to the door. I feared that he might return again and had him locked up. Now that his wife is dead he will be released and there will be no prosecution."

## ANTHRACITE COAL TRADE.

**Prices Are Firm and Conditions Are Slowly Becoming Normal.**

PHILADELPHIA, Jan. 19.—The Ledger in its coal article tomorrow will say:

"The anthracite coal trade presents no change. Coal is in demand, but the customary obstacles to delivery continue, the car shortage preventing a good deal of movement that otherwise might have been made—for the weather last week was quite favorable. Prices are firm and the companies have about recovered their position and restored conditions at most of the collieries to the normal state before the recent destructive floods. Some collieries, however, are as yet without complete restoration and remain idle. The western supplies now go by rail, but this is expensive and in distant regions will not result in much relief unless dire necessity compels such method. Lake Superior ports and Chicago report rather a better supply than at this time last year. The tidewater demand for Atlantic coast is good and freights are firm. The labor situation throughout the anthracite districts continues quite favorable."

## MORGAN IS AFTER STEAMSHIP LINES

**ENGLISH REPRESENTATIVES ARE NOW IN NEW YORK.**

**Report Is Current That It Is the Financier's Plan to Combine Leyland, American and White Star Companies Under the Name of the American Line.**

[SPECIAL TELEGRAM TO THE GAZETTE.]
(Copyright, 1902, by The New York Herald Co.)

LONDON, Jan. 19.—Considerable interest is being taken by steamship men in London and Liverpool over the visit of Mr. Bruce Ismay, Mr. Graves, Mr. Pierrie and Mr. Wilding to New York. There seems no doubt that their mission is to discuss with J. P. Morgan the amalgamation of several big steamship lines.

The opinion prevails that some sort of consolidation will be effected, either for general traffic or for freight traffic only. It is well known that Mr. Morgan, representing, as he does, the Leyland line, which numbers 57 vessels, is anxious to bring about a combination of lines which shall practically control the freight trade, at least, between America and English ports. It is known also that the American line, backed by the Pennsylvania railroad, is willing to enter the consolidation.

Mr. Morgan represents the steel corporation, and with one of the great English companies as a member of the combination he would be in a position to dictate so as to freeze out the rivals.

Mr. Ismay and the others, as it is known, represent the White Star line, and some steamship men believe that the announcement of consolidation with them and other great lines will follow soon after the conference with Mr. Morgan. From a source which this is every reason to believe trustworthy it has been learned that Mr. Morgan's idea is to call such a new concern the "American line," and this is the one thing to which the White Star people are unwilling to agree. The manager of the present American line has been named as manager of the consolidated lines.

The Cunard company is watching the outcome of the conference with interest, as the combination, if effected, will make it the only large independent English line running to New York.

## CALLED FROM CHICAGO.

**Presbyterian Pastor Assumes Charge of a New York Congregation.**

NEW YORK, Jan. 19.—The Rev. Dr. J. Ross Stevenson of Chicago, who received a call from the congregation of the Fifth Avenue Presbyterian church Wednesday of this week, preached his first sermon today. The members of the church crowded around the new minister at the close of the services and warmly congratulated him on his sermon.

Dr. Stevenson stated that it would be some weeks before he could finish up his work in Chicago and come to New York to assume his duties.

**Big Sale of Timber.**

TITUSVILLE, PA., Jan. 19.—(Special.)—The largest sale of timber land ever made in the state in a single deal was consummated Saturday at Kelletville, Pa., when half the holdings of T. D. Collins were sold to G. F. Watson of Colinza and Buzzard & Son of Brockwayville. The purchase comprises 18,000 acres of hemlock, pine and hardwood, estimated at 500,000,000 feet and worth approximately $4,500,000.

## The Newly Imported Cottons.

New and newly—a distinction and a difference. Many of the new Cottons have been with us for some weeks; some patterns have been entirely closed out; new things have been brought out since we bought the most of our foreign cottons—our Paris office sends them to us—and it is these newly imported cotton stuffs that we ask women to come and see.

The new color now the rage in Paris—*cafe au lait*—is shown in fifty different styles of French and Swiss Dress Cotton Fabrics. It is a lovely soft yet vigorous monotone, such as is produced by the mixing of coffee and rich milk.

**Today we make an exceptional offering of 72-inch open mesh Grass Linen in the above natural color, at 33c a yard.**

Think of it, enough material for a smart and cool summer dress for less than $2.

25,000 yards Imported Madras, plain and fancy and Printed Percales in dainty printings. The former from Manchester, Eng., and Glasgow, Scotland; the latter from Paris. 35c to 65c. The visitor is to say whether or no the color combinations are not most fascinating.

*The January Clearance* is again brought to notice by the following excellent values at greatly reduced prices:

6,000 yards fine Fancy Madras—the kind that always sells for 35c and 40c a yard—reduced to 25c a yard.

The All-Wool Dress Cheviots, in street shades and black, met with such popular favor last week, at 48c a yard, that we announce another sale of 1,000 yards at same price.

Another interesting bit of dress goods news is the showing of 2,500 yards of the lovely sheer French Veils, in specially selected colorings for evening wear, at $1, $1.25 and $1.50 a yard.

Handsomely Printed Challis in the old Persian shawl colors, or to make it more plain, the colors universally worn in Persia, and it is quite worthy of notice that this imported Challis is offered in this January Clearance at 50c a yard, although but recently imported.

Still more good news is that of new Linings—early Spring shades in Percalines, Nearsilks and Sateens—probably impatiently awaited for the lining of the new Cottons and new Woolens. 12 1-2c, 15c, 20c, 25c a yard.

## The New St. Gall Embroideries.

The canton of St. Gall, Switzerland, furnishes the world with embroideries. Many towns and cities try to imitate the products of this Swiss province. So far, through all the years, the imitations have proved a lamentable failure. All that is true and good in embroidery must come from St. Gall.

The 250,000 inhabitants of the canton know nothing but the making of embroideries; they are taught the business in early youth; there is nothing else for them to do. Thus it is that St. Gall sets the factory price on embroideries, and thus it is that the store that sends a representative direct to these Swiss manufacturers fares better than the one that has to depend on American importers.

Ours is the only store in the Western part of the State that sends each year a buyer to St. Gall to make personal selection.

By doing so we get more variety, we get better Embroideries, we pay no profit to an importer, we can undersell all embroidery collections.

The new importations are ready—as beautiful as any collection of snow-white goods can be.

FINE NAINSOOK EMBROIDERIES—INSERTINGS, 5c TO $1.50 A YARD; NARROW EDGINGS 5c TO 50c A YARD; WIDE EDGINGS, 12½c TO $2 A YARD; GALLOONS, 10c TO $3.50 A YARD.

CAMBRIC EMBROIDERIES—NARROW EDGES, 5c TO 25c A YARD; WIDE EDGES, 10c TO $2 A YARD; INSERTINGS, 5c TO 75c A YARD.

SWISS EMBROIDERIES — NARROW, 5c TO 75c A YARD; WIDE, 10c TO $2.50 A YARD; INSERTINGS, 5c TO $1.50 A YARD; CALLOONS, 12½c TO $3.50 A YARD; FLOUNCINGS, 27 INCHES, 75c TO $3.50 A YARD; 45 INCHES, $1 TO $5 A YARD.

COLORED EMBROIDERIES — EDGES AND FLOUNCINGS TO MATCH, 25c TO 60c A YARD. IN SETS, 5c TO 25c A YARD.

LACE EDGE EMBROIDERIES KNOWN AS VALENCIAS—EDGES AND DOUBLE LACE EDGE INSERTIONS TO MATCH, AND THE ALL-OVERS TO GO WITH THEM, 25c TO $2.50 A YARD.

GRASS LINEN ALL-OVERS — BLACK, WHITE AND GREEN, EMBROIDERED IN SUCH COLORS AS NAVY AND RED—$2 TO $3.50 A YARD.

BATISTE ALL-OVERS, EDGES TO MATCH, $2 TO $3.50 A YARD.

WAIST PATTERNS, SOMETHING ENTIRELY NEW IN NAINSOOK AND SWISS, WITH AN EMBROIDERED DESIGN INTENDED FOR THE FRONT, 75c TO $5 EACH.

ROBES OF SATISTE, WHITE AND ECRU, EMBROIDERED AND WITH LACE INSERTIONS AND RUFFLES, $10 TO $30 EACH.

## The New White Goods for Spring Sewing.

Nice things for Spring are crowding us fast. Here comes the new White Cottons just in time to have a concurrent opening with the Embroideries.

See the pretty figured and dotted Swisses, plain and embroidered Piques, embroidered Mulls, embroidered Linens, French Organdies and Nainsooks, Persian Lawns, India Linons, the Batistes, Dimities, Scotch Madrases and Cheviots, in the greatly enlarged department of the annex, then go to second aisle of the main floor, reckoning from the annex, for the Embroideries with which to trim the cottons.

# Fatal Freight Wrecks--Forged Checks Abroad.

## A COLLISION KILLS ENGINEER AND FIREMAN

### BRAKEMAN MET DEATH

### Freight Wrecks on B. & O. and Pennsylvania Cause Much Damage.

[SPECIAL TELEGRAM TO THE GAZETTE.]

PARKERSBURG, W. VA., Jan. 19.—William Sorrell, engineer, and Oliver Shank, fireman, were killed in a freight train collision on the Ohio river division of the Baltimore & Ohio this morning about a mile above Vienna station, five miles from here. Sorrell had orders to stop at Vienna siding and let the other train pass, but his fireman, who was a new man, was tired out, and Sorrell was acting in his place firing the engine. In doing so he is supposed to have forgotten his orders.

Both trains were running at almost full speed when they came together and both engines were almost demolished and nearly a dozen cars wrecked. The wreckage was piled up for 20 feet, and when Brakeman Shelburne, who had been in the cab with Sorrell and Shank, regained consciousness, he was under a pile of coal 15 feet high. Besides the two men who were killed, S. V. Shelburne, and J. W. Woods, both brakemen, were injured and were taken to St. Luke's hospital. Several carloads of cattle were in the wrecked trains and many of the animals were injured. Some of them were killed.

Sorrell lived here and left a family. Shank lived at Vinton, O., and had just come here with his wife a few days ago. Shelburne is from Radford, Va., and Woods is from Newark, W. Va.

The wreck caused a delay of several hours in traffic, but it was all cleared away in time for the afternoon trains to pass. Shelburne and Woods are not thought to be fatally hurt.

JOHNSTOWN, PA., Jan. 19.—(Special.)—On a freight train wreck, on the Pennsylvania railroad near Portage, this morning, Brakeman John McFarland of Mahaffey, Clearfield county, was instantly killed and Brakeman McClain was severely injured. The wreck took fire and before McFarland's body could be recovered both legs and one arm had been burned off.

Brakeman Charles C. Riley of Loyalhanna met death yesterday near the same place. He fell from his train.

### SAYS CHAPLAINS GAMBLE.

**Philippine Missionary Writes Home Making Charges Against Army Officers.**

WASHINGTON, PA., Jan. 19.—(Special.)—A letter has been received from the Rev. W. H. Hanna, formerly pastor of the First Christian church at this place, but who is now a missionary in the Philippines. The Rev. Mr. Hanna, in speaking of the army chaplains stationed with the United States army in the Philippines, says that many of them are charged with cowardice and refuse to go out with their regiments, but stay in Manila.

He also states that many of the chaplains are guilty of gambling and drinking and other vices.

### PANIC AT A LECTURE.

**Bryan Audience at Waynesburg Disturbed by an Accident.**

WAYNESBURG, PA., Jan. 19.—(Special.)—During a lecture delivered here last night by William Jennings Bryan a panic was caused by the breaking of a chair in the rear of the opera house, the audience thinking that the gallery was falling.

Many rushed for the exits, but a disastrous stampede was averted. Some were with difficulty prevented leaping from the front of the gallery to the audience below, and many who left the building did not return during the evening.

### BURIED UNDER SAND.

**Foreman of Gang Arrested on Charge of Criminal Negligence.**

NEW YORK, Jan. 19.—Patrick Logue was killed and Cornelius Dwyer probably fatally hurt by the caving in of a sand-bank in the basement of the New York exchange building in this city today. They, with about a dozen others, were working in the lowest part of the excavation, protected overhead by planks. The planks gave way under the weight of sand.

Perry T. O'Rourke, foreman of the gang of men, was placed under arrest under a charge of criminal negligence.

**Indians to Join Army.**

CONNELLSVILLE, PA., Jan. 19.—(Special.)—It is reported here that five members of the Pierce tribe of half breed Tuscaroras went last week to the Pittsburgh recruiting station to enlist in the army. Two are Pierces, James and Samuel, the former being a son of the Great Sachem, "Red Cloud" Pierce. The other three are Isaac Ritchie, John Wilfront and Harry Bates.

**Woman Starved to Death.**

WILKESBARRE, PA., Jan. 19.—Mrs. Edward Price, a widow, was found dead at her home in Plymouth last night. She had been ill, and it is thought, being unable to help herself or make an outcry, she died for the want of food. Two small children were in the house and they were suffering from hunger. An examination showed that the house was destitute of food.

**May Have Been Murdered.**

JOHNSTOWN, PA., Jan. 19.—(Special.)—Michael Heffley, a German farmer of near Wilmore, this county, aged 45 years, was found dead on the road a short distance from that town this morning. He had a cut on the back of his head that appeared to have been inflicted by a blunt instrument. Heffley's empty wallet was lying beside the dead body, but his watch was in his pocket.

**Get Ready for a Cut.**

Get a box of Saliva-cea—the antiseptic ointment. Equally valuable for burns, chafings, chilblains, cold in head, catarrh, and piles. It will surprise you how quickly it subdues inflammation and drives out pain. Price 25c and 50c, at druggists' or by mail. Saliva-cea, 274 Canal, st., New York.

## ALLEGED ATTEMPT TO KIDNAP OFFICER

### Citizens Secured Release of Anti-Saloon Detective from a Marshal.

[SPECIAL TELEGRAM TO THE GAZETTE.]

CAMBRIDGE, O., Jan. 19.—The fight against speakeasies is taking on a sensational tinge in this county. A deputy marshal from Pleasant City had an unpleasant experience in his efforts to carry off Anti-Saloon Detective Besser, who is the principal witness against the keepers of speakeasies. His warrant charged Besser with carrying concealed weapons.

Besser protested, but was forced to get into a buggy, and the marshal started to drive off with his prisoner. The temperance people, led by Attorney A. R. McPollock, secured a carriage and started in pursuit. They overtook the detective, and after some parleying secured his release. They claim that the charge was merely trumped up for the purpose of inducing Besser to leave the state.

### COURTED BY WIRE.

**Wealthy Merchant Is United in Marriage to a Telephone Girl.**

CUMBERLAND, MD., Jan. 19.—(Special.)—Henry J. Little, a wealthy young merchant of Martinsburg, W. Va., and Miss Daisy E. Martin, who was a telephone girl in the office of the Winchester Telephone Company, were married yesterday in St. Joseph's Catholic church, Martinsburg, by the Rev. Father L. F. Kelly.

The marriage is a sequel to their having fallen in love with each other over a wire, Mr. Little having frequently talked over the line in transacting business. Returning from their honeymoon Mr. and Mrs. Little will reside in a magnificently furnished home.

### ACQUITTED OF DISLOYALTY.

**Marine Engineers' Beneficial Association Returns a Verdict of Not Guilty.**

CLEVELAND, O., Jan. 19.—After an all-night session of the Marine Engineers' Beneficial association, Fred M. Harman, chief engineer of the Wilson fleet, was found not guilty of disloyalty to the association. During the engineers' strike last year Harman refused to go on strike because he had signed a coniract to work.

It is understood that the decision in the case against Harman will be taken as deciding the cases against all the other accused chief engineers, the evidence in all cases being similar.

There will be no affiliation this year between the Marine Engineers' Beneficial association and the International Longshoremen's association. This was decided Saturday in a conference with the Marine Engineers at Washington. The opposition of certain lake interests and the coast and gulf engineers succeeded in overthrowing the proposal.

It was decided at the same conference to establish the office of second vice president, which official would have charge of lake interests, to be under salary, with office at one of the lake ports. No appointment to this office will be made until the two propositions have been ratified by the general meeting of marine engineers at Washington this week.

**Attempted Murder and Suicide.**

SPRINGFIELD, O., Jan. 19.—Herman Hess of Yellow Springs attempted to kill his housekeeper, Miss Clara Cotterl, late last night and then cut his own throat. The woman is not badly injured, but Hess may die. Jealousy is given as the cause.

**Fisher Signs With Hartford.**

ALTOONA, PA., Jan. 19.—Harry Fisher, the crack second baseman who played on the Juniata baseball team of Altoona last year, has signed with the Hartford team of the New England league for next season.

### STATE AND NEIGHBORHOOD.

EVANS CITY, PA.—Miss Sadie Bears, who was terribly burned yesterday, died from her injuries.

ALLENTOWN, PA.—Mrs. Albert J. Yeager, who was badly injured in the trolley accident at the foot of Lehigh mountain four weeks ago, died yesterday in the Allentown hospital.

CLAYSVILLE, PA.—A well developed case of smallpox was discovered at the residence of George Brownlee, in Oak alley, last night. Thurman Negland, a railroad trackman, is the victim.

GREENSBURG, PA.—Charles Brown, a resident of Crabtree, was held up and roughly handled by negro highwaymen south of town last night. One finger was almost bitten off by one of the assailants.

ALLIANCE, O.—William Narrance, aged 24, of Loudonville, boarded an engine here yesterday to make his first run as fireman on the Ft. Wayne road. His head caught between the cab and a door and death was instantaneous.

LIVERPOOL, O.—Albert Arnold, aged 25 and married, was drowned last night in the Ohio river while skating. He broke through the ice. Samuel Calhoun and George Nelson also went down with Arnold and were unconscious when rescued.

### NO STRIKE ON THE LAKES.

**Engineers Decide That Nothing Prevents the Carrying Out of Their Contracts With Steel Combine.**

WASHINGTON, D. C., Jan. 19.—The Great Lakes Engineers, who are delegates to the national convention of Marine Engineers, which meets here tomorrow, decided at a conference today that there was no occasion for a strike on the great lakes so far as their demands are concerned.

The question arose as to whether engineers who are members of the association would be permitted to operate vessels owned by the steel combination. These engineers have signed contracts for the coming season with the combine at the association scale, and the decision was reached that there was nothing in the contracts to prevent them from carrying out their agreement. The various local associations in the vicinity of the great lakes will be notified of today's decision.

### INSPECTING THE ROAD.

**President Stuyvesant Fish of the Illinois Central on a Tour in the South.**

MEMPHIS, TENN., Jan. 19.—President Stuyvesant Fish of the Illinois Central railroad and party arrived here tonight from Chicago on a tour of inspection of the Illinois Central and Yazoo and Mississippi Valley.

The members of the party were Mr. Fish and Private Secretary R. R. Barry, Jr., J. T. Harrahan, second vice president; J. M. Dickinson, general counsel, and D. LeRoy Dresser, president of the New York Merchants' association. The party will leave for New Orleans tomorrow morning.

## FIVE FORGED CHECKS HAVE COME TO LIGHT

### WANAMAKER GETS ONE

### Drawn in the Name of a Wilkesbarre Firm to Purchase Merchandise.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

WILKESBARRE, PA., Jan. 19.—Five forged checks drawn in the name of Davis Brothers, a well-known business firm of this city, have just come to light. Four of the checks drawn in favor of A. Lee, each for $200, were sent to C. B. Rouse, a New York merchant. The other check for $100 was drawn in favor of M. H. Wilson and was sent to John Wanamaker of Philadelphia, to pay for an order of goods. The goods were sent to this city, but no trace of them can be found.

The Wanamaker firm accepted the check. Detective Snyder, chief of the Wanamaker detective bureau, is now at work on the case and expects to run the forger down before long.

### WOMAN WANTED BY POLICE.

**Clairvoyant Charged With Swindling a Rich Widow Out of $1,500.**

ZANESVILLE, O., Jan. 19.—(Special.)—A clairvoyant who recently conducted a flourishing business here under the name of Madame Vernon is wanted by the police on the charge of swindling Mrs. Sarah Johnson, a rich widow, out of $1,500 in money and jewelry. Mrs. Johnson requested the clairvoyant's assistance in communicating with the spirit of her deceased husband.

Learning that he left money and jewels, the widow was told that it would be necessary to deposit these things which he loved most with the clairvoyant, that she might use them to tempt his spirit back to earth. Mrs. Johnson returned home to await the occult summons, while Madame Vernon, it is charged, decamped with the money and valuables.

### COAL MINES CRIPPLED.

**Beaver County Operator's Property Is Damaged by Miscreants.**

BEAVER FALLS, PA., Jan. 19.—(Special.)—Edward Wayne, a coal operator, yesterday reported to the police of this place that during the previous night some miscreants had removed the fires from under the boilers in his mines in White township and damaged the hoisting machinery so that the mines cannot be operated, and a large number of miners are idle.

He suspects some men whom he discharged. Last night the police got track of one of the mules which were turned loose at the same time at the works of the Fallston Pottery Company, where it had strayed.

### DEMAND SHORTER HOURS.

**Wisconsin Papermakers Threaten to Tie Up Twenty-Five Paper Mills.**

KAUKAUNA, WIS., Jan. 19.—A general strike was ordered today at a joint meeting of the Appleton, Kaukauna and Neenah lodges of the United Brotherhood of Papermakers, which will result in less than three weeks in closing the 25 mills in the state of Wisconsin, throwing out of employment 3,000 labagers and cutting off over 750 tons a day from the supply of the paper market, unless the demands of the union for shorter hours shall be granted. It is claimed the movement is soon to spread through every paper-making district in the northwest.

A formal demand for the new schedule is to be sent to all the mills in the river valley district before next Saturday. The union is also in communication with other mills which also will receive the demands. The manufacturers will be given one or two weeks' time in which to make a reply, and nothing but an immediate and unconditional granting of the demands, it is authoritatively stated, can prevent the big walkout at the end of the time.

### CORONATION RECALLED.

**Emperor William Holds Chapter of the Order of the Black Eagle on an Anniversary.**

BERLIN, Jan. 19.—Emperor William held a chapter of the Order of the Black Eagle yesterday upon the anniversary of the coronation, in 1701, of Frederick I. as the first king of Prussia. Subsequently the emperor and the empress gave a banquet in the white hall of the schloss, at which Count von Buelow, the imperial chancellor, and the foreign ambassadors were present.

The Order of the Black Eagle was founded by Frederick I.

### GOLD IN INDIANA.

**Precious Metals in Paying Quantities Found at Waymansville.**

COLUMBUS, IND., Jan. 19.—Evidence of gold, silver and coal was discovered recently at Waymansville, the extreme southwest corner of this county, and samples were sent to Prof. J. F. Stanton, principal of the miners' assay office at Denver, Col. A certificate from him shows an assay of 2.60 ounces of gold and 60 of silver, which will yield $34 10 to the ton. On the strength of this assay a company has been organized to develop the discovery.

### ROOSEVELT CANNOT ATTEND.

**President Will Not Be Present at a Monument Dedication.**

INDIANAPOLIS, IND., Jan. 19.—President Roosevelt today informed Gov. Durbin, in a telegram sent through Senator Fairbanks, that he would not be able to attend the dedicatory services of the soldiers' and sailors' monument here in May.

Gov. Durbin, Auditor Hart and Attorney General Taylor have just returned from Washington, where they officially invited the president to be here.

**Indian Veterans for South Africa.**

CALCUTTA, Jan. 20.—Six thousand troops, from various regiments in India, are about to start from here for South Africa.

## Colds

You first take cold, then you cough. Then you have a doctor. He says it's bronchitis, and he orders Ayer's Cherry Pectoral. It is his favorite prescription for colds and coughs. If he knows of anything better, tell him to give it to you.

"I had a very severe cough for many weeks. Nothing relieved me until I tried Ayer's Cherry Pectoral. This rapidly and entirely cured me."

## MOB PREVENTED WOMAN'S BURIAL.

### Four Hundred Italians Attacked the Police and Took Corpse of a Smallpox Victim.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

EASTON, PA., Jan. 19.—A serious riot following an attempt on the part of the health board to bury the body of an Italian woman who died of malignant smallpox occurred at Bangor this afternoon. Four hundred Italians attacked the police and probably fatally injured Peter Ross, and prevented the interment.

The woman's corpse is now in the Catholic church closely guarded. The sheriff will send a posse to Bangor to disperse the mob.

Two men, who were in the house where the death occurred, escaped before they could be quarantined, and one of them started for Bethlehem on a trolley car. The other was arrested. A child of the dead woman is also ill with the disease.

## SIXTY PERSONS KILLED BY BOILER EXPLOSION

### Men, Women and Children Are Victims of Disaster Near Barcelona.

### ONE HUNDRED INJURED

[BY ASSOCIATED PRESS TO THE GAZETTE.]

BARCELONA, Jan. 19.—The explosion of the boiler in a spinning mill near Manresa last Saturday destroyed half the village of Puente De Vilumara. The hospital at Manresa is filled with the injured. Sixteen mutilated bodies of working people buried in the debris have been recovered. These include the manager of the spinning mill and his two sisters.

Of the persons injured 20 are not expected to recover. The dead included many children. The queen regent has wired her condolences.

The boiler exploded in the evening when the mill hands, many of whom were accompanied by their wives and children, were eating supper before commencing their night's work. The buildings of the mill collapsed entirely and the debris was hurled in all directions, destroying other buildings and killing and injuring the people in the vicinity. Owing to the darkness the work of extricating the victims proceeded with great difficulty. During the work of rescue there were heard the groans of the victims whose mutilated limbs were pinned down by the ruins.

A long line of carts and carriages was engaged in conveying the injured to the Manresa hospital, five miles distant. This morning the inhabitants went among the ruins seeking the remains of friends and relatives, while the priests in the open air administered the last rites of the church to the dying.

It is now estimated that 60 persons were killed and 100 injured.

The search at the scene of the explosion was continued during the day by members of the Red Cross society and officials. Heads, arms and legs, separated from the bodies and unrecognizable blackened corpses were found. The village of Puente de Vilumara is desolated.

### COQUELIN ASTONISHED.

**French Comedian Surprised at Emperor William's Knowledge of Parisian French.**

BERLIN, Jan. 19.—Constant Coquelin, the French actor, who is now playing here, made the following comment about Emperor William, by whom he was received yesterday:

"Three things about Emperor William astonish me. The first is his easy and almost accentless use of Parisian French; the second, his intimate knowledge of French dramatic art and his acquaintance with the current theatrical life of Paris, concerning which he is almost as well informed as though he were living daily with the Parisian theatrical managers; and the third, is the extreme simplicity and cordiality of his manner."

### NEW PLAN EXPECTED.

**Newfoundland Ministry Awaiting Important Action on French Shore Question.**

ST. JOHNS, N. F., Jan. 19.—The colonial ministry is expecting by the next mail important communications from the British cabinet which will outline the imperial policy regarding the modus vivendi on the French shore question.

The colonial ministry inclines to the belief that a new plan will likely be proposed for a policy concerning the disputed coast line for the present season, and that this plan will remove one of the chief objections of the colonists against renewing the modus vivendi which lapsed December 31.

**Commandant Scheepers to Be Shot.**

GRAAF-REINET, CAPE COLONY, Jan. 19.—Lord Kitchener has confirmed the death sentence passed upon the Boer commandant Scheepers, who was captured last October. He will be shot next Saturday.

**Manufacturer Drops Dead.**

LOUISVILLE, KY., Jan. 19.—Samuel W. Hegan, head of the Hegan Manufacturing Company, dropped dead from apoplexy on Market street this afternoon. He was 58 years old.

Disease and death often lurk in a continuously neglected cold, when it might be speedily eradicated with a few doses of Dr. D. Jayne's Expectorant.

## BOER DELEGATES MOVING FOR PEACE

### A Mysterious Meeting Being Held at Brussels by Their Representatives.

[ASSOCIATED PRESS CABLE TO THE GAZETTE.]

BRUSSELS, Jan. 19.—Dr. Leyds, the European representative of the Transvaal and the Boer delegates met again today at some mysterious rendezvous. Dr. Leyds now denies himself to everybody.

It is asserted that Dr. Kuyper, the Dutch premier, on his return to The Hague from London had a conference with Mr. Wolmarans, one of the Boer delegates who sent another delegate to consult with Mr. Kruger, and that another meeting will be held next Monday.

In spite of the Boer denials, a strong feeling exists here that some peace movement is afoot between Great Britain and the Boer delegates, but that there is difficulty in arriving at any acceptable basis of terms, Mr. Kruger and Dr. Leyds being reluctant to commit themselves.

It is declared in Boer circles here that a number of Englishmen, supposed to be officials of the British government, arrived at The Hague under assumed names last Saturday and were later visited and entertained at dinner by the British minister there.

LONDON, Jan. 19.—The Times has received a cablegram from Dr. Kuyper, the Dutch premier, in which he declares he has held no conference with the Boer delegates and that he could not induce them to draw up terms of peace, as he knew their credentials did not allow them to do so.

### FIRED ON A MOB.

**Hungarian Gendarmes Kill Ten Rioters and Wound Many Others in a Street Battle.**

BUDAPEST, Jan. 19.—During an Agrarian riot in the village of Alsodecs, in the county of Maroseh-Terda, Transylvania, a mob attacked the government officials and the gendarmes were compelled to fire on them.

Ten of the mob were killed and 12 were severely wounded. One of the wounded has since died and four are not expected to recover.

**Good Times in Salvador.**

PANAMA, COLOMBIA, Jan. 19.—(Special.)—The Gazette's correspondent in Salvador says that the bank of Salvador has declared a semi-annual dividend of 5 per cent on the paid up capital, and the Banco Agricola a 4 per cent semi-annual dividend. The sugar crop promises to be abundant, and the prices low, agricultural interests giving much attention to exports.

**Gen. Tung Fuh Siang Executed.**

LONDON, Jan. 20.—The Shanghai correspondent of the Standard says that according to trustworthy reports received from Peking Gen. Tung Fuh Siang, the notorious anti-foreigner, whose execution was recently ordered by the dowager empress, was executed January 15 at the yamen of the governor at Shensia in Kan-Su province.

**Marlborough Going to Russia.**

LONDON, Jan. 19.—(Special.)—The duke and duchess of Marlborough are going to St. Petersburg to attend the great balls beginning there on January 28, when a brilliant function will be given by Princess Orloff. The duke has left London, and the duchess will join him in Paris this week.

**Money for a Freight House.**

HAVANA, Jan. 19.—Gen. Wood has appropriated $317,000 for the construction of a pier and freight house at Matanzas. Bids for this work will be opened March 6. A bond of $25,000 will be required.

**Spanish Ambassador Resigns.**

MADRID, Jan. 20.—Alejandro Pidal y Mon, Spanish ambassador to the vatican, has resigned.

## WOMAN REBEL LED 800 MEN IN BATTLE

### She Was Captured Last Week by Americans in Laguna Province.

### GEN. BELL STILL ACTIVE

[ASSOCIATED PRESS CABLE TO THE GAZETTE.]

MANILA, Jan. 19.—An important capture was made in Laguna province, Luzon, when eight men of the Eighth infantry captured a woman insurgent named Agueda Kahabagan. She recently commanded an insurgent force of 800 men, 200 of whom carried rifles, while 600 were armed with bolos. For six years past she has been leading insurgent bands against the Spaniards and the Americans.

Gen. J. Franklin Bell is still active in Batangas province, Luzon. A recent engagement in this province, in which the insurgents were defeated with severe loss, resulted in the wounding of one American officer and the killing of one private, Col. Theodore J. Wint of the 6th cavalry, who is operating in Batangas and Laguna provinces, reports numerous small engagements.

A report has been received here that a dug-out canoe, in which 11 men of Company I of the Second infantry were traveling, is missing and is probably lost. It is believed the men either perished or were captured.

Gen. Wade has cabled from Cebu that 382 insurgents surrendered on the island of Bohol last Friday. The authorities hope say that this statement is astonishing, if accurate, as the secret service had failed to learn of the existence of any such body of insurgents on Bohol.

Gen. Chaffee in the annual report which has just been issued, sums up the situation from the military point of view by saying the provinces of Batangas and Laguna, in Southern Luzon and the islands of Samar, Mindoro and Cebu constitute the disturbed area in which bodies of insurgents in force are to be found.

Municipal and provincial governments are being organized. These governments have not yet received a practical trial. They constitute the only certain and reliable method of ascertaining the progress of the Filipinos toward self-government.

According to the opinion of army officers the disaster to Company C of the Ninth infantry at Balagtas, Samar, when 48 men were killed, is attributed to the too great confidence of these men in territory which they assumed to be pacified.

### TWO REPUBLICS PLEASED.

**Peru and Chile Satisfied With the Action of the Pan-American Congress.**

LIMA, PERU, Jan. 19.—(Special Cable.)—The result of the voting at the Pan-American congress on the arbitration question is satisfactory to Peruvians. More than 10,000 people saw the maneuvers at the military school in Chorillos. President Romana and other government officials were highly pleased.

VALPARAISO, CHILE, Jan. 19.—(Special Cable.)—The victory of the Chilean arbitration policy at the Pan-American congress in Mexico City has given great satisfaction. The Chilean delegates and President Riesco have exchanged congratulatory telegrams.

**King's Great Aunt Dead.**

MADRID, Jan. 19.—(Special Cable.)—The Infanta Maria Cristina Isabella died here today after a lingering illness. She was in her 69th year. She was the great aunt of the young king of Spain.

## Pittsburgh's Representatives to Press Club Convention Arrive Home.

## EXPOSITION UNFINISHED

**The Cotton States and West Indian Show Should Not Have Been Opened So Soon—New Officers of International League.**

Delegates from the Pittsburgh Press club to the annual convention of the International League of Press Clubs, at Charleston, S. C., returned home yesterday pleased with their trip through the south, but not very enthusiastic over the Cotton States and West Indian exposi-

JAMES ELVERSON, JR., President International League of Press Clubs.

tion at that place. In the party were Charles W. Houston, T. J. Keenan, Jr., W. L. Mellwain, David McCutcheon, Albert Mendel and A. S. McSwigan.

The trip to Charleston was made in a special train of sleeping and dining cars, via the Pennsylvania and Southern Railway systems, furnished to the International League of Press Clubs through George W. Boyd, assistant general passenger agent of the Pennsylvania railroad. Colonel Charles L. Hopkins, agent of the Southern Railway in Philadelphia, accompanied the train to Charleston and return, and personally looked after the comfort of the passengers, of whom there were 156. The trip south was via Asheville, N. C., where a stop of six hours was made to allow the visitors an opportunity to drive over Biltmore, the magnificent country place of George Vanderbilt.

### Election of Officers.

After the drive, which took up all the afternoon, the party dined at Asheville, and departed for Charleston, where the convention was held. The following officers were elected for the ensuing year, all being prominent newspaper publishers, editors or writers: President, Colonel James Elverson, Jr., of Philadelphia; first vice president, John A. Hennessey, New York; second vice president, P. C. Boyle, Oil City; third vice president, Cynthia Westover Alden, New York; secretary, C. Frank Rice, Boston; treasurer, William Cullen Bryant, Brooklyn; governing board, George T. Oliver, Pittsburgh; T. J. Keenan, Jr., Pittsburgh; John M. Carter, Jr., Baltimore; George H. Rowe, Brooklyn; George M. Hoffman, Philadelphia; M. P. Curran, Boston; Mrs. E. T. Weathered, Portland, Ore.; Thomas C. Early, Reading, and Walter Scott, New York.

### For Journalist's Home.

Progress was reported in the matter of the home for Aged and Infirm Journalists, which will be erected at East Orange, N. J. The Journalists' Home association has been incorporated, and the work of raising $250,000 for the construction of buildings, equipment and maintenance is well under way. This money will be raised through the issue of a magazine under the appropriate name of "Bohemia." It will be a book of several hundred pages. James S. McCartney, chairman and treasurer of the Journalists' Home Fund, who has it in charge, told the convention it would be the greatest publication ever attempted in the world of art, science, drama, literature and news gathering. Ex-Postmaster General Charles Emory Smith has written the editorial introduction. All the great writers, artists and newspaper men of the world will be contributors to its pages. The issue of the book will be limited to a grand de luxe edition, with full Russian leather cover. It will be sold at $100 per copy.

### The City of Charleston.

After the convention the delegates visited Fort Sumter and the exposition buildings. Charleston is not an exposition city. It has only 55,000 population, and 30,000 of these are blacks. With the exception of trolley cars, electric lights and telephones, the city is about the same as it was before the civil war. It is one of the oldest cities in this country, having been founded in 1672.

### The Exposition.

Owing to the exposition the town is "wide open." Little or no attempt is made to repress the "blind pigs" or "speakeasies" as they would be known here. The dispensary law of South Carolina prohibits the sale of liquors at other than a state dispensary and these dispensaries close at 6 o'clock. Nearly every grocery and cigar store is a "blind pig" where liquors can be bought and one prominent hotel runs a bar where "speakeasy" prices prevail.

### Pennsylvania Well Represented.

The exposition is about 25 minutes' ride from the downtown or hotel section of the city. It should not have been opened for at least a month yet, according to the Pittsburghers. Many of the buildings are not completed and are not opened. "Keep out. This means you" signs confront one everywhere.

When the Pennsylvania building is completed it will look better than any of the present state structures. Philadelphia has a building in which the Liberty bell is exhibited. All the Midway shows were brought from Buffalo, and there are not over a dozen of them. It is said the total expenditure, including the cost of the ground leases, erection of buildings, was about $425,000. Pittsburgh is well represented by at least a half dozen local concerns who have attractive exhibits.

The next convention of the International League of Press Clubs will be held in Boston. Colonel James Elverson, Jr., the new president is the general manager of the Philadelphia Inquirer. The son of one of the pioneer publishers of the country, he has been in close touch with the publishing business.

# JEWS ADVISED ABOUT ZIONISM

**RABBI LEVY PREACHED AN INTERESTING SERMON YESTERDAY.**

**Does Not Favor Recolonization of Palestine, but Wants New Lands Peopled With the Scattered People of Israel. Holy Land Not Rich Enough.**

The Rev. Dr. J. Leonard Levy delivered a very interesting address yesterday morning in the Eighth Street temple on "Zionism." Rabbi Levy is a Zionist himself in a certain degree, and his lecture was listened to with deep interest. He said:

"Palestine was the land of Israel, promised to the patriarchs by God. Moses legislated for it, Joshua conquered it, David subdued it, Solomon extended it to the Euphrates.

"The people of Israel disappeared from history, but no sooner did the people of Judah find a little rest in Babylon than they began to long for Jerusalem. By permission of Cyrus the Jews finally returned, rebuilt the temple, and their descendants remained in possession of the land until Rome subdued it and exiled them.

"From that time till the present day the life story of Israel may be characterized as 'Lives of the Hunted.' They are sustained by a hope that the ransomed of the Lord will return to Zion with song and everlasting joy on their heads.'

### Not Scriptural.

"This hope found its way into the liturgy of the Jews, so that thrice daily they prayed, and after each meal they supplicated God to 'rebuild Jerusalem speedily in our days.' This hope is not Scriptural. There is no passage in the Old Testament that refers to a present-day return to Zion. It is but fair, therefore, to deduce that if Zionistic Jews return to Zion it will not be a fulfillment of prophecy that speaks no word on the subject.

"Zionism is a protest against modern anti-Semitism as it is manifested, especially in Russia, Roumania and Galicia, where 7,000,000 Jews are subjected to the most galling oppression and outrageous denial of human rights. It is held that by the rehabilitation of Palestine, by the establishment of a Jewish nation in a legally assured home, the rigor of persecution would be over and our unfortunate co-religionists would be goven an opportunity to rise to the dignity of true manhood.

### Favors New Lands.

"I have traveled through Palestine from Dan to Beer-sheba, and I know the faulty water supply, the poverty of the soil, the lack of harbors; I realize the perplexing questions involving Mohammedans, Christians and Jews and the vexing political questions involving the spheres of influence of Russia and Turkey.

"Yet to a people who have lived for 1,500 years in the face of the world's malice, nothing seems to be a difficulty. It is not at all impossible that Palestine may be given over to Jewish authority under a governor or prince appointed by the sultan as the prince of Samos is today.

"Even then political Zionism would not claim me today as an adherent. Let Zionists colonize Palestine, if they will. It would be a thousand times better than becoming slaves in the under-fed, underpaid, overcrowded, overworked ghettos of the western world. But instead of appointing Palestine the only place to be colonized, by agriculturists and handicraftsmen, let the leaders deflect the emigrants to Cuba, Porto Rico, Hawaii, the Philippines, Australia, New Zealand and other new lands where the flag of freedom flies and where conditions might be obtained yhich compared with the present persecutions of Israel, would seem paradise."

# NEW CHURCH DEDICATED.

**Bishop Field Preached the Dedicatory Sermon in the Church of the Living God.**

The new Church of the Living God, at Lemington and Lincoln avenues, was solemnly dedicated for public service yesterday. Bishop Edwin T. Field, who has charge of the new sect, dedicated the church and preached the dedicatory sermon. The services of the dedication were held at 10:30 and continued also in the afternoon.

For the next 10 days there will be a convocation service held every night in this church, incidental to the meeting of the general assembly of that body. The general assembly sessions began Friday night last. The Church of the Living God is the only one of that denomination in this county, and there are but a few others in the state. Bishop Field is at the head of it.

He has been working about here for nearly two years, and has succeeded in bringing together a flock of probably 200 families. These contributed generously and erected the frame edifice which was dedicated yesterday.

Last night the bishop explained the object of the new denomination and the work it had accomplished in other parts of the state. The church is situated in a district that is building up rapidly and will in time be a prominent section of the city when the Lincoln avenue bridge has been built. Nearly all the families in the district have become interested in the new denomination, and the pastor is of the opinion that there will be a number of converts to the faith before the convocation services end.

Each night during this week there will be special services and a sermon by several ministers of the denomination who are assisting Bishop Field. An executive session will be held by the ministers and the bishop Wednesday afternoon. The new church is a one-story-and-a-half frame, handsomely furnished, and with a seating capacity of 200 or more. It cost $5,000.

# ACCEPTS CALL TO EAST END CHURCH.

**The Rev. Dr. Frank W. Sneed Will Be Pastor of East Liberty Presbyterian Congregation.**

The Rev. Dr. Frank Woodford Sneed of St. Louis will be the next pastor of the East Liberty Presbyterian church of this city. He has wired the committee that he would accept the call, quoting the following verses of St. Paul to the Thessalonians:

The Rev. Dr. Frank W. Sneed.

"Wherefore comfort yourselves together, and edify one another even as also ye do. And we beseech you, brethren, to know them which labor among you, and are over you in the Lord, and admonish you; and to esteem them very highly in love, for their work's sake. And be at peace among yourselves."

Notice of Dr. Sneed's acceptance was announced from the pulpit by the Rev. Dr. Chalfant who occupied it yesterday. It has not been definitely determined when Dr. Sneed will assume his charge, but it is believed he will do so by the first Sunday of next month, if not earlier.

Dr. Sneed was born in Sedalia, Mo., 38 years ago, and graduated from Westminster college and from the McCormick Theological seminary in the same state. He was licensed by the presbytery of Lafayette (South), but his first charge was in the northern church of Riverside, on the outskirts of Chicago. From there he was called back to the southern district and located at Columbia, Mo. Again he was passed back into the northern district, as the pastor of the First church of Minneapolis, whence he was called to the Washington and Compton Avenue church of St. Louis.

# BANKSVILLE HAS A STRONG STORE

**CO-OPERATIVE INSTITUTION HAS BEEN A GREAT SUCCESS.**

**Although Forced Out of Business Once the Plan Has Done Wonders—Delegates Have Left for the Indianapolis Convention.**

The most successful co-operative store of Pittsburgh district miners at Banksville, regarded as the leader of such institutions anywhere, shows for the last quarter of its business results outstripping anything in its history. The business of the quarter was $8,628 84, and to the 211 members of the Banksville Co-operative association a 12 per cent dividend was paid. In the third quarter of the year the business amounted to $7,699 51.

The singular success of this institution of the miners and citizens of Banksville has attracted a widespread interest in similar communities. At the present time a movement is afoot in the anthracite fields to create stores of the same character. The Banksville association was formed in 1891, Secretary-Treasurer William Dodds, still an auditor, and Vice President Uriah Bellingham of the Pittsburgh district miners, being among the incorporators.

### Forced Out of Business.

For two years the association had a precarious existence, and was then forced out of business through the operation of two of the so-called "pluck-me" stores. The organizers had not lost heart, however, and in 1896 the association was reorganized and in its operations since net profits have been over $10,000.

The business the fourth quarter of last year was started with a balance in the treasury of $1,395 95. The first of this year the amount is less, $1,323 81, although the income was greater. This is accounted for in the higher cost of supplies and the withdrawal of $398 25 in ordinary stock. Together with the balance starting the last quarter the income was $16,112 02, against $8,788 59 the quarter before. Disbursements the last quarter amounted to $8,788 21, against $7,40264 the third quarter.

### Balance Sheet Figures.

In the quarterly balance sheet assets are shown as $6,629 17; liabilities, $5,635 36; surplus, $993 81. These figures for the quarter before gave assets, $5 957 95; liabilities, $5,169 61; surplus, $788 34. In the last balance sheet permanent stock is shown as $2,000 80; ordinary stock, $3,236 51. In the quarter before the permanent stock was $1,940; ordinary stock, $2,872 94.

The official list of the association is changed by E. Johnson succeeding John T. Atkin as secretary. H. Bellingham is president; Thomas Wyke, treasurer; William Dodds and Matt Greek, auditors.

The 42 Pittsburgh delegates to the annual convention of the United Mine Workers of America left last night over the Panhandle railroad for Indianapolis headquarters of the miners, where the convention will be held, and where the subsequent joint conferences with the operators of Western Pennsylvania, Ohio, Indiana and Illinois will take place.

### List of Delegates.

District President Patrick Dolan was prevented from joining his delegation through illness. He is expected to leave today or tomorrow for the convention. The delegates to represent the Pittsburgh district, most of whom left last night, are the following:

Matthew Charlton, Charles Lundy, Matthew Johnson, Edward Soppitt, John Bloem, John McGinty, John Fisher, John Peel, John Hurley, Isaac Beal, James Matthias, John Oates, Christian Lax, Nicholas Kunzo, Alexander McMillan, Robert Grant, Stephen Laverick, Joseph Rogers, Hugh McIlhaden, A. L. Davis, Victor Buzzi, Thomas Bates, John Carmichael, George Dagger, William Dodds, James Sheppard, Uriah Bellingham, William Little, Patrick Dolan, Louis Goarlot, August Reaman, James Platts, Paul Trimmer, D. J. Baron, Matthew Carrigan, William Russell, J. K. Hobaugh, Owen Fagan, John Kelly, Samuel Gaskill, Samuel Feyarossi and Edward McKay.

# PRESIDENT SCHWAB REASSURES AUSTRIANS

**Say They Nor the Germans or French Need Fear American Competition.**

(ASSOCIATED PRESS CABLE TO THE GAZETTE.)

VIENNA, Jan. 19.—The Neue Freie Presse publishes an interview with Charles M. Schwab, in which the president of the United States Steel Corporation declares that neither Austria, Germany nor France has anything to fear from American steel competition, although, owing to natural conditions, Europe would never be able to produce steel as cheaply as could the United States.

Mr. Schwab predicted the gradual decline of the British and the rapid expansion of the American iron trade.

# CARRIED NEW-BORN BABE ONE HUNDRED MILES.

BRIDGEPORT, O., Jan. 19.—(Special.)—Charles Secorum carried his infant daughter 100 miles on a railroad train and had her christened, all before she was half a day old. He lives at Tippecanoe, O., and is a devout Catholic. The baby was born in the morning, and he immediately made preparations for catching the train for Bridgeport. Upon arriving here he hurried to Father Weigand and the rite of the church was performed in time for him to catch the next train west.

# FEW MEN SECURED TO GATHER ICE CROP

**CONSOLIDATED COMPANY ONLY WORKED TWO LAKES.**

**Ice Is of a Better Quality Than Usual, However, and Season Began Early, So That No Difficulty Is Anticipated in Getting Enough.**

The Consolidated Ice Company of Pittsburgh is handicapped by a shortage of men in its annual harvesting of natural ice. Because of this shortage, where 1,000 men were wanted to start and prosecute the work at the several gathering points, work was started at only two of the lakes, with forces of less than half those needed for the starting of the entire work. Laborers to follow the ice plows could not be obtained in sufficient numbers, although the company had in readiness most of the experienced men it required to lay out the fields and handle the crop by means of the elevators in the ice houses.

The big Pittsburgh ice company made excellent headway, however, at two of its natural ice supply points within the past week and is getting a better grade of ice than for four or five years. There is little snow to lessen the value of the product.

### Work Started on Two Lakes.

Work was started last Monday at Stoneboro, Pa., and at Lakeville, O. At Stoneboro about 2,000 tons were taken off the lake daily and placed in the storage houses. The ice is, on an average nearly 13 inches thick. At Lakeville the ice is not so thick, being about 10 inches. During the past week there were taken from this lake about 1,750 tons daily, as being loaded into cars for the supplies of the Pennsylvania lines west, the Ft. Wayne tracks skirting the lake.

The work will be continued at both points this week and in eight days or so will be completed. At Lakeville the product this week will be placed in the company's storehouses, the railroad interests having obtained their supply from this lake.

### An Early Harvest.

It is an early harvest and the shortage of men and failure to take up the work of gathering the crop at all the lake supply points of the company is not a discouraging factor for a number of reasons. At Mayville, N. Y., where the work will be taken up last, the ice is 16 inches thick, almost too heavy for successful handling. Open weather there will not interfere with this crop, and besides, at this point the company now has a store of about 30,000 tons as much as is usually carried over from the year before.

At Ligonier the work of taking up the ice will probably be started on Tuesday, additional men having been secured. At Ligonier the ice is from 9 to 10 inches thick. The old system of cutting the ice is still in use. Improved tools are the only innovation. A dozen or so teams are used to draw the plows at each of the points where the work is now on.

# ORDERS BY TELEPHONE.

**Illinois Central Railway Will Equip Its Entire System With Instruments.**

CHICAGO, Jan. 19.—The Illinois Central railroad within a short time will have all principal stations along its line equipped with telephones for the use of officials and employes in transmitting the orders and messages of the company.

Those who have experience with the system claim for it many advantages over the old telegraph system. They assert that by means of the telephonic system the service will be practically revolutionized, and with slight improvements which are inevitable the telephone will furnish greater safety for train orders; that the cost of train operation will be decreased and the results obtained made vastly better, and that no less important is the constant personal contact between officials and employes, which the promoters says, is certain to result in a higher class of service.

The change on the Illinois Central will be gradual. The installation of the system will cost about $100 per mile, or approximately, $500,000 to equip the entire road, including its main branches and the Yazoo and Mississippi Valley road. Chicago will probably be the starting place. Almost simultaneously work will be commenced at New Orleans and St. Louis. From these centers a two-wire line will be extended to the principal points until every station on the entire system is included.

# TABOOES THE LADIES.

**Salem's Mayor Selects a Man for City Marshal's Office for That Reason.**

BOSTON, Jan. 19.—(Special.)—Because he is a bachelor and has "never been kissed," is one of the strongest arguments advanced by Mayor Hurley of Salem, in nominating Edward Herman for city marshal. Mayor Hurley thinks that the members of the police department have been paying too much attention to the fair sex and has placed a reformer in nomination.

The board of aldermen had had a tie vote on the matter of his confirmation, and it is expected that he will have a majority at a meeting to be held January 20. Edward Herman is a personal friend of Mayor Hurley. He has been a member of the city government six years and was a member of the water board.

# ONLY TEN DAYS ARE LEFT FOR CONTRIBUTORS

## McKinley Memorial Fund Receives No Subscriptions After January 29.

## $30,000 HAS BEEN DONATED

**Managers of Western Pennsylvania Division Hope That Amount Will Be Doubled Before Closing Date. Some Large Checks.**

The men who have charge of the McKinley memorial fund for Western Pennsylvania hope that the amount now in the fund will be doubled and perhaps trebled before the last day on which contributions will be received. It was found on Saturday that the sum contributed by Western Pennsylvania amounts to $30,000. The committee in charge decided at the beginning not to make public, at least while the money was being raised, the amount or individual contributions. The only contribution so far published was that of the Homestead workmen of the Carnegie Company, who on Saturday contributed $8,473 25, which represented not more than a half-day's wages of each of the men who contributed.

### Some Big Contributions.

S. J. Wainwright, the treasurer of the fund, has received large subscriptions, some wealthy Pittsburghers having sent him checks for $5,000. Of course the committee welcomes all the big sums it can get, but it hopes that the people generally will send in their mite. Many contributions of $1 have been received. Every subscriber receives a certificate of membership in the McKinley Memorial association, and if anybody should send only 10 cents his certificate will be mailed to him.

It is thought that the national fund will be heavily reinforced by subscriptions from this neighborhood, as the late president's policy was chiefly instrumental in the prosperity enjoyed by the manufacturers and workingmen of Pittsburgh.

### Only Ten Days Remain.

Those who wish to aid the McKinley memorial project and have not given anything have but 10 days more in which to add their names to the list of members of the association. On January 29, McKinley's birthday, the fund will be closed. The governor of the state has named that date as "donation day."

All the men prominently connected with the Western Pennsylvania association have worked hard to make the fund a success and to put Pittsburgh and Western Pennsylvania at the head of the list of big contributors. William McConway, the vice president for Pennsylvania of the McKinley Memorial association, has shown special interest.

### Workmen Contribute.

At the McConway-Torley Company's works notices are posted asking the employes to contribute to the fund, but no man is expected to give more than a half-day's wages. If a workman can't afford to give more than his wages for an hour's work his money will be gladly received.

Practically the fund has been collected only since the first of the year, for the preliminary work occupied fully a month and a half prior to January 1, and few contributions were received before that time. Special efforts will be made during the last 10 days, and if Western Pennsylvania's addition to the monument fund should reach the aggregate sum of $100,000 the committee would not be surprised, though it is realized that public interest must be awakened before that amount can be raised.

# BISHOP POTTER GIVES PRAISE TO RAILROAD MEN

**Says That the Public Does Not Realize the Great Strain Which They Must Undergo.**

(SPECIAL TELEGRAM TO THE GAZETTE.)

NEW YORK, Jan. 19.—In vigorous protest against the constant censure which railroad corporations receive, the Rt. Rev. Henry C. Potter, Protestant Episcopal bishop of New York, this afternoon made a defense of railroad employes. The occasion was the dedication of the Mott Haven railroad branch of the Y. M. C. A. at Spencer place and One Hundred and Fortieth street, which has been erected as a memorial to the late John M. Toucey, for many years manager of the New York Central.

"How much," said the bishop, "the railroad men ought to interest you! There are many picturesque types in our modern industrial life which are not attractive, but the railroad men, it seems to me, have never had the recognition which they deserve. Only a few days ago I was asked by a pert young lady why it was that the president always shook hands with the engineer of a train after he had completed a journey.

"If one ever sits beside the engineer and watches him at his work while the train whirls along at the rate of 60 or 69 miles an hour, he will get some sense of the sore strain under which that man is placed. He will take away an impression which will last him for the rest of his life. You hear much in these days of the failures of railroad corporations, and their mistakes are pointed out on every occasion. The commuter takes delight in sending savage notes to the papers. They do not understand what they are talking about."

# WILL LOSE THEIR JOBS.

**Employes of Copper Company Lose Positions by Reason of Injunction Against Plant.**

DUCKTOWN, TENN., Jan. 19.—Another injunction has been granted against the Ducktown Sulphur, Copper and Iron Company and the Tennessee Copper Company, on account of sulphur smoke and fumes emitted from their roast plants.

It is said that the president of the Tennessee Company has notified Randolph Adams, general manager of the company here, that when the injunction shall be served upon him, he is to shut down the entire works and pay off and discharge every man, which would be a terrible calamity upon the people of Ducktown. It would be a repetition of the days of 1878, when the Union Consolidated Mining Company suspended operations.

# RANGES SWEPT BY FIRE.

**Northwestern Sheepherders Are Despoiled of Pasture by Prairie Conflagration.**

BUTTE, MONT., Jan. 19.—A special from Great Falls says that extensive prairie fires are reported on the other side of the international boundary, extending for a distance of from 10 miles to 20 miles west of Sweet Grass hills. Practically all the range between Milk river and Lethbridge has been swept by the flames. Many hundred tons of hay have already been destroyed.

The fire extended to the valuable sheep ranches in the Sweet Grass hills and owners of flocks in that vicinity are confronted by the serious necessity of securing new winter ranges.

# PRICES ON TUBES ARE INCREASED

**COLD DRAWN SEAMLESS PRODUCT TEN PER CENT HIGHER.**

**Scarcity of Steel and High Prices on Billets Caused the Advance—German's Are Shipping Steel to This Country on a Large and Growing Scale.**

Extreme scarcity of steel and the high prices which have ruled on billets and blooms for months are forcing new steel trade issues. The Shelby Steel Tube Company, a branch of the United States Steel Corporation, has, through this scarcity and the high prices, along with the urgent demand for its own product, been forced to put up prices an average of about 10 per cent on its cold drawn seamless tubes. The advance is already effective.

In the steel corporation the Shelby Tube Company is an operating branch of the National Tube Company bearing the same relation to it as the National Steel Company and the American Steel Hoop Company do to the Carnegie Steel Company. The National Tube Company, however, has not and is unlikely to soon alter its prices on tubing, made after a different process.

For months the domestic consumers of billets outside of the steel corporation have been dealing to get some of the foreign output. This is produced under lower market conditions abroad, and at such a price that ocean and rail freight added the billets can be laid down in the Mahoning valley and other central west points at the same or a less price than the domestic product. Little domestic steel can be had except for months ahead.

The Youngstown Iron, Steel and Tube Company, the new and important independent concern at Youngstown, O., recently purchased 3,000 tons of German billets, laid down at mill at about the same price that the steel is sold at domestic mills, or about $28 a ton.

This is a singular shifting about of conditions. Little over a year ago Carnegie billets, sheet and tin plate bars were being sent to Wales, the Carnegie interests using lake carriers that could load at Conneaut, pass through the Welland canal, cross the ocean and still provide a manufacturer's profit.

This move, while it carried its own profit, was a factor in getting freight concessions from the railroads for Pittsburgh shipments to the eastern seaboard. Soon after the lower rates were instituted, however, the rise in the market here crowded out much of the export business, leaving only that in the more costly finished lines.

# CENTENARIAN SAW THE BATTLE OF WATERLOO

**Formerly Spoke English Fluently, But Now Has No Knowledge of Anything But German.**

[SPECIAL TELEGRAM TO THE GAZETTE.]

QUINCY, ILL., Jan. 19.—Leonard Doeder, this city, will celebrate his 102d birthday Tuesday. This is not the only distinction which he claims, and to which he is justly entitled.

He is one of the few persons left in the world who witnessed the memorable conflict on the plain of Waterloo. That battle was fought 87 years ago on the 18th of next June, but the events are still fresh in the mind of this centenarian. His only regret and the overshadowing misfortune of his life, he said in an interview today, was the fact that he did not have an opportunity to engage actively in the battle. But that he was there and was a member of Gen. Blucher's army is unquestioned, as he still has his discharge papers.

It is now 58 years since he came to this country from Germany to live. He soon acquired the English language which he spoke with some fluency up to a couple of years ago, when, through some trick of nature, he suddenly seemed to forget all the English he ever knew, and found he could converse only in German.

His hair is as white as snow, but otherwise he exhibits no special mark of his many years. His shoulders are slightly stooped, but he walks with a firm step, and his skin is comparatively smooth and has a healthy glow.

# DEWEY SPIED THE ILLINOIS

**The Admiral Was the First to Sight the New Battleship as It Passed Palm Beach.**

THE BREAKERS, PALM BEACH, FLA., Jan. 19.—(Special.)—Admiral Dewey was the first to sight the new warship Illinois, which passed here about 2 o'clock. It made a pretty sight as the sun touched the pure white vessel as it glided rapidly over the deep blue sea.

The admiral called for his glasses. "Isn't that a beautiful sight?" he said; "a city in itself. That vessel was built at a cost of nearly $3,000,000, and is now going from New Orleans to Newport News for the final trial," and he put the glasses down with evident enjoyment to even looking at one of the handsome warships on which he has spent so much of his life.

There was a report today that the ostrich farm would be open for the first time this year, so a party was made up to go out in chairs this afternoon. They were Admiral and Mrs. Dewey, Mr. and Mrs. Archibald J. McClure and Mr. and Mrs. John Mollen. When they reached the farm it was learned that the ostriches had just reached the pier on a barge, having been towed over by a steam launch. Seeing them brought on shore was a greater treat than members of the party had anticipated.

The birds' heads were covered with stockings to blind them and made a comical sight. They were pushed backward down a plank and up the pier. They have wonderful names, and, as one was said to be named for the admiral, he asked which one it was. They were brought out one by one, and when the one named for him was pointed out it made a rush for the shore and the keeper had a hard time getting it into captivity again.

Mr. Davidson Lloyd of Pittsburgh arrived today.

There was a sudden explosion and death soon ensued.

# ARMORY SCHEME ABANDONED BY ASSOCIATION

## After Years of Work the Project Has Been Given Up Entirely.

## NO INTEREST MANIFEST

**The Last Meeting Has Been Held, and After Almost Eight Years of Waiting, Contributions Will Be Returned Soon.**

The Pittsburgh Armory and Auditorium association has concluded its work as an organization. Last Thursday the final meeting was held, at which a committee appointed for the purpose of closing the affairs of the association presented its statement.

The organization was formed eight years ago for the purpose of securing sites and the erecting of armories for the various regiments of the national guard in this county. Thus, with the abandonment of this body of men, is abandoned for years to come the hope of an armory that would be a credit to the city.

The organization was composed of some of the most prominent men in this city. But little interest could be enlisted in the project, and it was therefore determined to abandon the organization.

The committee's report states that 82 meetings were held by the general body, in addition to the numerous meetings held by sub-committees who had charge of the detail work. Everything possible was done; legislation secured, councils requested to enlist their aid, and architects hired to draw plans.

### First Met in 1894.

The first meeting of the organization was held December 29, 1894, in the United States district court room, with the late Capt. A. E. Hunt in the chair. The year following the committee on legislation reported that an act of assembly had been presented granting the association the use of the Allegheny wharf or other city property for an armory site.

The house, however, amended this to eliminate Allegheny, and it was so approved by the governor. At one time the association had hoped to get the old Bedford basin property from the city, but this, too, failed for want of funds. The city would not donate the property for the purpose, but was willing to lease it.

The organization was pleased with this and decided to begin work on raising the funds necessary for the project. It was decided that the buildings would cost between $300,000 and $500,000. Popular subscription was invited, but in November, 1898, the total amount subscribed was but a little over $150,000, hardly sufficient to keep up the hopes of the men who gave their time to the project.

### Plans Modified.

Numerous pledges were made, but in the aggregate they were not such as to give encouragement of ultimate success. The architects were then ordered to modify the plans with a view to reducing the cost of the buildings. It was then stated that $300,000 was the minimum cost.

Various efforts were made to secure the funds, but it ultimately became a disheartening task for the men who gave themselves generously to the work. Among the prominent men of the organization were the late Senator C. L. Magee, James S. McKeon and Capt. A. E. Hunt. The committee on the final report was W. H. Keech, James H. Whitelaw, William J. Diehl, W. N. Kennedy and A. J. Logan.

The auditors' report showed that $190,504 50 had been subscribed. Of this $28,-000 50 was paid. The expenses totaled $9,097 88. The balance will be refunded to the contributors.

# GIRL KILLS HERSELF.

**Refusal of a Man to Marry Her Causes Her to End Life With Gun and Poison.**

TOLEDO, O., Jan. 19.—Louise Avery, 23 years old, of Delaware, committed suicide in a horrible manner last night. This morning her brother found her lying dead upon her bed with the barrel of a shotgun held by one hand against her temple. Evidences were found that the woman had taken forte grease and morphine, but had finally resorted to the shotgun. The entire top of her head was blown off.

The refusal of a man to marry her is said to have prompted the deed.

BEAVER FALLS, PA., Jan. 19.—(Special.)—Today it was announced to the congregation of St. Joseph's Roman Catholic church that owing to continued ill health their pastor, the Rev. Father Edward P. Office of City Clerk,
City of Allegheny, Pa., Jan. 18, 1902.
NOTICE is hereby given that the following ordinance was presented at a meeting of common council of the city of Allegheny, on the 18th day of January, 1902, and was referred to committee on public works:

ROBERT DILWORTH, City Clerk.

AN ORDINANCE—Authorizing and ordering the grading, paving and curbing of Nevada street, Second ward, from Taggart street to Brighton road, and providing for assessment and application of the costs and expenses thereof.

Section 1. Be it ordained and enacted by the select and common councils of the city of Allegheny, and it is hereby ordained and enacted that the grading, paving and curbing of Nevada street, Second ward, from Taggart street to Brighton road, is hereby authorized and ordered, and the director of the department of public works is hereby authorized and directed to advertise for proposals for doing said work in accordance with said specifications, and the said director are authorized to advertise for proposals for doing said work in accordance with said specifications, and award the contract thereafter, according to the provisions of the acts of assembly in such cases made and provided.

**Died from His Injuries**—James Frolink, a laborer, who was injured yesterday morning in an explosion at the Carrie furnaces, Rankin, died at Mercy hospital at 2 o'clock yesterday afternoon.

**Body Was Identified**—An unknown man killed by a Pittsburgh & Lake Erie train at Becks run on Friday was identified at the morgue last night as Michael Tudle of No. 2650 Carey alley. He was a laborer, 35 years old.

**Heart Disease Caused Death**—Paul Tricloch, 48 years old, a miner, of Federal, died suddenly yesterday afternoon of heart disease at his home. He was injured about the body in a mine slide two weeks ago, at which time his heart was effected.

**North Braddock Ticket**—The Republicans of the First ward, North Braddock, nominated the following ticket Saturday: Council, Daniel Brown; school directors, J. B. Adams, James S. Fleming and A. M. Pancill; assessor, John A. Whalen; constable, Horace Schultz.

**Turtle Creek Primaries**—The Republican primaries at Turtle Creek Saturday were enthusiastic. The following ticket was named: For council, Capt. P. W. Bell, Dr. A. J. Trevaskis and John Kline; school directors, Adam Kinsey and George Miller; constable, William Barnes; auditor, Thomas Wright.

**Dropped Dead in His Home**—While walking down stairs at his home in Anon street, Homestead, yesterday morning, Thomas Pyer, 60 years old, dropped dead of heart disease. He was a foreman in the Homestead steel works, and was apparently in good health when the collapse came.

**Fell Down Steps**—John Barr of Morgan street, South Side, was taken to the South Side hospital early yesterday morning suffering from a broken leg. He was found by Officer Riley at the foot of a flight of steps at South Eighteenth street extension, from which he had fallen.

**Explosion Was Fatal**—Nelson Webster, laborer, 50 years old, of McDonald, died at the Homeopathic hospital at noon yesterday of injuries received Saturday in an explosion. He was lifting a gasoline stove while it was still lighted. The gasoline ignited and he was burned about the head and shoulders.

**Two Small Fires**—There were two still alarms of fire in Allegheny last night. At 6.30 engine company No. 3 was called to North avenue and Race street for a small blaze in the roof of a house. Damage was about $20. At 7 o'clock engine company No. 4 was called to No. 1240 Locust street for a chimney blaze. There was no damage.

**Talk of a Contest**—The primaries in Homestead resulted in a general turmoil between the combine and stalwart factions. In the First ward H. H. Layman, the combine candidate for council, won over R. Baker, the stalwart. The latter, according to the stalwarts, was elected and there is talk of a contest. It was rumored last night that an attempt had been made to steal the ballot box.

**Can't Bury His Mother**—Mary McCole, a widow 70 years of age, was found dead in bed at her home in the rear of No. 535 West Carson street at 9 o'clock yesterday morning. She lived there with her son, who is a single man and too poor to bury his mother. The body was removed to the morgue. The woman's death was due to the infirmities of old age.

**Overcome by Gas**—James Todick, a Slav about 30 years old, died late Saturday night at the Mercy hospital from the effects of being overcome by gas at the Carrie blast furnaces of the Carnegie Steel Company in Rankin on the night of January 3, when two other men met death at the same time. Todick was unmarried. He was a member of St. Michael's Roman Catholic Slavonic church of Braddock and of several societies.

**Piano for the Jail**—The Allegheny County Prison association has purchased a piano for use at the county jail. It will replace the little, old, antiquated organ that has done duty in the new and old jail for 20 years and which is about worn out. Warden Peter K. Soffel some time ago wrote to Andrew Carnegie asking him if he would not give an organ to the jail, as religious services were held there as regularly as in a church, but nothing ever came of the request.

**Second Ward Primaries**—With four precincts to hear from the vote for ward officers in the Second ward, Allegheny, at Saturday's Republican primaries is as follows: School directors, (two to elect), A. McD. Barnes, 804; A. S. Patterson, 968; Sidney S. Smith, 487. Constable, Robert Alexander, 803; Clyde S. Edeburn, 589. Ward assessor, C. B. Milligan, 694; C. W. Smith, 516. The nominations of Barnes, Patterson and Alexander are assured, while that of the ward assessor is in doubt.

**Officers Installed**—Advisory council of the C. M. B. A. met last night in Elks hall and organized for 1902 by electing the following officers: President, A. J. Devlin; first vice president, Dr. A. J. Bouchet; second vice president, J. P. Limpert; secretary, John M. Tighe; assistant, J. I. Brown; treasurer, Daniel L. Crawford; marshal, Edward Hughes; guard, Peter Jacobs. The officers were installed by grand president M. J. Maxwell. The advisory council is making arrangements for the entertainment of the supreme council of the order which meets here in 1903.

**Police Court Hearings**—Police courts in Pittsburgh and Allegheny were fairly heavy yesterday morning, 132 prisoners appearing before the various magistrates. Magistrate James V. McMasters disposed of 38 cases. Frank Scott was held for court on a charge of aggravated assault and battery. He is accused of hitting Harry Johnston on the head with a brick. Magistrate Bernard McKenna heard 50 cases. J. H. Cain was fined $25 and E. L. Cox $5 for creating a disturbance on a Baltimore & Ohio railroad train. William Tierney was sent to the workhouse for 90 days for stealing a suit of clothes from the Hope mission at Grant and Diamond streets. Other cases were ordinary drunks and disorderlies.

**Business Men Will Banquet**—The Homestead business men's banquet, to be held tomorrow night at Steenson's hall, Homestead, will be a large affair from all indications. Two hundred covers will be laid, and the guest of honor will be W. E. Corey of the Carnegie Steel Company. The Homestead Library band will be present and the invocation will be made by the Rev. Father J. J. Bullon of St. Mary Magdalen's Roman Catholic church of Homestead. Louis Rott will act as toastmaster, the following being the toasts to be responded to: "The C. M. Schwab Industrial School," Hon. Robert McWhinney; "Our Financial Growth," Louis Rott; "Greater Homestead," John F. Cox; "The Industrial Valley," the Rev. W. O. Rosells.

**Died from Burns**—Josephine Andyanna, four years old, of No. 605 Dante alley, who was burned on Saturday afternoon in the rear of the Sixth avenue hotel by her clothing catching fire from the piece of lighted paper thrown from the window of the hotel, died at the Homeopathic hospital last night at 7:30 o'clock. The little girl never regained consciousness after she was taken to the hospital. Mary August of No. 23 South Eleventh street and Susie Lambert of No. 1163 Penn avenue, who were arrested charged with having thrown the lighted paper from the window, were released on $300 bail by Police Magistrate Bernard McKenna yesterday morning, for a hearing on Tuesday. The coroner's inquest will be held Wednesday.

**Annual Meeting Tonight**—The Association for the Improvement of the Poor will celebrate its twenty-sixth anniversary by a public meeting held in the Third Presbyterian church, Fifth and South Negley avenues, this evening. It has been the custom of the association to observe this anniversary on Sunday nights, frequently with meetings in several churches. This year the meeting will be a week-day night and in one church only. The exercises, which will be in charge of the Rev. Dr. W. L. McEwan, pastor of the church, will commence at 8 o'clock. They will consist of music by the church choir, addresses by the Rev. Dr. D. H. Geissinger of the First Lutheran church and Rabbi J. L. Levy of the Eighth Street temple, and the reading of the annual reports.

**Conductor Badly Hurt**—Emmett S. Wooden of No. 4614 Plummer street was struck yesterday morning at Twenty-ninth street and Penn avenue by a Sharpsburg street car and perhaps fatally injured. Wooden is a conductor on a Highland park and Butler street car and was on an eastbound trip when he stopped his car at Twenty-ninth street in order to get some change at a drug store on the corner. As he stepped around the rear of his car he did not notice the approach of the Sharpsburg car and it struck him and threw him to one side. He was picked up and carried into a drug store and a physician called. It was ascertained he had sustained a fracture of the skull over the right temple and a broken knee cap. He was removed to his home.

## CAN PLAY TYPEWRITER THOUGH MILES AWAY

**A Maine Man Claims to Have Invented New Automatic Telegraph Writing Machine.**

[SPECIAL TELEGRAM TO THE GAZETTE.]

BOSTON, MASS., Jan. 19.—Herbert I. Cromwell of Bath, Me., is the inventor of a telegraphic typewriter, which he claims will revolutionize the whole telegraphic idea, and at a similar cost to the system invented by the late Samuel F. B. Morse. It is to send messages upon a machine fashioned like a typewriter which will be recorded in a printed form on a similar machine at the receiving office. Each is supplied with a universal keyboard and spacer, while the paper table is supplemented by a narrow socket on the side, into which a roll of paper is dropped.

The inventor has placed one of the typewriting machines in the attic of his home and the other in the basement, and eight dry cells at each end furnish the electric current for the system of magnets which play a very prominent part in the transmission of messages by this process. Thus far not the slightest difficulty has been experienced in the use of the instruments, and the explanation as to their working appears simple enough.

A slight pressure upon the keys sends a current of electricity to the other office, and at the same time moves along a small magnet which pulls down a key and makes an impression of a letter that is pressed on the first machine. Upon releasing the key the current is broken, and the magnet is ready for the next letter.

Switch plugs are to be used with this system to prevent all confusion in calling the office wanted. To get a desired office, there will be certain bell calls on each circuit, and when answered by the shifting of a key, all is in readiness for receiving a telegram, which is automatically printed before one's very eyes. Mr. Cromwell has not patented his invention yet, but hopes to do so shortly when he has perfected the system.

## NEW SLATE REPORTED.

**Story from Harrisburg Says That Dr. Flood and Gen. Schall Will Run on Elkin's Ticket.**

HARRISBURG, PA., Jan. 19.—(Special.)—It is said here that the Rev. Dr. Theodore L. Flood of Meadville and Gen. John W. Schall of Norristown, are the present choice of the Stone-Elkin combination for the Republican nomination for lieutenant governor and secretary of internal affairs, respectively, and that their nomination was agreed upon at a conference last Thursday at Washington. The same conference, it is said, decided that Attorney General Elkin must be the nominee for governor and that Senator Penrose shall be re-elected by the next legislature. Those said to have participated in the conference are Senator Penrose, ex-Senator Mitchell of Jefferson, Public Buildings Superintendent Eyre and Messrs. Elkin and Flood.

Dr. Flood was beaten for congress in the Erie-Crawford district several years ago by Joseph C. Sibley, who ran as a Democrat, with Prohibition and Populist indorsements. Mr. Sibley was not a resident of that district, in the state convention of 1900 Foerderer of Philadelphia defeated Dr. Flood for the nomination for congressman-at-large. The doctor's son, Ned Arden Flood, is an aid on Gov. Stone's staff and is said to be a candidate for senator in the Crawford district to succeed Senator Washburn, whose term expires next December.

Gen. Schall served with credit in the civil and Spanish-American wars. He has never been active in politics and has held no important office with the exception of postmaster of Norristown. He commands the First brigade of the National Guard of Pennsylvania and is the junior brigadier of the division.

## PROPERTIES MAY BE SOLD.

**Everett-Moore Syndicate May Be Obliged to Let Go Some of Its Holdings.**

CLEVELAND, O., Jan. 19.—The bankers' committee in charge of the Everett-Moore syndicate will hold a meeting tomorrow afternoon.

The developments of the past week have practically caused the members of the committee to decide upon a somewhat different line of action than at first intended. The primary object of the committee is to preserve intact the equities of those in the syndicate. In order to accomplish this plan in regard to all the interests of the syndicate, it is now extremely probable that a number of the properties will be sold. That is, all the syndicate's interests in the properties sold will be disposed of.

According to Chairman Newcomb, of the bankers' committee, the syndicate has given it the power to sell properties if they deem it wise to the satisfactory solution of affairs. Mr. Newcomb said that the Detroit United Railways is among the properties that may be sold. The London, Ontario, street railway system is among the saleable properties.

**Sunday Fire at Richmond, Va.**

RICHMOND, VA., Jan. 19.—Gates & Brown, wholesale grocers, were burned out early this morning. Loss probably about $50,000, fully covered by insurance.

## MINERS ARE HURRYING TO INDIANAPOLIS

**Prospects Are That Eight Hundred Will Be in the Hall When Convention Opens Tomorrow.**

[SPECIAL TELEGRAM TO THE GAZETTE.]

INDIANAPOLIS, IND., Jan. 19.—"If the advance guard may be taken as an indication, this will be the greatest convention the United Mine Workers of America ever held," was the way President John Mitchell sized up the outlook tonight. He was mingling with the delegates who have arrived and established headquarters in the Occidental hotel. They will re-elect Mitchell president and Wilson secretary. Neither will be opposed.

There are many candidates for the standing committees, however. Secretary Wilson's report will be read after the convention organizes tomorrow. Reports of credentials and auditing committees will be presented then. Twenty delegates from West Virginia have arrived. They will take an active part in discussions relative to organizing West Virginia. There are now about 80 locals in that state. Forty-five have been established within the last year. The organization will consider every possible way for bringing the non-union miners of West Virginia into their ranks.

A delegation of almost 200 from the hard coal regions in Pennsylvania arrived this evening. An equal number will represent Pennsylvania soft coal miners on the floor of the convention. The hard coal men will make a determined stand for an eight-hour day. It is believed the others from Pennsylvania will join them. This and the demand for increased wages, probably 10 per cent, will occupy several days' discussion before they are referred to committees. A delegation of 150 from Ohio, another of 130 from Illinois, and most of the Indiana men are registered at the Occidental. Other delegations will continue to arrive during the night. It is believed that there will be 800 delegates in the hall when President Mitchell calls the convention to order tomorrow morning.

## TWELVE PAGES.

### Primary Election Surprises.

The increase of the voting population of the Eighth, Thirty-first and Thirty-second wards shown by the tabulated returns from Saturday's primaries is marvelous. If comparison is made with the vote cast at the presidential election in November, 1900, a little more than a year ago, it will be seen that in each of these wards the vote recorded at the Saturday primaries is far in excess of the vote cast for all candidates for president—Republican, Democrat, Prohibition, Social Labor, Socialist and Peoples. It is so far ahead of the vote cast for McKinley as to stagger belief. Beginning with the Eighth ward and taking the figures for the presidential vote from Smull's handbook, a comparison by election districts is made of the combined vote of West and McKelvy with the vote for McKinley and with the vote for all the candidates for president, as follows:

| | 1 | 2 | 3 | 4 | 5 | Total. |
|---|---|---|---|---|---|---|
| Primary | 272 | 178 | 238 | 262 | 280 | —1,225 |
| McKinley | 143 | 122 | 184 | 152 | 211 | — 812 |
| All for president | 213 | 143 | 226 | 186 | 230 | — 998 |

In the Thirty-first ward a comparison of the combined vote of the two candidates who fought it out with the vote for McKinley and the vote for all presidential candidates shows like this:

| | 1 | 2 | 3 | 4 | 5 | Total. |
|---|---|---|---|---|---|---|
| Primary | 246 | 217 | 238 | 212 | 180 | —1,093 |
| McKinley | 130 | 108 | 124 | 120 | 116 | — 698 |
| All for president | 176 | 205 | 179 | 165 | 155 | — 910 |

In the Thirty-second ward, where three candidates contested for the nomination for common council this is the way it looks:

| District. | Primary. | McKinley. | All for President. |
|---|---|---|---|
| 1 | 270 | 142 | 178 |
| 2 | 229 | 143 | 173 |
| 3 | 281 | 129 | 163 |
| 4 | 266 | 105 | 151 |
| 5 | 204 | 124 | 150 |
| 6 | 233 | 182 | 182 |
| 7 | 242 | 131 | 172 |
| Eighth | 147 | 88 | 160 |
| Total | 1,882 | 1,024 | 1,277 |

If the vote of the other parties increases in the same proportion in these three wards at the February election a record-breaking vote will be polled.

### Censorship of Plays and Players.

The New York legislature has two bills before it, one providing for a strict censorship of all plays presented in the theaters of that state and the other demanding that all actors shall be required to undergo a certain preparatory tutelage in dramatic art before they shall be permitted to appear professionally. Both of these measures have a modicum of practical need behind them, but this is so small as to make their enactment into law wholly unnecessary, and to judge from the tenor of discussion, impossible. America hardly needs to adopt the old world method of directing public amusements just yet awhile. In this country public sentiment is still a fairly safe guide, and while very much that is vapid and utterly foolish finds its way to the stage, the morally degenerate play is only accepted by a few people.

The recent history of dramatic affairs in this country amply demonstrates the fact that the public is its best defense against the erratic and vicious drama. The successes so far this season on the American stage offer an interesting study in the soundness and moral cleanness of the tastes of the masses of American theatergoers. A notoriously immoral play that bore the name of a popular American author came to grief early in the season, while a dramatization of a simple story of Scotch peasant life has been one of the striking successes of the year. This contrast might be carried further. Plays like "Sappho" and "The Marriage Game" may flourish for a brief time in New York, amid the cosmopolitan morals of that big city, but your true American taste will, when appealed to, put a prompt and effective quietus upon dramatic material vicious in its tendencies and immoral in tone.

As for the proposition to "license only actors with experience there is even less to be said in its favor. While the public might thereby be saved the unpleasant necessity of seeing the performance of people utterly without talent for their work the effect of the law would be to place a most helpful and inspiring school of dramatic art beyond the reach of struggling genius that finds the actual work of acting in even subordinate and insignificant roles its only means of instruction. Many of our best actors and actresses failed in their early careers, and under the terms of the law proposed in New York would have been driven from the stage. Censorship is an un-American idea and distasteful to the free and enlightened public sentiment that in this country has always been able to protect itself against public evil in every form of art, whether of literature, painting or the stage.

### Bigham's Defeat.

In explaining his defeat for a renomination for common council in the Thirty-second ward, Kirk Q. Bigham says he was made the victim of all the grievances against Gov. Stone, Senator Flinn, the city administration and himself. He weakens this statement by adding to it that "all disappointments in business or pleasure suffered by my (his) constituents during the last 15 years" were visited on him. This part of his statement is simply born of irritation and disappointment. The preceding diagnosis is more within the mark. Undoubtedly the popular dislike of Stone and Flinnism and the Stone-Flinn deal were influential factors in Bigham's defeat, notwithstanding which, at the end of the story, he has only himself to thank for the ruin of his public career. Resentment against Flinn, the governor and the city administration would not have operated against him, but for his willing servitude to the political and business combination to "do" the people. If Mr. Bigham was weighted by this combination it was merely because he weighted himself with it in the expectation that he would share in the crumbs. He was an expectant beneficiary and didn't attempt to conceal his expectations. His hopes are blasted, not so much because Flinn and Stone made a deal, as because of his own intention to be an humble sharer in the fruits for services rendered. Mr. Bigham is the author of his own misfortunes. Had he served the people with half the zeal with which he served the political-business combination they would not have turned him out of doors in midwinter.

### In the President's Hands.

It is said that the supplementary report of the isthmian canal commission which is now in the hands of the president strongly favors the selection of the Panama route as the site of the interoceanic waterway contemplated by this government. Whether this be true or not will not be fully known until the contents of the report are given out today or tomorrow, but the fact remains that the question as to the choice of routes should be submitted to the president and thus much useless controversy and possible recriminations avoided. That the government proposes to build a canal across the isthmus of Panama is a settled fact. As to which route shall be followed only a thorough investigation can decide. All the facts, it would seem, concerning the various routes proposed have now been collected and the sole remaining questions to be disposed of are the choice of route and the provision for the immediate commencement of the important work. Congress, of course, is expected to provide for the latter contingency, but that body in its present condition of divided sentiment and personal prejudice is hardly qualified to determine the delicate questions entering into the selection of a route for the canal. This problem calls for advice and the unbiased counsel of experts on the subject of canal building. All the steps preliminary to the building of the canal must be taken by the executive, including the negotiation of treaties, the passing upon titles and the preparation of plans.

This being so, why should not the entire question of the selection of a route be left in the president's hands? He will be guided by counsel that is free from the influence of previous prejudices. Let congress authorize the construction of the canal, make it plain that it must be under American control, provide the necessary appropriations, and then leave the choice of routes entirely to the president.

### Anxious for Our Friendship.

Foreign nations have not only given up the habit of sneering at the United States, but they are actually scheming for opportunities to win our good will and appear well in the eyes of the American people. Only a little while ago a quarrel of somewhat bitter spirit was provoked over the claim set forth by England that had it not been for the opportune and decided attitude of that government toward the proposed European coalition in favor of Spain this country would have fared badly in the little scrimmage we had with the dons. M. Hanotaux, French minister of foreign affairs, promptly came forward and said that it was Russia's frigid attitude toward the proposed anti-American alliance that saved Uncle Sam, and even went so far as to intimate that England was open to conviction.

Now that Germany has suddenly developed a desire to be "chummy" with us and is actually sending us the kaiser's brother, and having our president's daughter christen the new royal yacht, England brings forward again the old story of having saved us from a European combination, and significantly adds that new and startling developments may be expected from high diplomatic sources confirmatory of the claim. This may be taken as an indication that England, seeing the growing friendship of the German war lord, proposes to interfere in the interest of what she doubtless considers her first claim upon our attention on account of kinship, social fellowship and mutual interests.

In the meantime, it is interesting to the unaffected and simple-minded American to find himself thus the center of so much concern.

### The French Republic.

The opening of the ministerial electoral campaign in France has proved an unqualified success. The ministers have been received with that vivacious enthusiasm of which Frenchmen are past masters. Not since the foundation of the republic, 30 years ago, has a French ministry had such an uninterrupted lease of life, or one which faced more serious internal and external difficulties, and overcome them on the whole more successfully than that now in office. M. Waldeck-Rousseau has proved himself to be one of the foremost statesmen in Europe. A brilliant orator, and a constructive minister of wide liberality, he has kept his cabinet together, suppressed with a firm hand any tendency to revolution, and administered the affairs of state with a liberal recognition of the divergency of opinions among all parties, but with a firm determination to preserve inviolate the fundamental principles of the constitution that was committed to his charge three years ago. He had the moral courage and political wisdom to reopen the Dreyfus scandal, and to face that perennial source of worry to France, the status of the religious orders. He has not conciliated every section of Frenchmen. That would be as impossible as it would perhaps be undesirable. But he has done what one man could to preserve the political equilibrium of his countrymen, to give stability to the government and confidence to the nation, securing peace at home and respect abroad.

The machinations of the royal pretenders are at a discount. They are discredited at home and abroad, a fact which is not likely to awaken many regrets. All who are not afflicted with an incurable pessimism cannot but be impressed with the bright future awaiting our sister republic beyond the Atlantic.

As we understand it, a majority of the Democratic congressmen agree in the belief that if a leader can be found and some principles adopted and a following secured by that time, the national Democracy will have some chance in 1904.

If the present fight in Kentucky against the "Uncle Tom's Cabin" companies had its basis in the manner of performance rather than in sectional prejudice the rest of the country could more easily understand its vigor.

With the excitement over the Panama canal route and the oratory of the Pan-American congress the Pans seem to be cutting quite a wide swath in the news of the day.

Judging from the present excitement over the subject, we imagine the grand stand privileges in connection with Prince Henry's visit will be quite valuable.

The coroner continues to find it necessary to explain that skating on thin ice is only a winter edition of the man who rocks the boat.

From recent disclosures it would seem that the local traction combine holds on to all it gets while the people hold on to the straps.

When it comes to earthquakes, what is the matter with the councilmanic contests in some of the Pittsburgh wards on Saturday?

It is becoming quite a serious question to know what we shall do with our dethroned corn and wheat kings.

### Chances of the Baby Boy.

From the Boston Herald.

The Indianapolis Sentinel has been doing some figuring in averages on the baby boy's chances in life. It says that the chances are 30,000,000 to 1 that he will not become president of the United States or vice president or chief justice of the supreme court. Yet it holds true that any baby may reach either of these places—that is to say, there is a possibility until the phenomena of his development surely count him out. The chances are 410,000 to 1 that he will not be a United States senator, 103,230 to 1 that he will not be a member of the house of representatives and 820,000 to 1 that he will never be governor of a state. All these figures are subject, of course, to certain special circumstances, possible or otherwise. One may presume that an Ohio boy's chance of becoming president is more better than the chance of a Delaware or a Rhode Island boy, if he stays at home. The chances are 588 to 1 that he will not go insane, 1,250 to 1 that he will not be blind, 864 to 1 that he will not be an inmate of a public almshouse, 400 to 1 that he will never be an enlisted soldier or sailor, 1,200 to 1 that he will never be a city policeman and 9,117 to 1 that he will never be president of a national bank.

### The Best Telephone Girls.

From the Electrical World and Engineer.

The American girls of Irish parentage have been found to possess to the highest degree the necessary quickness of perception and action and to prove the statement is cited the fact that a large percentage of the operators in the Chicago exchange, picked out according to the results of examination, are girls of Irish descent. City life has been found to give a girl an advantage in this particular over the country girl, whose wits have not been sharpened by the contact with many people and the exigencies of the urban community.

### Not Bad for a "Slow Town."

From the Philadelphia Inquirer.

The mere announcement that the Pennsylvania railroad intended to tunnel those New York rivers appears to have plunged those New York Central fellows into something so closely resembling a panic that they are likely to do something or other before long. Another proof, we suppose, that Philadelphia is a slow town.

### The Frost and the Orange Crop.

From the Philadelphia Inquirer.

It will be good news to thousands of people that the orange groves of southern Florida have not been injured to any material extent by the exceptionally cold weather which has lately prevailed in that vicinity. It is only quite recently that Florida oranges have been making their reappearance in the northern market.

### No Danger in Good Food.

From the Omaha Bee.

An alleged expert who has been studying the question asserts that American workmen are overfed. In spite of this announcement, the American people will continue to wish the American workman three square meals a day and trust to his intelligence to keep the country in the front rank of the industrial world.

### The Man and the Cause.

From the Philadelphia Record.

Mr. John B. Larkin is making an impressive canvass for the Pittsburgh city controllership and shaking the dry bones of the municipal machine. It is evident that the independent voters made no mistake in selecting him as their champion. The man counts as well as the cause.

### Luck to Sir Lipton.

From the Philadelphia North American.

Sir Thomas Lipton again proves himself a game sportsman by giving an order for the building of a third Shamrock to challenge American yachtsmen for the famous cup. Sir Thomas deserves to win, and for the sake of sport it is not ungatriotic to wish him luck.

## NEW YORK'S NEW MAYOR IS EASY ON THE HOTELS

THE PITTSBURGH GAZETTE BUREAU,
Herald Building, Herald Square,
NEW YORK, Jan. 19.

Now that the new administration has reached its third Sunday we begin to know where we are as to the excise law. It was not a very dry Sunday today. The laws were enforced as they have been always, according to the whim of the police captain of each district. Police captains are only human beings, after all, and they vary in ideas as to the strictness with which laws should be carried out. Some of them are always on the watch for a case of illegal liquor-selling, while others let things go along smoothly, provided there is no special complaint. That is to say, if a Raines law hotel puts the properly sandwiched in plain view and renews it often enough to keep it plausibly fresh there is no disposition to inquire too closely into the Sunday side door trade. The Raines law is so elastic that it can be stretched to mean almost anything, and even in a reform administration the thirsty individual of circumspection can get his Sunday glass of beer, or his nip of whisky, just as he could under Tammany rule. This was a pretty "open" Sunday, without being one to cause reformers much agony of mind. Of course, there are critics who want to know why all saloons are not tightly sealed on Sunday, and they are not backward in assailing Mayor Low and his advisers for their liberal policy. But the mayor and District Attorney Jerome seem to have shaped their own policy, and everyone knows that Jerome would like to see the Raines law repealed and a measure substituted that would keep down the abuse of intoxicating liquor without inflicting a real hardship on the many thousands in this city who believe that the stopping of their Sunday beer is an infringement on their personal liberty. This view probably is little understood in Pittsburgh, where the law against liquor selling has always been strict; but New York is different. This is a very large, cosmopolitan metropolis, and rules that work well in Pittsburgh are impossible in Greater New York.

### Real Estate Comes High.

Oscar Hammerstein's demand for a million dollars for a comparatively small slice of land in West Thirty-fourth street, near Broadway, does not strike the average New Yorker as exorbitant. Oscar got in on the ground floor. Land values all about Herald square, and particularly in West Thirty-fourth street, have sprung up with marvelous rapidity in the last year, and million-dollar plots are becoming the rule when any of this precious real estate gets into the market at all. There is not much of it offered, even at the high figures prevailing.

### Flint as a Chaffeur.

Among the prominent men of affairs in New York who handle automobiles for recreation must be mentioned Charles R. Flint. Pittsburghers all know that Mr. Flint has organized more big combinations of capital and business than any other man in the country. As he once remarked to me: "They are commonly, but improperly, termed trusts." When he is not in his office, or his uptown home, he is usually spinning along the road in an auto about as large as a soap box. He is his own chauffeur, and handles his machine with a dexterity that is the admiration of his friends. Mr. Flint is a hard-working man and never seems tired. He explains this by the fact that his regular hour for retiring is 9 p. m., and that he gets up correspondingly early. This is when social engagements permit, of course, and he keeps out of late dinners and other public functions as much as he can.

### Cats Worth Thousands.

The poultry and pigeon show in Madison Square garden closed last night. It was a great success, say the managers, and judging by the large attendance throughout the week it is obvious that the box office must tell a good story. One of the interesting features of the show was the exhibit of cats. That the domestic cat can be bred to a point where she is worth thousands of dollars is always something of a revelation to that large portion of the community which knows a cat chiefly as a nocturnal target for lumps of coal and other handy missiles.

### Nat Goodwin on View.

Nat Goodwin will tomorrow make his first appearance in America since his return from England, playing in "When We Were Twenty-One." He will open in Williamsburg, which is in a corner of Brooklyn, in Greater New York. Maxine Elliott will play her original part in the comedy. The noticeable change in the performance will be in the first that Henry V. Esmond, the author, has written an entirely new act to take the place of that which shows the supper club. It will be remembered that in Pittsburgh, as well as in New York, objection was made that this scene, by its inherent coarseness, detracted from the wholesome savor of the whole piece. Mr. Goodwin defended the scene for a long time, but he became convinced eventually that it was "out of drawing," and the author has rewritten it in a pleasanter vein, without disturbing the plot.

### Fops in New York, Too.

It was not only in London that young men who pattern themselves in clothes on King Edward were fooled by the report that velvets cuffs on frock coats had been made the fashion by royal taste. As has been cabled, tailors in London had received many orders to make coats like that supposed to have been ordered by the king. Then the dreadful discovery was made that his majesty had ordered an overcoat, and not a frock coat, as had been supposed. There was a rapid countermanding of orders. Here in New York some of the ultra-fashionable tailors had also received orders to make coats with velvet cuffs for men who pride themselves on having the very newest thing in sartorial ads. The tailors will not say what their customers are, but there were many shrewd guesses made openly in the Waldorf lobby and billiard room last night.

### Actress' Daughter Dies.

Marie Wainwright's youngest daughter, Mrs. Frank P. Sheridan, died yesterday of spinal meningitis. The young woman was married only four months ago, and as an actress was well known by her stage name of Elizabeth Mayhew. Her father was Miss Wainwright's first husband, named Slaughter, who was a wealthy stock broker.

### Patrick on Trial.

The trial of Albert T. Patrick, the lawyer, for the alleged murder of William Marsh Rice, will begin tomorrow morning before Recorder Goff. This is one of several celebrated cases that will come before five courts this term. Assistant District Attorney Osborne will prosecute, and there will be a determined effort to prove the defendant guilty. Patrick was cheerful in the Tombs today, and, although he would not discuss his case, he intimated that he had no fears of the outcome. He and Roland B. Molineux, whose case will come up when that of Patrick is finished, are great friends, and they were laughing and chatting together as usual today in the period allowed them for exercise in the jailyard. The Tombs is a dismal place, but it is remarkable how resigned prisoners become when they have spent a few months behind its walls. Patrick and Molineux both seem to feel sure that they will be free men before the winter is over.

### Bishop Had a Pull.

Bishop Potter "swore off" his personal assessment yesterday. There was a long line of citizens waiting in the office, for the clerks in the tax collector's office are just as slow in New York as in Pittsburgh; but the bishop was taken into a private office and put through quickly without waiting for his turn outside. "Pull" counts, particularly if one be a bishop.

### Carelessness Cost Money.

A warning to careless contractors everywhere was set forth in the supreme court here yesterday. A man named Bart Dunn, a contractor, who was contributing what is known as the "million dollar sewer," allowed his workmen to dump a heap of brick in the middle of Broadway at Kings bridge, a long way up town. Henry Kammerer, driving a delicatessen wagon, ran into the bricks, his wagon was overturned, and he was killed. A jury yesterday decided that Dunn must pay $5,000 to Kammerer's estate. While that is not of much use to Kemmerer personally, it may be a lesson that other contractors will heed.

### Marconi In No Hurry.

Marconi did not get away on the Etruria yesterday as he expected, after all. The inventor is so used to crossing the Atlantic that he thinks nothing of missing a steamer, consoling himself with the knowledge that there are plenty more, and that it does not cost him anything for passage anyway. He found, just as he was getting ready to depart that there were complications in his business in connection with wireless telegraphy that would require his presence in Philadelphia, and he will go there Wednesday. As soon as it was learned that he had not sailed yesterday, some of the smart people that jump to conclusions were sure that the young Italian intended to be married before going to Europe, and he was interviewed on the subject. He denied immediate matrimonial intentions, and said that it was only business in the strictest sense that had caused him to postpone his voyage. He will probably depart at the end of this week or the beginning of next. When he goes he will tarry briefly in England, and then visit Belgium, sailing immediately thereafter for the United States. When he gets back to America he will remain until he finishes his wireless transoceanic plant—always provided that he does not change his mind. He is much in demand, and finds it difficult to make personal plans which may not be changed at any moment by unexpected circumstances.

### More Than an "Alibi."

Tammany's new chieftain, Lewis Nixon, means that it shall be understood that he is actually leader, and not merely "Croker's alibi," as he has been contemptuously styled by some of the old guard. Nixon is a man of force of character, and he is showing it in many ways. He is at Tammany headquarters for several hours every day, and seems to have the whole business of the organization well in control. His most significant utterance yesterday was: "Ninety-eight per cent of Tammany men are all right, but the other 2 per cent have got to go to the rear. I intend to put a stop to the pocket district system, by which leaders pack their general committees with their own friends." From all of which it is gathered that when Mr. Nixon gets fairly into his seat, he will be as hard to dislodge as Croker himself.

### Another Prodigy.

Another youthful violin prodigy is in this city. He is an American this time, although he has been in Europe for three years studying music, and is therefore almost a foreigner now. His name is Florizel Reuter, and he is only 9 years of age. He was born in the west, and showed a talent for music from infancy. His last public appearance in this country before sailing for Europe was at the White House, where he played for President and Mrs. McKinley. Reuter is the youngest student ever awarded a diploma by the Geneve Conservatory of Music. He arrived at this port on the American liner Philadelphia yesterday, an will make a four months' tour of the principal cities of the United States, including Pittsburgh, under the management of Major J. B. Pond. He is engaged to play in London in June, and will return to Europe immediately on the completion of his American tour.

### Horror Has Unnerved Him.

The inquest into the responsibility of the tunnel collision on the New York Central railroad was not finished yesterday, as it was hoped it might be. So the state railroad commissioner will not begin his inquiry until Thursday next, because it will require practically the same witnesses in demand for the inquest. The engineer, Wisker, is out on bail, and is gradually regaining his equanimity, although his horror over the number of deaths he was instrumental in causing will never leave him. Engineers say that his "nerve" is gone, probably forever.

## "WE TOLD YOU SO."

### Steady Improvement of the Sunday Gazette Verifies All Predictions Made for the Paper Last Fall.

The Sunday Gazette can now be said to have established itself as a home paper. Every Sunday sees a renewed demand for it. The reason for this is that The Gazette has kept its promise to give the people a newspaper that is one in every sense of the term.

Yesterday's Sunday issue was a marvel of newspaper work from the first to the last page. The news columns had every item of note that happened in this and other large centers of the country, including special cable news from the centers of civilization in the old world.

The news columns had likewise something that was not to be found in the contemporaries, viz.: an exposure of the abuse of franchise rights as exemplified by the Philadelphia Company, which controls the street railways of this city.

### Sunday Pages Well Filled.

An interesting column in the news pages told of romantic castles along the Rhine, which will be visited by the fortunate school teachers who win The Gazette's European trip.

The Sunday pages proper were filled with the best exclusive stories, novelettes, essays and the like. The magazine section was an excellent piece of art work. An illustrated story of America's winter paradise, Florida, was something interesting and instructive. Another feature of this section was an article on the fisheries of the Pacific ocean, handsomely illustrated.

Alexander Graham Bell, the world-famous inventor, described his early and partially successful experiments with wireless telephony. Other articles, both instructive and fascinating, were contributed by Pierre Loti, Theodor Mommsen, Countess von Krockow and Prof. A. S. Packard. Interesting illustrated articles gave data on coal, coke, gold and oil production.

The fair sex was not forgotten—indeed, special and liberal provision was made for women's varied tastes on pages contributed to by Nina Goodwin, Blanche Craighead, Augusta Prescott, Sophie G. Kerr, Jane D'Arcy, "Priscilla," Kate Greenleaf Locke, Katherine Morton and others.

The color pages were works of art. The humorous features were most enjoyable, more particularly the one designed by Charles Nelan Payne.

Will M. Levington Comfort contributed the second in his series of adventure stories. The Wolfville stories are always things that attract. The Gazette's London correspondent cabled some very good news stories and articles of current interest, notably one on the present position of the British in the South African war.

### Col. McClure's Article.

Col. A. K. McClure's bright article on recollections of Senator T. H. Benton was one that could not but interest. The women's pages, from all reports, are attracting much attention from mothers and daughters.

The military columns of the Sunday paper contain bits of interesting gossip of home and abroad. The Player-ler is a man with a keen eye for all that is artistic in the dramatic world. In his pages honest criticism and judicious reviews are always found. The dramatic pages of The Gazette are second to none in the state. That other world, the literary, is carefully reviewed by George Selbel.

Altogether yesterday's Sunday Gazette was one that had a living interest. The Sunday Gazette special writers always find something to interest. Next Sunday there will be a host of brilliant contributors on subjects of interest.

### Worth Millions.

From the Greenville Advance Argus.

Mr. Flinn is a "regular" now; he will support Gen. Elkin for the nomination and election; in short, he will be "good" hereafter. If he carries the election in February he will be the boss in Allegheny county; he will be a leader in the state and he will be a factor in Mercer county politics owing to his influence in South Sharon. He will be regular in all conventions and elections and for the organization, provided the deal carries in Allegheny county. It is worth millions to be boss of a great city—better than governor or senator. Flinn has always had his price. First, the defeat of M. S. Quay; but he failed in that; second, to be boss of Pittsburgh; that he has obtained temporarily, and if the people ratify the deal at the February election, for some time to come.

### Popularity and the Presidency.

From the St. Louis Globe Democrat.

Admiral Schley is getting ovations wherever he goes, but let him avoid the mistake of supposing that all these demonstrations mean that he has a chance to get the presidency. Byran created more enthusiasm than was ever aroused by any other presidential candidate except Clay, and like Clay, he was beaten overwhelmingly at the polls. The Democrats have been unfortunate in the past forty years in their selections of warriors for candidates. Let those who talk about nominating Schley remember the fate of McClellan and Hancock.

## PERSONALS.

A party of 18 discharged soldiers of the Seventh United States Infantry passed through Pittsburgh on their way to their homes in Reading, Pa., from the Philippines. They, with 26 other residents of Reading, enlisted on the same day, and by a curious coincidence they were all assigned to the same regiment and discharged in Manila at the same time. When they passed through Columbus yesterday they had completed a circle of the globe, as the regiment sailed from New York via the Suez canal, and those men came home via San Francisco. They were 54 days making the voyage out and 20 days coming back. Private Charles Wahl, who acted as spokesman for the party, said: "With the exception of the battalion of the regiment which was sent to Mindanao, our field of operation was almost without exception in the territory where the Tenth Pennsylvania volunteers had so much severe fighting. There has been a big change in that district since the Tenth arrived in Pittsburgh. The people have become more peaceable and are now engaged in tilling their land. Of all the islands Mindanao is the best. The climate is excellent and the rainfall very slight. There is no sickness to speak of among the troops on this island. We are all glad to get home and have had all we want of soldiering in the tropics."

Capt. A. C. Bennett of Lexington, Ky., is a guest at the Henry. During the administration of President Cleveland he held the position of postmaster of Maysville, Ky. "Henry Watterson," he remarked, "is politically one of the strongest men in Kentucky. Although he has not yet announced himself, he will be a candidate for governor, and will be elected if the 'fairy tale' chasers who followed Bryan do not turn him down."

H. Huennekes and Fritz Kloeck of the Rhenish province, Germany, who have been in Pittsburgh for several days, went east last night. Mr. Kloeck is a chemist, and has invented a pressed brick which is made from sand and lime. "I have sold the rights for Western Pennsylvania, Ohio and West Virginia," he said, "to A. G. Roenick, who will form a company to manufacture the bricks in Pittsburgh. A plant will be erected where these bricks can be turned out in large quantities."

Alexander C. Cochran, general counsel for the Missouri Pacific railroad, passed through the city from St. Louis to Washington, D. C. Mr. Cochran was formerly a resident of this city and represented it in congress.

The annual meeting of the Duquesne Kennel club will be held during the week. At this meeting arrangements for the fourth annual bench show will be made. Secretary F. S. Stedman says that the entries for the show promise to exceed those of former years.

J. M. Richards of Ft. Scott, Kan., was a passenger east. "Kansas," said Mr. Richards, "is prosperous. The farmers have paid off their mortgages and their barns are filled with good wheat."

"Ex-Gov. W. J. Bryan," said Col. William Phelps of Carthage, Mo., at Dalton station, "will be elected the next senator from Missouri. By the way, he is no relation to the present governor of Pennsylvania."

Thomas Rodd, chief engineer of the Pennsylvania lines west, went to Chicago in his special car last night.

"The sugar trust wants to get the duty off sugar so that it can cripple the sugar beet industry," remarked H. W. Henderson of Grand Rapids, Mich., on the Pennsylvania limited last night. "It has taken the sugar trust a long time to find out that sugar needed no protective duty. Michigan is manufacturing more beet sugar than the state can consume."

Sir Henry Irving and Miss Ellen Terry of London, England, are guests at the Hotel Lincoln.

### Neighbors Visiting Pittsburgh.

The following residents of nearby towns were registered at the principal hotels last night:

Victoria—K. Bond, A. W. Dupen, Wheeling, W. Va.; B. Sheridan, Oil City, Pa.

Seventh Avenue—John K. Henry, Erie, O.; H. P. Anderson, George W. Clark, Elwood City, Pa.; J. W. Maxwell, Wilmerding, Pa.; A. L. Jones, Martinsburg, W. Va.; J. L. Whalen, Ellwood City, Pa.; David Jones, Washington, Pa.; R. Edwards, Johnstown, Pa.; C. F. Thayer, Erie, Pa.

Griswold—E. W. Stewart, Steubenville, O.; J. M. Walsh, Canton, O.; E. H. Semmons, McDonald, Pa.

Duquesne—H. G. Chamberlain, Marietta, O.; S. S. Hemer, Titusville, Pa.

Henry—W. E. Craighill, Wheeling, W. Va.; A. F. Moses, W. D. Rider, Jr., Cambridge Springs, Pa.; A. W. Fowler, Uniontown, Pa.; A. H. Dewey, Meadville, Pa.; W. C. Bodewell, Pittsburg, O.

Newell's—C. E. Jones, New Castle, Pa.; J. L. Henry, Bunkerhill, W. Va.; M. S. Ichenwood, Marietta, O.

### A Contest Welcomed.

From the Crawford Journal.

The activity of such candidates as Messrs. Sibley, Olmsted, Connell and Watson indicates that there may be a warm and spirited contest this year. We shall be very glad indeed if the results shall be the placing on the ticket of a candidate from northwestern Pennsylvania. That ought to be the matter of the first importance in this part of the state. We have long been lovers of wood and drawers of water. We ought to unite for our own interest. If we can get the governorship, well and good, let our banner fly. If we cannot have that, let us have the next best thing. Let us support governorship. We can do it if we stand together and work together.

### Peace It Up to Sibley.

From the Venango Citizen Press.

The Philadelphia Press of last Friday contained a quarter-page write-up, with a splendid likeness of Gen. W. A. Sibley for governor, saying "Quay may take him up." His friendship with Quay and other warring leaders being cited as a strong reason. But, as Gen. Miller has said he would not accept the nomination, the same reasons that would have good in his case would do so in that of his partner, Joseph C. Sibley, who appears to be the logical Republican candidate, with Kline left out.

### EYE-OPENERS.

"I thought she was going to marry Tom?"

"No, Jack."

"Why, she told me Tom was willing to die for her and more."

"Yes, but Jack offered to make a good living for her."—Philadelphia Press.

Officer—Is your brother, who was so deaf, any better?

# CALL THE BILL A BLOW AT THE SILVER MINERS

## Democratic Congressmen to Protest Against a New Financial Measure.

## MINORITY REPORT READY

**Claim Is Made That the Exchange of Gold for Legal Tender Silver Dollars Would Seriously Embarrass the Treasury Department.**

[BY ASSOCIATED PRESS TO THE GAZETTE.]

WASHINGTON, D. C., Jan. 19.—The Democratic members of the house committee on coinage, weights and measures have agreed upon a minority report on the bill directing the secretary of the treasury "to exchange gold for legal-tender silver dollars," and the report will be presented to the house tomorrow by Mr. Shafroth.

The report takes the position that the passage of the bill is certain to produce financial disturbances. The following general proposition is laid down: "Our government has never conceded the right to the holder of silver dollars to demand from the treasury gold therefor, nor to the holder of gold to demand silver dollars therefor. Such demands always have been refused at the treasury. It is the notes and bonds of the government that are payable in either gold or silver at the option of the holder."

**Reasons for Non-Enactment.**

The following reasons why such a measure should not be enacted are given: "First, it will require a large increase of the gold reserve of the treasury as if the obligations upon a reserve are increased the reserve should be correspondingly enlarged. If it requires $150,000,000 of gold to act as a reserve for the redemption of $346,000,000 of the United States notes called greenbacks, and $40,283,086 of treasury notes issued under the Sherman act, will it not take at least $300,000,000 in gold, says the report, to act as a reserve when the $530,732,617 of silver dollars and silver certificates are made a direct charge upon that reserve?

**New Endless Chain Created.**

"Second, it will create a new endless chain upon the gold reserve of the treasury and thereby plunge the government deeper into the banking business. If the endless chain upon the treasury caused by the redemption and reissue of greenbacks is a continual drain upon the gold reserve and a severe strain upon the government, how much more of a drain and strain will the $530,000,000 of new obligations upon that reserve impose?

"The government now has the power to call an absolute halt to a raid upon its gold reserve by impounding the greenbacks and treasury notes, but if silver is made redeemable in gold, it cannot do so until it impounds also the $530,000,000 of silver dollars and silver certificates.

**Would Cause Run on Treasury.**

"When there is a run on the treasury for gold, it is the salvation of commerce and the reserve to have in circulation a currency which imposes no further demand on that metal. The bill will plunge the government deeper into the banking business.

"Third, it will facilitate the exportation of gold. As the $336,000,000 of our currency redeemable in gold is scattered all over the country it is difficult for large exporters of gold to collect sufficient of that currency to present for redemption. But if silver certificates which form the great bulk of the currency that circulates can be presented for payment in gold then it becomes an easy matter to compel the government to furnish all the gold for exportation.

**Silver Would Be Retired.**

"Fourth, it will cause the retirement of the silver dollars and produce either violet contraction of the currency or the substitution of printed promises to pay. It will convert assets into liabilities, dollars into debts.

"Fifth, other things remaining as they are, such a measure would cause a fall in prices of all commodities and other property, and falling prices produce bankruptcy and panics.

"No nation on the face of the globe requires its exchequer to exchange gold for silver. This is a new policy in the treatment of the precious metals. Why should this, the greatest silver producing nation in the world be the first to strike a blow at one of its greatest industries."

## WORK FOR THE SENATE.

**Senator Lodge Will Make an Effort to Secure Immediate Action on Philippine Bill.**

WASHINGTON, D. C., Jan. 19.—The Philippine question will be precipitated in the senate tomorrow when the committee on the Philippines, which has had the house Philippine tariff bill under consideration, expects to report the measure. The bill with its committee amendments will be sent to the printer, and Senator Lodge, chairman of the committee, will give notice of his intention to call it up on the following day and ask for its continued consideration until finally disposed of.

Many of the senators on the Democratic side are expected to present their views on the Philippine question before final action is secured. Indeed, the prediction is freely made that a vote will not be obtained within a month. Senator Lodge's plan is to hold the measure to the front, to the exclusion of all other business, when the bill is once classified as unfinished business.

Tomorrow Senator Frye probably will report the ship subsidy bill, but he will not attempt to secure consideration for it for the present, and probably not until after the Philippine bill is disposed of. The report of the committee on interoceanic canals is expected later in the week, but may be delayed. The consideration of that question in the senate also will wait on the Philippine bill.

During the week Senator Nelson will make a renewed effort to secure the passage of his bill for the creation of a department of commerce. The opposition to it probably will be continued for the present. If there is an executive session of the senate Monday an effort will be made to have the nomination of Governor Otero of New Mexico confirmed.

## THE WEEK IN THE HOUSE.

**Few Important Bills Are Ready as Yet for the Consideration of the Lower Branch.**

WASHINGTON, D. C., Jan. 19.—The calendar of the house of representatives is still rather meager in important bills, so that there does not promise to be a heavy pressure of business during the coming week. Monday is the regular suspension day, but there are few measures likely to be passed by suspension of the rules.

The urgent deficiency appropriation bill will occupy most of the time during the first few days of the week. It carries a total of $16,700,000, which is rather large for a deficiency measure, and it is expected that two days will be occupied in its consideration. Beyond this there is practically no program for the week, as the bills ready for consideration are not of sufficient importance to secure definite time in advance, except in the case of the Hill bill, for the exchangeability of silver and gold. It will be some time before opinion is sufficiently matured on this measure to induce the leaders to set a time for consideration.

# SHAFFER DEPLORES STRIFE IN UNIONS

## AMALGAMATED PRESIDENT SAYS FOES ARE WITHIN.

**In Addressing the Workmen at Youngstown the Labor Leader Told Them That There Has Been Too Much Fighting by Association Members.**

[SPECIAL TELEGRAM TO THE GAZETTE.]

YOUNGSTOWN, O., Jan. 19.—"The Amalgamated association went into the last strike with the United States Steel Corporation with $72,000 in the treasury and spent $200,000 in the fight; it will go into the next convention with $100,000 in the treasury," said President Theodore Shaffer of the association in addressing a mass meeting of the members here this afternoon. The Park theater was crowded and the statement is the first made by President Shaffer to the men of this valley since the strike.

"The Amalgamated association didn't lose the strike. The company never claims that it won. Both lost features in the strike which they would not lose again in 1,500 years." Thus he went on to carry out the idea that the settlement of the strike was a compromise, not satisfactory to either side.

**Too Much Internal Strife.**

"Many people," he said, "have criticized me for not being a fighter; there are obstacles which cannot be overcome by fighting. It is the fault of too many unions to fight everything and anything that is in their way. This is what keeps us back. There is no use fighting everything that is in front of us."

He went on to criticize the fault-finding and advised the men to study the Amalgamated association and its aims. The point on which he dwelt in his address was the fact that the manufacturers pay more attention to the improvement in machinery than to the sanitary conditions which surround their men.

He said that he would rather see a six-hour day, with four turns to the day, adopted than to have an increase made in the wages of the men.

**Complimented W. E. Taylor.**

Benjamin I. Davis, business manager of the Amalgamated Journal, said, in addressing the meeting, that the association is in better condition numerically and financially than it was before the strike.

The meeting adopted resolutions on the retirement of W. E. Taylor from the management of the Republic Iron and Steel Company. The resolutions complimented Mr. Taylor as being one of the best friends that the association ever had among the manufacturers and deplored the fact that he had left the Republic company.

## CARD GAME WAS MORE INTERESTING THAN PLAY

**Occupants of Box in a Philadelphia Theater Arouse Gallery Gods in Endeavor to Find Amusement.**

[SPECIAL TELEGRAM TO THE GAZETTE.]

PHILADELPHIA, PA., Jan. 19.—Tiring of the play, three men in evening dress who occupied a balcony box at the South Broad Street theater last evening, turned their backs on the stage and started a game of cards. Although the men drew back into the shadow of the box and passed cards circumspectly to each other, a keen-eyed gallery god soon took in the situation.

"What's trumps?" he shouted, and the rest of the gallery joined in the fun.

"Raise you five!" called a boy in the front row.

"I'll see you. What have you got?" responded another lad half a dozen rows back.

"Three jacks here!" shouted the first speaker.

"They're no good!" yelled the other. "I've got a full house!"

By this time the parquette began to understand what the commotion was about, and the balcony box became a target for the cries of the audience. The men played on, however, and the uproar increased until Mr. Willard and his fellow players in "The Cardinal" found it hard to make themselves heard.

In the middle of the third act the players put the cards away and left the theater. Then the audience began to turn its attention to the play.

## PLAN ADOPTED.

**Brotherhood of Railway Employes Provide for Every Possible Contingency.**

SAN FRANCISCO, Jan. 19.—The convention of the United Brotherhood of Railway Employes which has been in session the past week has adjourned. The most important matters which came before it in its closing hours were the election of officers and the adoption of an insurance plan.

Three features covering every possible contingency were decided upon. The convention provided for the payment of life insurance of its members on the annuity basis and straight life insurance, and also made provisions for the payment of insurance to those who became permanently disabled by accident or old age. Officers were elected to serve two years. Nearly all of them reside west of the Rocky mountains.

The following were among the division vice presidents elected: John Mulligan, New England states; Frank W. Cute, Pennsylvania and Ohio; F. W. Fossaing, New York and New Jersey; Messrs. Jackson and McCormack, Chicago; Charles Donnelly, Indiana and Indianapolis; J. A. Merro, Montreal and Canada.

The brotherhood will hold its next session at Chicago, to which city the general headquarters of the brotherhood soon will be removed.

## COPPER LITIGATION.

**Defendants in Celebrated Case Want Temporary Injunction Dissolved.**

BUTTE, MONT., Jan. 19.—The suit to secure an injunction and the appointment of a receiver of the property and affairs of the Boston & Montana Company in Montana, the plaintiff being John McGinnis and the defendants the Boston & Montana Company and the Amalgamated Company, has come up in Judge Clancey's court upon a motion in behalf of the defendants to set aside the temporary injunction granted November 19, 1901.

In presenting the motion Attorney Evans called attention to the fact that a similar action is pending in the United States court, and that Judge Knowles has made an order enjoining McGinnis from further prosecution of the suit in the district court. The motion was taken under advisement by the court.

## ENGINEER FELL ASLEEP.

**Train Ran by Meeting Place and Serious Wreck Was the Result.**

KANSAS CITY, Jan. 19.—The westbound Missouri Pacific passenger train that left St. Louis at 7 o'clock last evening, collided head-on with an eastbound freight train one mile east of Elsith, Mo., early this morning. Five passengers on the passenger train were injured, but no one was killed.

The wreck proved a costly one for the road. Engineer William Maze, of the freight train, had fallen asleep in his cab and run past Elsah, where he had been ordered to meet the passenger train. The passenger train reached Kansas City late this afternoon.

**Father and Son Killed.**

BRENHAM, TEX., Jan. 19.—Prof. W. C. Cressman and his 15-year-old son were caught on a trestle, one mile north of town this evening, and run down by a passenger train. Both were instantly killed.

# YALE'S GAY WEEK IS ATTRACTING PITTSBURGHERS

## Maids and Matrons Who Will Participate in the Junior Promenade.

## LONG LIST OF FUNCTIONS

**Two Thousand Guests Expected at the Dance to Take Place Tomorrow Evening—Triangle Club of Princeton Rehearsing.**

[SPECIAL TELEGRAM TO THE GAZETTE.]

NEW HAVEN, CONN., Jan. 19.—The week of the junior promenade, the gala social week of the year at Yale, was ushered in this morning by the regular Sunday services in Battell chapel. The Rev. Dr. George Hodges of Harvard delivered the sermon. The galleries of Battell were crowded with dozens of pretty girls and their mothers who have come from all over the United States at the invitation of undergraduates to be present at the Yale's big dance. The first of the prominent guests began to arrive last evening.

Among those in Battell chapel this morning were the following Pittsburghers: Mrs. M. C. Cleave, Miss Mary F. Evans, Miss L. G. Smith, Mrs. H. DuPuy, Mrs. O. D. Thompson, Mrs. E. M. Clarke, Miss Marion Clarke, Miss Jeannette Abbott.

**Pittsburgh Juniors Who Are Hosts.**

Among the members of the junior class who will take part in the festivities of the week are the following Pittsburgh boys: Thomas Marshall, Howe Brown, Harry W. Dupuy, William Frew, Roy A. Hunt, Harvey C. McClintock, Augustus Kountze, Oliver Donald Thompson, Thomas H. Guffey, George B. Morris, Chauncey O'Neil and Louis D. Willard. All of these juniors will have guests here for the "prom."

A number of Pittsburgh boys who are seniors will also entertain guests. Among these are Franklin Abbott, John Sample McKelvey, Jr., and Rodman W. Moorehead.

Tomorrow quite a number more of Pittsburghers are expected. Several prominent guests are already here whose sons will participate in "prom week." Mr. and Mrs. Whitelaw Reid are guests of President Hadley. Governor and Mrs. Murray Crane of Massachusetts and Lieutenant Governor and Mrs. Timothy L. Woodruff arrived today.

**Brilliant Affairs Scheduled.**

Tomorrow there will be a long list of teas and reception at the chapter houses of the various secret societies. Tomorrow evening the annual Glee Club concert will take place and immediately after it the class germans will be held. Tuesday will be crowded full of receptions and teas and the day will round up with the promenade dance in the Second regiment armory, which has for years been the largest and most notable dance of the country. It is said that there will be over 2,000 people in the boxes and on the floor.

PRINCETON, N. J., Jan. 19.—(Special.)—Just as soon as the midyear examinations are over the Triangle club, the dramatic organization of Princeton, will begin rehearsals for "The King of Pomeru," which is the same play as that given last year.

**Will Come to Pittsburgh.**

It has been arranged to give two performances in Pittsburgh at the invitation of the Princeton Alumni Association of Western Pennsylvania. The first performance will be given on the evening of March 7 and the second the following afternoon. The club will also present their farce at Newark and at New York. Insomuch as the faculty have approved of all three of these performances there is no likelihood that they will be called off, as was the Pittsburgh trip last year.

Since the announcement was made that the club would go to Pittsburgh all the Pittsburgh or Western Pennsylvania men have been trying to prove to the selecting committee that they are excellent actors and singers; that they would make beautiful women characters. Some dare not hope to make a part and are practicing violin, drum, cornet or 'cello in hopes of making the orchestra. This is a perfectly natural thing for them to do, inasmuch as free trips to their native town are not to be let pass without a trial to go along. Many of the cast will, in all probability, be Pittsburghers, but some of the striving candidates are sure to get left.

**Voted a Great Success.**

"The King of Pomeru" was presented last year by the club and was voted the biggest success in that line yet achieved at Princeton. There is a fairly good plot in it which will keep the attention.

Debating has taken a fresh hold on the interest here. The Harvard-Princeton debate will be held at Cambridge on March 28. Harvard will submit the question before February 8. The class of 1876 debate will be held on Washington's birthday, as usual. The question is: "Resolved, That congress shall continue to exclude Chinese immigrants." Phillips A. Moore of Newcastle is the sophomore debater. Edwin H. Kellogg of Sewickley received honorable mention in the French medal debate held in Whig hall. This medal was provided by Baron de Coubertin in honor of the late President Carnot. The question debated was: "Resolved, that the office of president of the French republic should be made independent of the legislative power."

## SQUABBLE OVER REWARD.

**Captive at New Orleans Not Yet Identified on That Account.**

NEW ORLEANS, Jan. 19.—The man under arrest at Gretna was not identified today as Kern, the alleged fugitive New York jewelry thief.

Mr. Thebaud and Detective Kelly are satisfied the right man is in jail, but were confronted by a squabble over the reward and decided not to go over the prison across the river until the matter shall be settled. They may confront the man tomorrow.

NEW YORK, Jan. 19.—Capt. Titus tonight received the following telegram from Detective Sergeant John F. Kelley, who went to New Orleans accompanied by Paul G. Thebaud to ascertain if the robber held by the New Orleans police is Edward Kerns who robbed Mr. Thebaud's house of jewels valued at $50,000.

"Sheriff wants reward; won't show man. Have Gov. Odell wire governor of Louisiana to advise Sheriff Marrero as to his duties. Man under arrest is Kern."

## ROBBED OF $8,500.

**Syrian Robbed by Countrymen of Money Belt Which Held All His Wealth.**

KIRKSVILLE, Mo., Jan. 19.—I. Solomon, a Syrian, living at Keokuk, Ia., was held up last night and robbed of a money belt containing $8,500.

Solomon had sold his business at Keokuk and was looking for a location here. Two fellow countrymen have been arrested, charged with the robbery. Solomon says one of them held him while the other cut the belt from his waist. The money has not been recovered.

## PRISCILLA'S PENCIL

Goes wandering into the parks occasionally on these bright days, when only the snow and the bare branches remind one that it is winter, and there many interesting things are to be found. The nurses take the babies to the parks for a daily airing more and more each year, following in this the example of Philadelphia and New York, where at certain hours the public places are fairly given over to the little ones. Sturdy Jack and rosy Mabel toddle along over the snowy ground, growing roses in their cheeks through the frosty air and gaining strength and health in every inch of their sturdy limbs by the run. The other day a pair of this description was taken into the park by a white-aproned nurse, whose long ribands streaming from her cap betokened her foreign origin. A robust boy of 4 years and a tender little girl of 2 were her charges, the girl in one of the willow go-carts which have superseded baby carriages in up-to-date Pittsburgh.

"I want out to yun and yun like Billy," she lisped, as Billy bounced along like a roly-poly ball. "No, no, you must not run, dearie," replied the nurse, "you must stay in the cart and I will wheel you." The boy heard this and stopped his bouncing, considering the go-cart and its wrappings with grave eyes. He looked regretfully at the tempting expanse of pathway before him, then sorrowfully at the cart, and then, going up to his nurse, he said generously: "You let her det out, nursie, and I'll sit in it for a while." "No, dearie, she couldn't," replied the nurse, smiling at him, "her little legs are not strong like yours." The boy looked more gravely at his little sister, then down at his plump-legged trotters, and not to be done out of his generous impulse by a mere physical fact, he said: "Well, then, dive her my legs and I'll take hers for a while."

**For a Precious Picture—**

The round gold and silver lockets of the past few seasons are giving way to enameled and gem-studded receptacles. Some of the prettiest show the name of the wearer wrought in her birthstones, and where the jewel is pretty the effect is attractive. Even the duller stones are capable of nice effects when artistically set. Thus I saw a round locket destined for a Pittsburgh girl, of dull finished gold in which a green enamel garland was placed, and set deep in the enamel was her name in the bloodstones which are indicative of her month. One set with diamonds or turquoise would just fit the fad of the moment.

**A Touch of Cherry—**

Is very popular with the girls now for evening or demi-toilettes. A cherry velvet bow, made in the spreading windmill fashion and tilted ridiculously high on the shoulder, or a knot of many loops of cherry ribbon, give a chic to a frock impossible to realize without due trial. One dark-eyed debutante of the year has fitted out a whole set of these bright adornments, boasting two tiny ones for her slippers, as well as the regulation breast bow and the up-tilted one for her hair.

**Baby's Belongings—**

Are now packed in a basket hamper instead of the erstwhile popular trunk or bureau chiffonier. The air which gets inside these loosely woven hampers is said to make the little garments fresh and sweet to a degree impossible where they are tightly closed in.

## WOMEN ARE OPPRESSED.

**The Rev. S. Edward Young Thinks Many Are Kept from Attending Church Services.**

The Rev. S. Edward Young preached yesterday afternoon in the Bijou theater to the usual large audience that frequents these meetings. His text was: Deuteronomy, 31:12, "Gather the people together, men and women and children and the stranger that is within thy gates, that they may hear, and that they may learn and fear the Lord." He said in part:

"If I guess not wide of the mark, a majority of heaven's diadems will flash from feminine foreheads. Nevertheless, hosts of females dwelling within Greater Pittsburgh seldom step inside a church threshold, some forbidden by their husbands, some tied down to home demands, unless you sisters serve a Sabbath in their places, some ashamed of their unseemly clothes—womanhood abut in to sorrow and slavery, womanhood trampled till it can scarcely weep, womanhood peering pitifully out barred windows of woe."

# Brush Again Writes to Spalding

## BRUSH WRITES ANOTHER LETTER TO SPALDING

### Claims Split in the National League Is Due to His (Spalding's) Action.

### FOE TO REAP BENEFITS

**Major League Is Now a House Divided Against Itself and American Will Be Gainer on Account of the Present Fight.**

[SPECIAL TELEGRAM TO THE GAZETTE.]

INDIANAPOLIS, IND., Jan. 19.—More interest was added to the grave condition of affairs existing in the National league at present by the making public today of a copy of the letter to A. G. Spalding, mailed by John T. Brush, owner of the Cincinnati National league team, on Friday.

In his letter Brush makes the statement that Spalding is responsible for the present split in National league baseball matters, and takes occasion to say something of himself in connection with baseball affairs.

He states he sincerely regrets Mr. Spalding's ill-timed entry to the National and claims that a successful foe, the American league, will reap good advantages.

The letter in substance is as follows:

Indianapolis, Ind., Jan. 17, 1902.
M. A. G. Spalding, Albemarle Hotel, New York City:

Dear Sir—I am in receipt of yours of the 13th inst., and as I have not retreated from the firing line, can reply without apology.

To cut off argument you say you plead guilty to all baseball mistakes made by you previous to the year 1901, and, I quote literally, "except the one colossal, unfortunate and unaccountable blunder that you made in the spring of 1899 when you gave up your baseball individuality and became the servile, Uriah Heep to Mr. Andrew Freedman." And you assert, I quote again, "That the firm of Freedman-Brush formed at that time is the direct cause of the present prostrate condition of the old National league whose reputation and fame I believe you honestly tried to guard until this unfortunate partnership was formed."

**Steps to Recover.**

What steps to take to recover from this perplexing condition of affairs occupied the serious attention of every member of the National league who had given any time, thought or attention to its welfare.

It was during one of my meditative moods that I asked myself the question, "Am I the cause of this indifference on the part of Mr. Freedman? Is it possible that, although my action and influence have unnecessarily aggravated Mr. Freedman to the point of indifference; was it possible that the responsibility for the apparent disruption of the league rested upon my shoulders?" and while I could not consent to charge myself with the responsibility, perhaps some of my associates might do so if the matter was placed before them.

I first went to Mr. Robison and said to him that if I was responsible my desire was to go direct to Mr. Freedman and undertake, in the interest of harmony in the organization, to effect a reconciliation. Mr. Robison, after hearing my statement, approved of my purpose and declared it would be in the interests of baseball if I adjusted my differences with Mr. Freedman.

We turned our backs upon the past and agreed to work for elevation and reform in the future and I have never experienced any regret at our meeting that night.

**Had Trust Existed.**

Had such an organization existed in the past New York could not, had it been so disposed, have blocked legislation, St. Louis could not last summer have blocked a measure which was desirable, against the interest of the National league, Philadelphia could not last spring have interfered with plans that were calculated to build up instead of destroying the supremacy of the organization.

I insist, and the records will show, that the thoughts, suggestions and developments of all the months during which they had been under consideration previous to the last annual meeting, were never presented to the National league, nor discussed. A vast amount of discussion did take place, however, regarding the trust which you attempted to form, but the records will not show any trust scheme of mine nor anything that can be construed into one.

**Asks Fair Play.**

I did not admit in my letter of January 8 that you were president of the National league for 66 hours. I said you occupied the presidential office 66 hours. Please be more particular in quoting me and next time you publish one of my letters marked confidential, which you did when you gave to the press one of mine of July 8, I submit that you should publish it in full and not garble it as you did that one. You ask me to play fair. I therefore submit that you should do the same thing.

With regard to the platform of which you speak, I have nothing for it except praise and commendation. It reads so much like something I had prepared for the last meeting that it might seem to an outsider that we had borrowed from each other.

**Suit for Property Rights.**

You are mistaken when you say that the Freedman Four instituted a suit for the sole purpose of deceiving the public. The Freedman Four did not do it for any such purpose. It did it for the purpose of protecting its property rights against what it considered was usurpation of office records and league funds. The fact that the court intervened and prevented it and that you did not contest it proves this.

I am going to take advantage of this occasion to say a word regarding myself and my connection with baseball. I have never yet advocated a measure or stood for any policy that I did not consult with my associates with whom I was in unison before submitting it to the league. I have often waited until I could present the matter in writing in an intelligent and a verbal manner. I have never become interested in any matter pertaining to baseball unless I thought it was of sufficient benefit to the sport to incorporate it in its laws and every effort that I have made for a legislative way has been with the view of incorporating the legislation if it could be adopted among our statutes. And so to that extent I have stood to carry the responsibility of my acts when subjected to the baseball public for approval or criticism.

**Illness Kept Him Away.**

Had I not fallen ill during the latter part of September I should have come to you and to Mr. Hart and to the Brooklyn people and to the Philadelphia people and to the Pittsburgh people with a matured plan for reorganization, and submitted it all to each of you for consideration, thought and discussion. But with six weeks of illness and four weeks of convalescence, forbidden by my physician to engage in any mental or physical effort, what I had contemplated doing was sidetracked and taken in an unfinished condition to the National league meeting to be dissected, rejected or approved in whole or in part as my associates might determine after debate.

I regret your ill-timed entree to the league and I deplore the interference in its deliberations in your behalf. The net results are a house divided against itself and a successful foe waiting to reap the advantages that follow. Very truly yours, JOHN T. BRUSH.

**To Fight at Brownstown.**

JOHNSTOWN, PA., Jan. 19.—(Special.)—Charles Knox of Altoona and Walter Burge of Johnstown will meet in a 15-round fight at Brownstown Monday night for $500 a side. Young Frenkie of Windber and an unknown of Johnstown will box a five-round preliminary bout.

## CAMERON CHOSEN NEW HEAD COACH

### FAMOUS STROKE TO HAVE CHARGE OF YALE'S 'VARSITY CREW.

**Has Accepted the Position and His Selection Meets With General Satisfaction on Part of the Students—Old Stroke Will Again Be Used.**

[SPECIAL TELEGRAM TO THE GAZETTE.]

NEW HAVEN, CONN., Jan. 19.—Philip Kunzig, captain of the Yale 'varsity eight, this evening officially announced the appointment of Alexander Cameron, Jr., of Brooklyn, N. Y., to be head coach of the 'varsity eight for the coming season, and he has accepted the position.

Cameron was stroke of the 1900 and 1901 'varsity eights. He rowed a brilliant race at New London last June, which by many critics has been pronounced the best work that has been done by a stroke oar of an American crew in years.

Cameron prepared for Yale at St. Paul's school, Concord, N. H., where he obtained his first knowledge of boating.

He was stroke of his freshman crew at Yale and in his sophomore year was a substitute on the 'varsity.

His selection meets with general satisfaction. Yale men are satisfied that Cameron will have to shoulder a tremendous responsibility.

Three years Dr. Gallaudet and F. W. Allen inaugurated the Yale stroke. Allen was captain of the crew for two years and last year was head coach. While this stroke has proved successful under the teaching of the men who devised it, it will not be an easy matter for Cameron to take up this work and carry it on.

Four men of the last year's crew graduated last June: Cameron, stroke; Blagden, No. 7; Mitchell, No. 3, and Waterman, bow. Four members are still in college: Capt. Phil Kunzig, No. 6; Johnson, No. 5; Bogue, No. 4, and Hooker, No. 2. Sargent, Laws and Lincoln, substitutes last year, are also available. The winning freshmen eight of last season are also available, and all are good oarsmen.

## FITZ AND JEFF ARE DODGING EACH OTHER

### Had a Splendid Opportunity of Meeting at Maher-Sharkey Affair, But Neither Desired It.

[SPECIAL TELEGRAM TO THE GAZETTE.]

NEW YORK, Jan. 19.—It would appear from the evidence at hand that Jim Jeffries and Bob Fitzsimmons, in the matter of arranging a match for the championship of the world, are dodging one another. Both have repeatedly made statements of their willingness to come together and at the same time appear to carefully avoid one another.

In view of Fitzsimmons' recent declaration that he was willing to fight Jeffries, winner take all, it was thought the champion and ex-champion would speedily come together and arrange a match. A splendid opportunity presented itself Friday night in Philadelphia that Jeff and Fitz could have taken advantage of if they are really in earnest in their expressed desire to fight.

Both were present at the Sharkey-Maher fiasco, and they were called on by the spectators for a speech. Instead of either one or the other taking advantage of the occasion and declaring himself, both remained modestly in the background. This in spite of the fact that Jeffries had the day before delivered himself as follows:

"I never was in better condition in my life, and I am only too eager to meet Fitz or any one else. This is all that I can dethrone me. You may emphasize the statement as much as you like that Fitzsimmons is simply getting rid of some hot air and is in quest of cheap advertising. He has probably been listening to Martin Julian. The pair are a great team."

In Philadelphia yesterday Fitzsimmons said: "I have seen neither Jeffries nor Delaney. I have said all I have to say. I'll say about a match with Jeffries. If they want me they can come to me."

Billy Delaney went west last night, and will be followed by Jeffries next week. Before leaving Delaney deputized Jim Kennedy to see Fitzsimmons and ascertain whether there is any chance of making a match. As Kennedy represents the Yosemite Athletic club of San Francisco, where heavyweight bouts can be pulled off, he is about the man that can bring Fitz and Jeff together.

To many disinterested observers it appears that one is afraid and the other "dassent," and that there is small chance of a match. Each having had a taste of the other's punching will, aside from sports reason, neither is anxious to fight, while at the same time willing to get all the advertising out of the situation.

## CHICAGO BOWLERS.

### Leave for Buffalo to Take Part in National Bowling Tournament. Pasdeloup for President.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

CHICAGO, Jan. 19.—Two carloads of Chicago's best bowlers left tonight for Buffalo, where they will take part in the national bowling tournament.

In the party was Frank Pasdeloup, a local man who will oppose Charles H. Ebbets, Brooklyn's baseball magnate, in a race for the presidency of the American Bowling congress.

The Chicago bowlers and their out-of town friends declare that they will have a majority of the delegates with them and will be able to elect Pasdeloup.

## FAMOUS FIGHTER DEAD.

### Jack Lyman Who Once Fought George Dixon, Expired in New York Hospital.

NEW YORK, Jan. 19.—(Special.)—Jack Lyman, who a decade ago was well known to the followers of the prize ring, died yesterday morning at the New York hospital from cerebral hemorrhages. Lyman was stricken at the corner of Broadway and Thirty-fourth street on Friday and fell to the sidewalk unconscious. In his day Lyman was looked upon as one of the cleverest featherweights in the business. Besides being a hard hitter Lyman was an excellent general, and during his career in the roped arena won many fights. Lyman was about 34 years old, but up to the time of his death he always possessed a youthful appearance. He started out in life as a carpenter, but soon gave it up for boxing.

Lyman's most important battle was with George Dixon. He fought the ex-champion when the latter was just blossoming as a pugilist. The bout took place at Boston on January 2, 1888. Lyman, who had met both George Wright and Eugene Hornbacker, was thought to have an excellent chance against Dixon, and his backers lost a pile of money when Dixon knocked him out. The contest lasted five rounds, but it was a vicious one, and both men were badly punished. Lyman endeavored to induce Dixon to tackle him again, but the pair could not come to terms.

## GOOD GAME PROMISED.

### Homestead and Manchester Jrs. to Play Basketball Tonight.

A warm engagement in basketball may be witnessed tonight at Manchester Turner hall when the Manchester Juniors and Homestead L. A. C. Juniors meet in a championship Junior league contest. Both teams are equally confident of victory and a fast and interesting game should result.

The line-up of the Homestead five is considerably stronger than the one which Manchester bested several weeks ago at Homestead. The Homestead team has also been playing quite frequently of late and are in first-class condition, while the Manchester boys have played but two games in the last two weeks and are somewhat in need of practice. The line-up will be as follows:

| Homestead L. A. C. Jr. | | Manchester Jr. |
|---|---|---|
| Halsen | F. | Skillinger |
| Hannett | F. | Koch |
| Murray | C. | Walker |
| Kline | G. | Graham |
| Bowers | G. | Furry |

Referee—Little and Mackrell.

## PASSING OF THE COLORED RIDERS FROM THE TURF

### Winkfield and Blake Are the Only Dusky Jockeys of Promise.

### LACK OF OPPORTUNITIES

**There Is Apparently No Prejudice Against Afro-American Lads, But Their Praise Has Been Too Great and Their Conceit Disgusts Owners.**

[SPECIAL TELEGRAM TO THE GAZETTE.]

CHICAGO, Jan. 19.—Hugh Keogh, the Chicago turf critic, in his weekly letter from New Orleans, is author of the following anent the passing of the colored jockey:

The most thrilling, if not the most important, contest that has taken place at the fair grounds since the present season opened was that between Alard and Tayon on Saturday. It was not only a duel between horses closely matched at the weights, but between two jockeys of rare determination and fine skill. These two jockeys were negroes, and when one comes to think of it they form in themselves the last remnant of the once formidable battalion of colored riders. Sims, Perkins, Hamilton, Clayton, Clay, Ray and others—not going back to the king of them all, Isaac Murphy—have passed, and now Winkfield and Blake, who on Saturday fought out the final for the colored championship, as it were, are left.

**Other Colored Riders.**

There are other colored boys riding in races. Between them and Winkfield and Blake there is a seemingly impassable chasm. There are few colored jockeys in process of making. Colored boys are not being given the opportunities that eight or ten years ago were showered upon them. A change has been working for the past half dozen years. The lower ranks, from which race riders eventually come, have been recruited steadily by Caucasians. This cannot be laid at the door of race prejudice. A racing establishment partakes somewhat of the features of a family. The members are thrown closely together. As the two races will not mix in such close quarters the head of the institution must have all one kind or the other. Under these circumstances the gradual exclusion of the negro is inevitable. The mold of Isaac Murphy, Sims, Perkins, Ray, Clayton and Hamilton has been broken. The colored jockey is "out of print." Winkfield and Blake are now "rare editions."

There is no prejudice against the skillful colored jockey. When the lad can ride the color of the skin makes no more difference than the color of the jacket. Material out of which Murphys, Perkinses, Blakes and Winkfields could be made is lying about in abundance, but it cannot be handled conveniently. That is the only thing that stands in the way of the perpetuation of the colored hero of the race track.

**Praise Too Great.**

When the star of the colored jockey was in perihilion a sort of colored aristocracy clustered about it. Garrishly attired "Afro-Americans" posing in the reflected light presumed so far upon the prominence of members of their race that they made themselves obnoxious on northern race courses. To know "Chipp" Ray, "Pike" Barnes, "Tiny" Williams or "Soup" Perkins meant to these "Afro-Americans" the privilege of talking big in prominent places and elbowing white people out of their way. The praise that was bestowed upon the colored jockeys for their skill in the saddle was accepted as a compliment to the entire race and the porter that made up your berth took his share of it and assumed a perkiness that got on your nerves. An army of colored touts a hundred times more persistent and importunate than their white successors followed in the wake of the successful colored jockeys.

The jockeys themselves, or the majority of them, "know their place." They were products of the south and they never forgot their early training. They shed their halos when they doffed their colors, and did not strut about the lawns to pre-empt the good seats in the grand stand or go about the resorts of white men flaunting loud stripes and checks and the fifteenth amendment.

With the passing of the colored jockey his bedizened arrogant followers has been sent to assume a sitting posture in the rear. The racing world may regret the extinguishment of the colored star, but will be consoled in the thought that its satellites incidentally have been snuffed out.

## MOVEMENT TO OUST CUTTS FROM HARVARD

### College Mates Give Him Cold Shoulder and Faculty Desirous of Him Leaving the University.

[SPECIAL TELEGRAM TO THE GAZETTE.]

BOSTON, MASS., Jan. 19.—A movement is on foot at Harvard college to oust Oliver H. Cutts, the famous big tackle, from the university. His lot since the news of his professionalism came out a few days ago has been far from a happy one, as many of his college mates have turned towards him the cold shoulder.

The movement is said to have indirectly the tacit backing of the faculty; or at least a portion of some members of it who do not fancy the stigma attached to the institution by the story made public recently.

It is stated that the recent effort to have Cutts employed by Phillips-Exeter as football coach was instigated by the university authorities who took that method of getting rid of him.

It has just come out that an accidental discovery by a New York attorney was responsible for the recent disclosures regarding Cutts. The attorney in looking over some old check stubs, came across the giant tackle's name. He recalled the contract that awarded them to Professor Hollis. Cutts, when confronted with this evidence, tardily admitted his professionalism.

## SOUND AS A DOLLAR

That is the result of a course of treatment with Scott's Emulsion. We have special reference to persons with weak lungs and sensitive throats.

Scott's Emulsion does some things better than others. This is one of them. It has a peculiar action on the throat and lungs which gives them strength and makes them tough.

That's how Scott's Emulsion drives out coughs, colds and bronchitis. It keeps them out, too.

We'll send you a Bile to try, if you like.

## MRS. NATION MAY STAR WITH JOHN L.

### MANAGER WANTS A STRENUOUS TEAM FOR "UNCLE TOM'S CABIN."

**The Ex-Champion Says He Is Willing and Under the Inspiration of the Idea Does Some Unusual Work at Chelsea. Reproved the Gallery.**

[SPECIAL TELEGRAM TO THE GAZETTE.]

BOSTON, MASS., Jan. 19.—Carrie Nation, playing Ophelia to John L. Sullivan's Simon LeGree in his "Uncle Tom's Cabin" company is the combination George H. Downing, manager and owner of the production, is trying to bring about.

"Yes," John L. said, "I would not object to playing in the same company with Mrs. Nation, if she promised to leave her hatchet at home. I fear I would forget myself if she tried to use it on me. She is a disciple of the strenuous life, and should make a good actress. She would have to agree not to smash any saloons en route, for we could not afford to lose valuable time bailing her out so that she could go on when her cue came."

The Chelsea Academy of Music was crowded from pit to dome, and, spurred on by the plaudits of the excited spectators, John L. acted as never actor acted before. With countless delicate touches John L. worked up to the climax where LeGree licks Uncle Tom to within an inch of his life.

And he did it, too! He wound his 10-foot goad around the writhing form of Uncle Tom to such good purpose that the actor playing the part screamed in agony and finally fell fainting to the stage.

LeGree's death was another masterful impressionism picture. John L. is fat and he was puffing from previous exertions when the time came for him to give up the ghost. He fell to the stage all right, but his breath came shorter and shorter.

Some youngster up in the gallery laughed joyously at the spectacle. John L. calmly raised himself on one elbow and shot at them a cold and reproving glance, and the death proceeded in proper fashion.

WILMINGTON, N. C., Jan. 19.—The local chapter Daughters of the Confederacy have adopted resolutions indorsing the action of the Lexington (Ky.) organization in protesting against the production of "Uncle Tom's Cabin."

## MAY BE REOPENED.

### Fear That the Pan-American Congress May Again Discuss the Arbitration Question.

MEXICO CITY, Jan. 19.—Though the arbitration question in the Pan-American conference is supposed to have been disposed of, there is some prospect of its being again agitated. However, a strong effort will be made by the more conservative delegates to prevent anything of the kind. If the conference is to finish its work before the end of the month, in handling the remaining reports it must eschew reports made for purely oratorical effect.

There are some reports which the conference will be compelled either to abandon or refer to special bodies. Among these is the report on patents and trademarks on which the decision is set for tomorrow. It probably will be recommended to refer this subject to the committee of five jurists who are to be appointed at Washington to codify the principles of public and private international law.

It is probable that the conference will reconsider its decision in regard to the committee of jurists and recommend the appointment of two European members on the committee, both for the sake of the assistance they will be able to give from a scientific point of view and also in the hope that the work thus initiated by the conference of American states in Mexico may prove a basis for the codification of the laws of nations in general.

A committee matter that has aroused general interest is the report of General Jefer Reyes of Colombia on the means of fluvial communication in South America. If the contention of General Reyes is correct to the effect that only a comparatively few miles of canal digging is necessary to connect the Amazon system of rivers with the Platte system, a rich and virgin country could be opened.

## KING'S SON WENT SPORTING.

### Borrowed $30,000, Spent the Money, and Now Says That Papa Will Pay the Bill.

WASHINGTON, D. C., Jan. 19.—Prince Euiwa, the second son of the king of Korea, against whom a suit has been filed by Wolf Bros. & Co. of New York and Philadelphia to recover $30,000 claimed to be due on a promissory note, tonight, through an interpreter, said no defense would be put in.

He said the money had been borrowed and spent. The interpreter said the king had been informed of the matter and no doubt would send the money to pay the debt.

## COACH HAS BEEN SECURED.

### Wash-Jeff Baseball Candidates Will Probably Be Instructed By Pittsburgh League Player.

WASHINGTON, PA., Jan. 19.—(Special.)—Arrangements have been made by Dr. L. E. Kirchner of the W. & J. physical department for a series of post season games of basketball, between an all-college team and a team consisting of town men, principally graduates of the college.

Manager Stevenson of the W. & J. baseball team announced yesterday that he had secured a coach for the team next spring, and it is understood a member of the Pittsburgh team will give the candidates instruction. Charles Nesbit, an ex-pitcher, will assist. A ruling made by the athletic committee last week will tend to weaken 'varsity athletic teams in the future. The ruling was that no student of the preparatory school will be allowed hereafter to become members of any 'varsity athletic team.

## ONE GAVE TO LAWYERS—THE OTHER TO POOR

### Two Contestants Have Arisen to Claim the Hume Millions.

### WANDERER AND HEIRESS

**A Connecticut Recluse Prevents Future Strife by Giving Nearly All of His Wealth in Unknown Charity Before Death Overtook Him.**

[SPECIAL TELEGRAM TO THE GAZETTE.]
(Copyrighted, 1902, by the New York Herald Co.)

BOSTON, Jan. 19.—Walter H. Rounds, a Boston youth 26 years of age, disputes the claim of "millionairess Norma Leslie Munro to the great Hume estate of $200,000,000. Mr. Rounds claims that he, and not Miss Munro, is entitled to a goodly share of the hundreds of millions. Miss Munro is already on the way to prove her title to the vast millions.

The estate lies in the county of Dumfries, Solway Firth, Scotland, and is awaiting claimants. Miss Munro is already the possessor of several millions left her by her father, Norman L. Munro, the publisher. Young Rounds is practically without means, but with an abounding faith in the justice of his cause. Norman L. Munro claimed to be grand-nephew of the late Lord Hume, who died intestate. Miss Munro, therefore, carries on the work that her father began. With the estate goes the title of Lord and Lady Dumfries, an old, honorable title, so if Miss Munro succeeds she will be known as Lady Dumfries. To further aid the case she took a law course in the New York law school with Miss Helen M. Gould and is a full-fledged member of the New York bar.

**Youth Is a Wanderer.**

The boy claimant has been a wanderer, a soldier of fortune. He is the son of Elias Rounds, who was a son of Miranda Hume, a daughter of the nephew of George Hume who came to America after a quarrel with his family a century ago and settled in Virginia. Thirty years ago they began an action to recover the estate. The action lapsed, but it has been again brought into the courts.

WATERBURY, CONN., Jan. 19.—Instead of leaving a fortune, it is now known that Dr. Elmore Horton, the aged hermit physician of Bristol, was not possessed of more than a few thousand dollars at the time of his death, three weeks ago. He had calculated to the month almost the date of his death, and in the meantime distributed everything he had to various institutions, with the exception of $1,000, now in a Bristol Savings bank, and a tract of land of about 18 acres near this town.

**Romance Years Ago.**

There was a romance in the life of the venerable physician which began many years ago. The woman to whom he was engaged to be married jilted him almost on his wedding day, afterward marrying a prominent lawyer. At the time, Dr. Horton was known as a man fond of good living, society and sports. After that his nature changed. He still continued to practice in his native town, but outside of business he was practically a recluse, living alone, never participating in any festivities and living the life of an ascetic.

As the years went by his practice made him a wealthy man, and soon it was observed that almost every charitable institution in Bristol and the surrounding country was benefiting by his prosperity. His gifts, however, were not confined to them. Struggling men and women and needy old persons, felt in some substantial way the effects of his quiet, unostentatious kindness. The vast majority of his gifts were unasked to pay him. From that it was argued that he had made successful speculations or had inherited great wealth, but to all the hints for information he refused to answer.

Just three weeks before his death it is positively known that he had more than $10,000 in the banks of Bristol. Less than a week before nearly $8,000 of it was withdrawn in money and went no one knows whither. While there is much surprise over the development of his gifts there is no one to criticise the dead. So far as known he left none but distant relatives.

## NO TRUCE DECLARED.

### Ban Johnson Says That His Conference With A. G. Spalding Was Purely Personal.

CHICAGO, Jan. 19.—Ban Johnson of the American Baseball league, stated today that no truce in the baseball war was declared at his recent conference with A. G. Spalding.

"I met Mr. Spalding," said President Johnson, "simply as a matter of courtesy to him. It was nothing more than an exchange of our personal views. Mr. Spalding represented no baseball organization and, in consequence, I could not treat with him at all in my official capacity.

"The American league cannot treat with any 'four club' league. It has always contended that the public wants but one big league, however, and as soon as the National league settles its differences and comes to us as a united body we will be able to work with them for peace in baseball.

"I do not know that this proposed conference at Buffalo for the consideration of the playing rules will ever be held. I am now writing to get the opinion of the American league club owners on the proposition. This meeting, however, if it should take place, would not signify any combination or alliance with any faction. The Freedman faction of the National league, or Hickey of the American association, would be just as welcome to that conference as the representatives of Spalding or Powers. The public wants uniform rules for the government of the game, and that would be the sole aim of such a conference."

## EBBETTS A FAVORITE.

### Popular Brooklyn Man May Be Chosen President of the Bowlers' Organization.

BUFFALO, Jan. 19.—The headquarters of the Western New York Athletic association presented an animated scene today. Bowlers from all parts of the country arrived in large numbers and booms for the various officers and for the honor of entertaining the American bowling contest in 1903 were launched.

The New York and Brooklyn delegation arrived at midnight. Charles H. Ebbetts of Brooklyn appeared to be the choice of the eastern bowlers for the presidency, while the western delegates are a unit for Frank L. Pasdeloup. Caucuses will be held tomorrow and those two delegates will probably be placed in nomination. Rochester and Buffalo clubs will start bowling in the tournament tomorrow evening at 6:45 with five-men teams.

## LOW IS ADVISED TO ENFORCE LAWS

### PARKHURST FINDS FAULT WITH GOTHAM'S NEW MAYOR.

**Says There Is Little Choice Between the Methods of the Present Administration and Those of Tammany Hall. Low Declines to Reply.**

[BY ASSOCIATED PRESS TO THE GAZETTE.]

NEW YORK, Jan. 19.—The Rev. Dr. Charles H. Parkhurst today gave out a letter addressed to Mayor Low which had been adopted by the executive committee of the Society for the Prevention of Crime, of which Dr. Parkhurst is president. The opening paragraph reads:

"While the Society for the Prevention of Crime counts itself distinctly an ally of the present municipal administration there are certain principles of action to which we have uniformly adhered and which we deem it incumbent upon ourselves to pursue and to urge even at the risk of excepting to the policy of those whom we would like in all respects to second and support."

**Laws Should Be Enforced.**

"In all our past activity as a society," says the letter, "we have proceeded upon the distinct understanding that law exists for the purpose of being obeyed."

The letter goes on to say that the first two weeks of the present regime have made it "entirely indefinite as to what civic righteousness in this city is and what it is not, and to that extent have operated to put the reform administration in the same criminal attitude toward law as was that occupied by the administrations of '92, '94, '97 and 1901." It deplores the fact that "While chartered by the state to labor for the prevention of crime," the society is not "quite certain any longer what is crime," and says that "the atmosphere is clouded by ambiguity emanating from administrative incertitude," and that "the situation is morally intolerable."

**Compared With Tammany.**

The letter further says that "there is not very much to choose between a Tammany administration that has had principles and a reform administration that has good principles, but is afraid to use them."

The letter, which is signed by Dr. Parkhurst, concludes by demanding of Mayor Low that "you brace your administration into accord with your oath," and that he summon the resources at his command to the work of "frankly and resolutely suppressing open or clandestine violation of recognized statutes."

This action of the society for the prevention of crime is construed as a breach between the reformers and the reform administration. Mayor Low tonight refused to discuss the letter.

## FOUND BABY DEAD.

### Unaccountable Tragedy in a Cincinnati Home While Parents Were Absent.

CINCINNATI, O., Jan. 19.—While Mr. and Mrs. W. R. Whittaker were calling this evening their babe was left with Annie Loge, a domestic. When they returned the nurse was found upstairs in an unconscious condition from asphyxiation. She had turned on the gas and inhaled it from the jet. Later Mr. and Mrs. Whittaker found their dead babe hanging to a gas pipe in the cellar.

The physicians say the woman cannot survive the night. As she is not expected to recover consciousness the story of the double tragedy probably will never be known. Mr. Whittaker is a prominent member of the Cincinnati bar.

Mr. and Mrs. Whittaker left for Camden, about 40 miles from this city, at 9 o'clock this morning to spend the day with the parents of Mrs. Whittaker, and left their 5-year-old son, their only child, with Annie Loge, who had been with the family only a short time. The indications are that the woman had trouble with the little boy and hanged him early in the day and that she inhaled gas just previous to the return of Mr. and Mrs. Whittaker, about 6 o'clock tonight. She was dying at midnight.

## FARMERS' FIERCE FIGHT.

### Contest Over a Right of Way Results in Two Fatalities.

TAYLORSVILLE, KY., Jan. 19.—(Special.)—In a fight near Walkers, six miles from Taylorsville, this afternoon, Thomas Jewell shot and killed Nathan Bruner and his son, John, slightly wounded David Bruner, another son. Jewell says the Bruners, with a man named Price, attacked him and he was forced to shoot in self-defense. Jewell came in and surrendered this afternoon and was released on $500 bond. He will be arrested, however, as the officers at the time he was released did not know the full extent of the trouble.

The men are all farmers and neighbors and the fight grew out of a dispute over a passageway through a farm. It is understood they had trouble on several previous occasions. Little is known of the difficulty aside from the statement made by Jewell when he gave himself up. Officers have gone to his home tonight to rearrest him.

## STOLE BAG OF DIAMONDS.

### Booty Valued at $20,000 Taken From Express Office at Glendive, Montana.

GLENDIVE, MONT., Jan. 19.—Robbers secured between $10,000 and $20,000 worth of unset and set diamonds today by stealing two trunks from the baggage room of the Northern Pacific station and breaking them open. Nothing is missing from the trunks except a bag of unset diamonds and 300 or 400 rings, mounted in gold settings. A tray containing 24 set diamonds was overlooked by the robbers.

The trunks were the property of C. H. Clausen, traveling representative of S. H. Clausen & Co. of Minneapolis. Mr. Clausen arrived from the east last night and left his trunks in charge of the baggage agent. The robbery was an unusually bold one, as four men were in the upper story of the station asleep and the express agent alone in a room adjoining the baggage room. None of them heard the robbers at work. A window of the baggage room was forced open and through it the two trunks, weighing about 250 pounds each, were hoisted out. They were taken only a few feet from the station, where they were broken open and the diamonds taken. They were found early this morning. Local officers have made one arrest upon suspicion.

## SCHLEY BAGS A DEER.

### He Has Returned to Savannah From St. Catherines Island With Much Game.

SAVANNAH, GA., Jan. 19.—Admiral Schley's hunting party returned this afternoon from St. Catherines Island. The party secured a large bag of game. The admiral is credited with having brought down one deer. It was his first deer and a member of the party said the admiral was more excited when he pulled the trigger than off Santiago.

The weather during the hunt was superb. Admiral and Mrs. Schley will leave this city for Washington tomorrow afternoon. The admiral said tonight that he had not authorized the statement sent out from Chicago that he would discuss his case before the Hamilton club of that city. Beyond this he refused to talk.

# LAND OF SCOTT, WORDSWORTH, ROBERT BURNS

## Beautiful Lakes and Mountains That Inspired Great Poetry and Fiction.

## TROSSACHS TO KATRINE

**More New Candidates Who Appreciate the Delights of the Tour. Rules and Regulations That All Voters Must Comply With.**

The land of Scott and Burns appeals to every lover of literature. The tour of the teachers under the guidance of The Pittsburgh Gazette and The Chronicle Telegraph not only crosses Scotland, but touches the edge of the region where Robert Burns lived and sung and goes right through the country made famous by Sir Walter Scott. From the little steamer that plies Loch Katrine the "Silver Strand" and "Ellens Isle" are pointed out en route. The traveler sees Ben Venue and the other

"Mountains that like giants stand
To sentinel enchanted land."

On the road between Loch Katrine and Loch Lomond stands the cottage where the natives tell lived Helen McGregor, Rob Roy's wife. On the shore of Loch Lomond is the little cave known as Rob Roy's prison.

**Every Foot Has Romance.**

Not only is it the land of Scott, but of Smollet, the novelist, and Wordsworth. The falls at Inversnaid is the scene of Wordsworth's "Highland Girl." In fact, the whole region from Stirling is full of romance as it is of beauty. All the way the tourist is amid the scenes of Rob Roy or the "Lady of the Lake." "Duncraggan's huts," the "Brigg of Turk" and Collantogle Ford "Clan-Alpine's outmost guard," where Roderick challenged Fitz James to single combat. The scenes are much the same today as ever—the paths more worn by foreign feet.

The romance of the region, however, does not surpass its natural attractions. By the side of Loch Lomond Ben Lomond rises over 3,000 feet. The Trossachs, toward Stirling, a wild, beautiful gorge; Ben Ledi and the rest go to make up a splendid picture for a day's travel. The lakes themselves, with their wooded islands, are worthy of the pride and admiration every Scotchman lavishes upon them.

**More Appreciative Ones.**

Every day more candidates announce for this delightful tour, and the pity is they cannot all go. Certainly those who are fortunate enough to be elected will have an enjoyable and instructive time. Every possible provision will be made for their comfort. The names of new candidates are given below:

Miss Mada Foltz, McCoy School, Pine township, Mercer county.

Miss Clara E. Boeger, Fourteenth ward school, Allegheny.

Miss Robertine Walker, Ninth ward school, Allegheny.

Miss Eva Hamilton, East ward school, Sharon, Mercer county, is put in the race with a lively town supporting her.

Miss Margaret J. Irown, Greenville schools, Mercer county.

Miss Florence Gettner, Sharpsburg schools, Allegheny county.

Robert N. McFadden, principal Boston schools, Allegheny county.

Miss Anna Bennet, Wellsburg schools, Wellsburg, W. Va.

Miss Stone, Beaver schools, Beaver county.

Mrs. Lizzie B. Bowen, Lincoln school, Pittsburgh. Mrs. Bowen was probably better known by her maiden name, Lizzie Burt, when she taught in the schools of another ward some years ago.

**Other Candidates Announce.**

Miss Lela Sloan, Ruffsdale schools, Westmoreland county.

Miss Jennie Fleming, Fairmont schools, Marion county, W. Va.

Miss Florence Nevans, Bellaire schools, Bellaire, O.

Miss Ollie Patterson, Minersville school, Pittsburgh.

Prof. B. A. Pollock, principal Scott township schools, Allegheny county.

Miss Minnie Holt, Fourth ward schools, Allegheny.

Miss Ida C. Shumaker, Meyersdale schools, Somerset county.

Miss Margaret J. Hester, high school, Duquesne, Allegheny county.

Miss Katharine McElroy, Franklin school, Pittsburgh.

Miss Sylvia Beam, Market street school, Mt. Kemport, Allegheny county.

Prof. G. H. Teegarden of the Edgewood school for the deaf and dumb, nominated by friends, declines to compete against Miss Loishaw of that school.

Some of our friends of the press continue to worry themselves because there are more than one candidate in their several districts. They may as well rest in peace. Two live candidates are likely to poll more than twice as many votes as one. Their friends will take more interest in the voting. Some must fall of election, of course, but even they will have no cause to regret having made the contest. The more the merrier.

**Rules to Be Observed.**

Ballots must be voted in series—those of one series must be deposited before midnight, of the day the succeeding series is voted. They must be filled out legibly, with full name of teacher, school where employed, town and county. They should be kept in good condition and sent in flat, not rolled or crumpled. If torn or mutilated they will not be counted.

The tour will be of more than six weeks' duration. Starts at Pittsburgh July 3; leave New York July 5, by Atlantic transport line steamer; arrives London July 15; Antwerp, July 16; Brussels, July 20; Amsterdam, July 22; Cologne, July 24; Mayence, July 25; Heidelberg, July 26; Lucerne, July 28; The Rigi, July 29; Interlaken, July 30; Berlin, August 1; London, August 6; Highlands, August 8; Glasgow, August 8; leave Glasgow by Anchor Line steamer Columbus, August 9; expect to arrive New York August 17.

**Who Will Be Taken.**

The party will be composed of 25 teachers of the public schools, i. e., persons engaged in teaching in schools supported by public funds. These will be apportioned as follows: Twelve from the cities of Pittsburgh and Allegheny, six from Allegheny county outside of the two cities, and seven from those parts of Pennsylvania, Ohio and West Virginia outside of Allegheny county, but within the territory covered by the daily delivery of The Pittsburgh Gazette and Chronicle Telegraph. They will be elected by the readers of these papers. Those having the largest votes in their respective divisions will be declared elected.

All expenses of the tour will be borne by The Pittsburgh Gazette and Chronicle Telegraph, and these papers will give each member of the party $50 in cash to gratify individual tastes. Representatives of the papers will accompany the party to arrange for them and look after the comfort of the guests.

The contest will close May 31 and the result will be announced as soon after all of the votes are in as possible. Ballots from The Pittsburgh Gazette and Chronicle Telegraph will count one vote each, and those from The Sunday Gazette will count three votes each. The ballot will be found at the top of the second page in each issue, and attention is directed to the terms and conditions printed thereon. The whole ballot, including border, must be sent in.

# RAILROADS PLAN BIG IMPROVEMENTS

**TWO HUNDRED MILLION DOLLARS WILL BE SPENT THIS YEAR.**

**Pennsylvania and Baltimore & Ohio Have Planned Physical Betterments Which Will Cost Enormous Sums. Effects Are Already Being Felt.**

[SPECIAL TELEGRAM TO THE GAZETTE.]

NEW YORK, Jan. 19.—Enormous expenditures aggregating $200,000,000 will be made by the railroads of the United States during the current year, if the plans announced by the several companies are fulfilled. This colossal total does not include the millions usually charged up to operating expenses, but covers the cost of digging tunnels in New York city and elsewhere, improving roadbeds for thousands of miles with ballast, and one million tons of steel rails, new bridges, cars, locomotives, etc. The effect of these plans upon the steel industry has already been felt in a renewal of activity in the mills, insuring a prosperous year alike for manufacturers and men.

By far the largest sum will be spent by the Pennsylvania Railroad Company, which has set aside $27,000,000 for equipment and physical improvements of the system and the initial work on the tunnel and terminal station in this city.

**New York Central Plans.**

The New York Central plans call for an underground loop at the Grand Central station and changes in the construction of the Park avenue tunnel at an estimated cost of more than $40,000,000. This sum, it is expected, will be spent between now and January 1, 1903, in addition to $5,000,000 for betterment of the system between New York and Buffalo.

Following the initiative of the Pennsylvania, the Baltimore & Ohio Railroad Company has added $20,000,000 to its capital for the purpose of reducing the grades of its main line and equipping its branches in Ohio and West Virginia to handle heavy freight. Most of these constituent lines, notably the Pittsburgh & Western, Cleveland, Lorain & Wheeling, and the Ohio River railroad are below the standard of efficiency required to make them profitable adjuncts of the parent system, and it is not unlikely that bonds will be issued to cover the cost of needed improvements. Altogether it is probable that the Baltimore & Ohio will expend $25,000,000 this year in perfecting its machinery.

**Work in Western Territory.**

Announcement is made that the Union Pacific and Southern Pacific companies, which are under joint ownership, plans improvements and extensions during the year to cost approximately $25,000,000. Many natural obstacles must be overcome before these properties are placed on the plane desired by their owners. The Atchison is in much the same position, and not to be outdone by its neighbors, this company has outlined plans for extensions and betterments which will cost $25,000,000.

From $15,000,000 to $20,000,000, it is said, will be expended by the Northern Pacific-Burlington-Great Northern combination in perfecting the physical consolidation of these systems; the Illinois Central outlay will be $18,000,000; the Erie & Lackawanna plan to put $5,000,000 and $2,000,000, respectively, into improvements; the Pittsburgh & Lake Erie promises to build a four-track line for 69 miles at a cost of $5,000,000, and a dozen other important systems have plans on hand which will involve an outlay of about $38,000,000.

Railroad men say that these vast improvements reflect the prosperity of the country. The money spent for improvements, they believe, is a good investment, which will yield handsome returns in traffic.

# SCOTTISH RITE ANNIVERSARY.

**Ohio Masons Will Celebrate It With Imposing Ceremonies at Cincinnati.**

CINCINNATI, Jan. 19.—The Masons of the Scottish Rite are making arrangements here for the celebration, February 18 to 21, of the 50th anniversary or golden jubilee of the order.

The class of candidates numbers more than 200 for the degrees at the Cathedral here next month. Among those who have signified that they will be present are Henry M. Palmer, thirty-third degree, grand master of the northern jurisdiction; James D. Richardson, thirty-second degree, grand master of the southern jurisdiction; deputies from the different states and members of the various supreme councils, including those of Canada and Mexico.

# ARTISTS TO EXHIBIT.

**Men Who Illustrate Newspapers Will Show Their Work in Philadelphia.**

PHILADELPHIA, PA., Jan. 19.—(Special.)—It is expected that from 500 to 1,500 original drawings by newspaper artists will be displayed at the exhibition given by the Newspaper Artists' association at the Hotel Walton during the week beginning March 3.

Possibly three-quarters of the sketches which are already prepared for the exhibition are pen and ink drawings by men who have made their names known all over the country. The list as already prepared, and taking in only those pictures which have been presented for hanging, include a number of valuable water color works which the colored supplements have made necessary.

The catalogue of the exhibition is in process of completion and is expected to be a work of art in itself.

**Good Roads Convention.**

CHARLESTON, S. C., Jan. 19.—Director Martin Dodge of the office of public road inquiries, United States department of agriculture, has issued a circular directing attention to the southern interstate good roads convention to be held in Charleston February 5, 6 and 7 next. The sessions of the convention will be held during the exposition.

# BANDITTI WILL PROVE EXPENSIVE

**BULGARIA AND TURKEY MUST PAY FOR MISIONARY'S CAPTIVITY.**

**Miss Stone Will Soon Be Released and the European Squadron Is Steaming Toward the Eastern Mediterranean to Back What Mr. Leishman Will Say.**

[SPECIAL TELEGRAM TO THE GAZETTE.]

(Copyright, 1902, by New York Herald Co.)

WASHINGTON, D. C., Jan. 19.—In anticipation of the release of Miss Ellen Stone, the state department has been gathering facts which will be the basis of a claim for reparation. The evidence transmitted to the department from the American legation in Constantinople has been most conflicting in character, and, while the data of it establishes Bulgaria's responsibility, it is not at all certain but that Turkey may be compelled to share the blame.

Mr. Spencer Eddy, the secretary of the legation, who up to some days ago was charge d'affaires in Constantinople, is now on his way to Washington. When he arrives he will report to Secretary Hay the facts in his possession in regard to the responsibility of Bulgaria or Turkey for the conditions which enabled the seizure of Miss Stone.

**Squadre Nearing Turkey.**

It is considered somewhat significant that, as the negotiations for Miss Stone's release are nearing a conclusion, the European squadron, under the command of Rear Admiral Cromwell, should be en route to the Levant.

The squadron sailed yesterday for the Piraeus, and it is understood at the navy department will touch at other points, probably calling in Turkish waters.

If any claims be made against Turkey, however, the presence of the squadron will have a strong moral effect. With respect to the collection of an indemnity from Bulgaria great difficulty is anticipated. Diplmatic representations only can be made. Russia aided the United States materially in inducing Bulgaria to refrain from drastic measures against the brigands holding Miss Stone, this government fearing that an attack upon the brigands would be followed by the death of the captive, and it is believed that she will not refuse to apply pressure to forcener compliance with the indemnity demnd of the United States.

**Must Protect Strangers.**

Besides defanding an indemnity, this government will probably strongly point out the necesity of Turkey and Bulgaria taking measues in future which will protect citizens raveling within their territory.

CONSTANTINOPLE, Jan. 19.—Reliable news has been received here that Miss Ellen M Stone, the captive American missionary, Madame Tsilka, her companion, and the latter's baby are well. Negotiations which it is expected will result in the early and safe return of the captives are in progress.

John G. A. Leishman, the American minister here, is now directing the negotiations. He declines to say anything for publication, but admits there is ground for the above report.

# THE THREE RIVERS.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

CINCINNATI, Jan. 19.—River 9.7 feet and falling at 5 p. m. Clear and pleasant. There is still plenty of ice in the river, but it is soft and going to pieces rapidly. The Pomeroy packets will resume their regular turns tomorrow. The S. Roberts and the Lamoor boat Relief raised a barge at the Standard coal elevator at the foot of Harriet street today. They then left for the scene of the wreck made by the Jim Wood at Rising Sun, where an effort will be made to raise this sunk, which composed the barge which was sunk.

LOUISVILLE—River on a stand; canal, 5.7 feet; falls, 3.5 feet; foot of locks, 8.8 feet. Business quiet. Clear and pleasant. Packets on time. Ice set and disappearing rapidly.

EVANSVILLE—River falling, 4.7 feet. Clear and warmer. Sunshine up at noon with good trip.

GREENSBORO—River 7 feet and stationary and closed. Clear and colder.

BROWNSVILLE—River closed. Clear.

WARREN—River 1 foot 2 inches. Fair and cold.

OIL CITY—River 2 feet and stationary. Clear and cool.

STEUBENVILLE—River 4 feet and rising. Clear and cold. The Tornado came down this morning and broke the ice at the island, and then the Queen Sty, which had tied up here last night, went up.

MORGANTOWN—River 7 feet 6 inches and closed. Clear and cool.

POINT PLEASANT—River 4 feet 7 inches and falling. Clear and pleasant. No boats.

GALLIPOLIS—River 7 feet and about stationary. Cloudy and pleasant.

WHEELING—River 4 feet 6 inches and stationary. Very light ice passing. Clear and cool.

PARKERSBURG—River 5.2 feet and falling. Clear and mild tonight. Boats all icebound.

**News of the Rivers.**

The steamer Lee Hite expects to be able to leave today for Morgantown.

Capt. A. P. Trusdale of the J. E. Trudeau died a few days ago on the boat at Plaquemine.

The Harry Brown is receiving a new rudder post at Madison, she will be let off the ways in a couple days.

The towboat J. B. Finley is above Greenville, coming north, and the Raymond Horner is above Wheeling.

The Oakland, which is at Louisville, is making some repairs to her machinery, and is also receiving a new boiler.

The steamer Queen City, which is laid up at Wheeling, will start for Pittsburgh just as soon as there is enough water to let her through.

Dr. W. P. Mede, the surgeon in charge of the Pittsburgh marine hospital station, said today that he is highly in favor of the government establishing a marine hospital in Pittsburgh.

Chips are flying at Howard's, and the new steamer Stacker Lee, as well as the new St. Louis and Tennessee river packet, both on the ways, and the Senator Cordill in the water, are growing stadily.

The City of Pittsburgh is reported to have replaced her colored male waiters with white girls. If the report is correct, it is regarded as an innovatin in the steamboat line. Capt. John K. Philip of Pittsburgh is said to have made the change. He is the captain of the boat.

"Tired to death" is the feeling which frequently precedes a collapse. Don't neglect the warning. Dr. D. Jayne's Tonic Vermifuge will remove the obstructions and pave the way to health.

# BULLS IN CONTROL OF CHICAGO MARKET

**Aided by Favorable Conditions Good Advances Were Made All Around.**

[BY ASSOCIATED PRESS TO THE GAZETTE.]

CHICAGO, ILL., Jan. 18.—Evidence of renewed confidence, as shown by good buying orders, gradually brought the grain markets today under bullish control. Aided by numerous bullish conditions good advances were made all around after a quiet opening and May wheat closed ⅝@⅞c higher, May corn 1⅝@1⅝c higher and May oats 1@1⅛c up. Provisions closed 2½c to 5c higher.

Estimated receipts for Monday: Wheat, 55 cars; corn, 100 cars; oats, 180 cars; hogs, 43,000 head.

REGAN'S RHEUMATISM REMEDY GUARANTEED
to cure any case of rheumatism in 20 days. Recommended by highest authority to be THE ONE REMEDY that never fails. Thousands of testimonials from patients who have used it and were cured can be seen at our offices.
Mr. Floyd E. Wolz, Shippensburg, Cumberland Co., Pa., writes under date of August 9th, 1901: After taking one and a half bottles of Regan's Rheumatism Remedy, I am a well man. I suffered with five of the best doctors in this county and was off my business for six months. I was laid up here long for six months, and got relief, but was taken with rheumatism on my return home. It was a godsend when I started to this city to get a bottle of your medicine. I had given up all hopes of ever getting well. I heartily recommend it to any one suffering from rheumatism.
The Hartford Drug Co., Clinton, Iowa, write under date of January 21, 1899: About six months ago a very reputable clergyman recommended Regan's Rheumatism Remedy to us, as one of his parishioners was a severe sufferer from rheumatism of over three years' duration. After she had used one bottle of the remedy we are pleased to say she was entirely cured, and therefore cheerfully recommend this wonderful remedy to all similarly afflicted and delighted at the unlooked-for success it so richly deserves.
We claim there is no other remedy in the world to equal it.
JAMES T. REGAN & CO., Boone, Iowa.

## SHOWEDBIG GAINS.

**Pittsburgh Bank Exchanges Are Far Ahead of Those for the Same Periods of 1901.**

Pittsburgh bank exchanges for current periods continue to show big gains over those for the same periods last year. Those for yesterday increased about $1,440,000, while those for the week exhibited an increase of $6,700,000 in round numbers. The total for the year to date also shows a gain of about $16,000,000—just $1,000,000 for each working day of the new year. The local money market continues rather mixed, some institutions still offering all they want and others not wanting to loan at all. The rate for call and time loans continue to quote, however, at full per cent.

The detailed clearing house reports are as follows:

| | Exchanges. | Balances. |
|---|---|---|
| Yesterday | $7,197,269 15 | $1,228,827 95 |
| Previous Saturday | 6,626,556 90 | 941,333 40 |
| Last week | 6,788,207 14 | 1,064,894 53 |

Yesterday's increase, $4,478,952 84.

The figures of the clearing house for the week ending yesterday compared with those for the preceding week and the same week last year are as follows:

| | Exchanges. | Balances. |
|---|---|---|
| This week | $44,567,627 27 | $7,161,981 23 |
| Daily average | 7,713,420 41 | 1,360,518 54 |
| Last week | 44,567,589 04 | 6,372,000 44 |
| Daily average | 7,417,931 51 | 1,062,500 07 |
| Year ago | 37,778,805 13 | 6,377,185 62 |
| Daily average | 6,144,056 93 | 1,062,864 25 |

This week's increase, $6,788,183 85.

## IN THE OIL FIELDS.

Field conditions in the lower southwest remain about the same as when the field was last reviewed. In one or two localities there is slight improvement, but the result will be an increase in operations with only a small increase in production. At the present time there are no pools under development that promise a large daily production. Of all the territory that shows any activity in no quarter is there an old or new pool that promises to increase its output to 1,000 or even 500 barrels per well.

The pipe line reports are not greatly at variance with those of last month. The first ten days of the present month show that the shipments of Pennsylvania crude exceeded the runs by an average of nearly 14,000 barrels a day, or a total of 224,000 barrels, and if the same relative position is maintained to the end of the month there will be a run of another half million in stocks. Some Indiana fields are very nearly on even terms, so that it is not probable that the difference between the two will materially reduce the mileage between Pennsylvania runs and shipments. With this view of the situation operators and producers are looking hopefully for an advance in the market, but as the present relative stationary under the favorable conditions as shown by the pipe lines there is little incentive for the wildcatter to put down a well at the risk of energy in an effort to find new pools. West Virginia contains a great amount of territory that has not been condemned by the drill and in many instances pools. However, it is expensive business to find them and the experienced operator is not willing to take the risk. More than half the work in developing a new oil territory is backed by new talent that has rushed into the business regardless of consequences. A good deal of this territory has been leased from the same point of furthering speculative schemes of a stock-jobbing nature.

The producing area of the territory in the vicinity of Shinnston, Harrison county, W. Va., is extending to the west, southwest and south. This development, as shown by recent discoveries in the district named, has not been confined and will furnish room for many wells. Paying wells are found in three sand formations—the 50-foot, Stray and Gordon. The last named is the most regular and furnishes the best production.

During the week another well was completed on the Fahey farm, located northeast of the Gantz sand development on Fish creek, Lewis county. The first well on the farm was completed is midsummer last year and started at about 25 barrels a day. Its locality is several miles to eastward of the Fish pool proper and it was thought to show no connection to the latter. Along this line the South Penn Oil Company began a systematic search to find the connecting link between the two, and drilled in all, a half dozen test wells, but all were failures except the first well and the one just drilled in on the Fahey farm, and it is not good for more than 10 or 15 barrels a day.

South of the Stout district, in Doddridge county, the producing lines have been advanced by the Carter Oil Company drilling in a ten well on the Detterman farm and securing a 20-barrel producer in the Gordon sand.

The big Indian sand development, on the South Fork of Hughes river, Ritchie district, Ritchie county, gave those a jolt who have been backing operations in that field. The Interstate Oil Company drilled in its No. 8 on the G. M. Ireland farm last week and scored a duster. There is considerable new work starting in that district and operations promise to be quite active for some months.

# NEW STORY OF BOOTH'S CRIME BY A WITNESS

## The Last Survivor of Laura Keene's Company Plainly Saw Lincoln's Murder.

## ASSASSIN WAS PREPARED

**Had Even Taken the Trouble Beforehand to Secure the Door of the Box With a Stick in Order to Prevent Pursuit.**

[SPECIAL TELEGRAM TO THE GAZETTE.]

PHILADELPHIA, Pa., Jan. 19.—W. J. Ferguson, who played the servant in the cast of "The Brixton Burglary" at the Auditorium last week, is the only surviving actor in the cast of "Our American Cousin" that was playing in Ford's theater, Washington, the night President Lincoln was assassinated. His account of the tragedy differs in many details from others that have been printed.

Mr. Ferguson said: "I was the call boy in the company. In those days theaters like Ford's played stock companies to traveling stars. It was too expensive to carry entire companies around, as managers do nowadays. The night Lincoln was shot our walking gentleman, as he was called, who was visiting in Philadelphia, missed his train. I was told to take his place in one scene.

**Booth In Plain Sight.**

"At the moment John Wilkes Booth fired his fatal shot Laura Keene was standing by the prompt box going over that scene with me. I could see everything that was going on in the president's box. Booth chose a moment when there was nobody in front of the stage and no one near the entrance but Miss Keene and myself. The shifters had just put on a close front scene, which in those days was slid into position by men from behind. As a consequence there was no way for Booth to get off the stage and out of the theater without passing us at the curtain entrance. I had seen Booth come into the theater a minute before. He kept his horse in a stable in the alley on which the stage opens and had the run of the theater.

**Was a Frequent Visitor.**

"There was nothing unusual in seeing him come in during the performance. He was not acting at the time. It was said that he was engaged in the oil business in Pennsylvania, but he came to our theater whenever he was in Washington.

"Booth had been around the theater during the day and managed to put some nails in place behind the door in the president's box, through which he thrust a stick that acted as a barrier to those outside after he had fired the shots, as he knew every foot of the house. He contrived to do this without detection. He had no stick when I saw him going in. He must have hidden it somewhere.

"As he jumped from the box after firing the shot his foot caught in the folds of an American flag that draped the box and he fell on the stage with one knee bent.

**Jumped Twelve Feet.**

"It was a jump of 12 feet. One of the men in the president's party grasped him as he jumped, but Booth cut away the ball of his coat with a knife that he carried and got free. The man who tried to stop him was badly cut in the arm. The blood found in the box and on Miss Keene's dress came from that cut and not from the wounded president.

"Although, as it afterwards proved, Booth fractured one leg by his faulty jump, he was up again in an instant and walked rapidly between Miss Keene and myself toward the stage door leading into the alley. He did not utter a word, but carried the bloodstained knife upright in his left hand. In less than 30 seconds from the time he fired the shot he was in the street. He could not have found a more direct method. Miss Keene ran toward the president's box.

**Followed the Assassin.**

"I followed Booth. I saw him knock down the man holding his little, yellow mare and dash out of sight. I had seen him come to the stage door on the mare a score of times. He used to come and wait for John McCullough, with whom he often went riding after rehearsals.

"I followed the crowd to the house across the street where the president was carried. I had been constantly there on errands to members of our company and was well-known to the family. On one occasion when I was sent there less than three weeks before the tragedy, I saw Booth smoking a pipe on the same bed on which Lincoln died."
